Purely vegetable—Dr. Pierce's Pleasant Pellets. They're a compound of refined and concentrated botanical extracts. These tiny, sugar-coated pellets—the smallest and the easiest to take—absolutely and permanently cure Constipation, Indigestion, Sick and Bilious Headaches, Dizziness, Bilious Attacks, and all derangements of the liver, stomach and bowels.

They cure permanently, because they act naturally. They don't shock and weaken the system, like the huge, old-fashioned pills. And they're more effective. One little pellet for a corrective or laxative—three for a cathartic. They're the cheapest pills you can buy, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.

CHILDREN
 who are puny, pale, weak, or scrofulous, ought to take Dr. Pierce's Soiden Medical Discovery. That builds up both flesh and strength. For this, and for purifying the blood, there's nothing in all medicine that can equal the "Discovery." In recovering from "Grippe," or in convalescence from pneumonia, fevers, or other wasting diseases, it speedily and surely invigorates and builds up the whole system. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, rouses every organ into natural action, and brings back health and strength. For all diseases caused by a torpid liver or impure blood, Dyspepsia, Biliousness, Scrofulous, Skin and Scalp diseases—even Consumption (or Lung-scorfula) in its earlier stages—the "Discovery" is the only guaranteed remedy. If it doesn't benefit or cure, in every case, you have your money back.

Specimen Cases.
 S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Snipes & Kinsley.

"That government is best which governs the least." When little Johnny read this he said, "I'll have to show that to dad."—Boston Transcript.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism, or neuralgia quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by Blakeley & Houghton Druggists.

Ayer's Sarsaparilla does what no other blood medicine in existence can do. It searches out all impurities in the system and expels them harmlessly through the proper channels. This is why Ayer's Sarsaparilla is so pre-eminently effective as a remedy for rheumatism.

Binks—What's the biggest lie you ever heard? Jinks—Teddie Thoughtless's boast that he once had brain fever.

To eradicate the poisons which produce fever and ague, take Ayer's Ague Cure. It cures without leaving any injurious effect upon the system, and is the only medicine in existence which may be considered an absolute antidote for malaria.

Bucklen's Arnica Salve.
 The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinsley.

WOKE HIM UP AT LAST.

How a Sleeping Telegraph Operator Was Awakened to Duty.

There is a good story about a telegraph operator who once worked the land wires in the Duxbury cable office going to sleep one night and a message having to be sent six or seven thousand miles to wake him up. The operator is now a practicing physician in Cambridge, Mass., but before annexing M. D. to his name was one of the gifted telegraphers of the country, says a writer in Donahoe's Magazine.

One night while on duty in the Duxbury office he fell asleep at his key. The sleep was a sound one. The New York operator called till out of patience, when he sent a message to Boston requesting the chief operator in charge to tell Duxbury to answer New York. The sleeper, however, was as deaf to Boston's "Di, Di," as to the impatient characters flashed on from New York.

In the cableroom next the sleeping operator was the cable artist. The room was dark and he was watching the mirror for the tiny sparks that in those days went to make up a message. To him the Morse alphabet was all Greek, so the sleeper slept on.

Seeing no other way out of the muddle and thinking the operator asleep, New York called Canso in Nova Scotia and addressed a message to the cable operator at Duxbury. The message read:

"Go into the other room and wake up that operator."

Canso sent it to Heart's Content in Newfoundland; Heart's Content rushed it across the deep to Valentia. From there it went to London, thence to Dover, and across the channel to Calais and to Brest. Brest kept it moving on to Miquelon and Miquelon gave the cable operator at Duxbury a unique surprise. The sleeper was then aroused, about eleven minutes having been taken by the grand round of the cablegram. He tried to explain matters by telling New York he was out of adjustment. The story didn't impress the officials as being truthful, and in a day or two there was a vacancy in Duxbury.

THE SOLDIER'S WORK.

Regulars Labor the Same as Any Other Workingman.

"Carrying a gun and shooting when you are ordered to shoot is a business the same as laying brick or making a boiler to the average regular soldier," said one of the privates of a company on guard at the custom house during the great strike, says the Chicago Herald. "These people," he continued, "who call themselves laboring people, and jeer at us and insult us, seem to forget that when a man enters the regular army in times of peace he doesn't do it from any particular motive of patriotism. It is a business with him, and it has less of freedom in it than any class of labor that I know anything about. A regular is absolutely under the eyes of his superior day and night. He can't go across the street without permission. He has requirements made of him every hour in the day. He undergoes about as many privations as any laboring man I ever heard of. I wonder if some of these civilians who think proper to jeer at us, and insult us, as many have done in Chicago, ever stop to realize what we have done for their welfare and good in other times? I wonder if they think we have been kept, sometimes for months and years, away from the civilization which has given them so many advantages? I wonder if they think we are doing this thing for our health? The regular private is as much a laboring man as any now on a strike; he is under a contract, the violation of which means disgrace if not death. And yet it remained for us, who have been among Indians and snowstorms and all privations, to come here, under orders, to be insulted and spitefully used."

THE ORIGIN OF TATTOOING.

It Dates So Far Back That It Is Lost in Antiquity.

Tattooing dates back so far that it is impossible to discover when it was first practiced, but it was one of the practices that were prohibited to the Jews, for in Leviticus 19:28, is the following: "Ye shall not make any engravings in your flesh for the dead, nor print any marks upon you." From this it may be inferred that tattooing was prevalent in the days of Moses. It is a custom that prevails among the savage nations of the earth and tattooing is practiced to this day, except where Christianity and civilization have put a stop to it. It was at one time years ago, and is yet, but not to such a marked degree, a fad among sailors to have various designs placed on the body. It was also a fad among a certain class of silly women to have their lover's name tattooed on the arm or breast. There are sailors in almost every seaport at this time who are willing for a consideration to place figures on the flesh of any who are foolish enough to have disfiguring marks driven beneath the surface of the skin with needle points dipped into coloring matter.

Skinned Himself and Ate It.

My uncle and sister and I were out in the garden one day watching a little toad, and my uncle took a twig and very gently scratched first one side of the toad and then the other. The toad evidently enjoyed it, for he would roll slowly from side to side, says a correspondent in the Philadelphia Press, and blink very expressively. I was so interested that when they went in I took the twig and did as my uncle had done. If, thought I, if he rolls from side to side, as I touch him, what would he do if I ran the twig down his back? I did so, and what do you think happened? His skin, which was thin and dirty, parted in a neat little seam, showing a bright new coat below, and then my quiet little toad showed his knowledge, for he gently and carefully pulled off his outer skin, taking it off the body and legs first, and then blinking it over his eyes, till—where had it gone? He had rolled it in a ball and swallowed it.

Gentlemen:
 On arriving home last week, I found all well and anxiously awaiting. Our little girl, eight and one-half years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, we are
 Yours,
