FRIDAY, OCTOBER 5, 1894.

A DOUBTFUL ELECTION.

The election in Georgia results exactly as was expected in the usual democratic victory though by decreased majorities. That result will be duplicated in every state south of Mason and Dixon's line.

OHIO MONEY.

The democrats of Ohio have adopted or rather have issued a manifesto which starts out with a falsehood. It says the last campaign "was fought upon two principal issues, a reformation of the tariff, and the adjustment of the money question by the restoration of silver to its rightful power and functions as one of the money metals under the constitution."

PENNOYER DECLINES.

"Governor Pennoyer in a letter declining an invitation to fill a week's engagement in Montana says: "If the present ruinous depression in business and values, resulting directly from the demonization of silver, and not from any tariff taxation, or change in such taxation, will not persuade the people of Montana to vote against both of the old political parties, dominated by Wall Street and equally responsible for such demonization, then no persuasion of mine would be availing, 'neither will they be persuaded though one rose from the dead.'"

Prof. Dewar is attracting world-wide attention by his remarkable series of successful experiments in the Royal Institution laboratory, where he has liquefied oxygen, solidified nitrogen and reduced air to a frozen solid at a temperature of 246 degrees Fahr. below zero.

In perusing the Pendleton Tribune of yesterday which devotes most of its space to the visiting editors, we realize fully what a fine time our more fortunate brethren and "sisters" have had. We have the consolation, however, of knowing that we do not have to go home and go to work again.

Some of those editors won't require another solid meal before Thanksgiving, which is perhaps fortunate for them, for they might not get it.

The democratic majority in Georgia has been reduced from 65,000 to 20,000. Some of our exchanges see in this a sign of weakening in the democracy of the South. They forget that Hoke Smith is from Georgia and that the falling off in the vote was caused not by defection, but by Hoke applying 50,000 Georgians with office. If the president does not check him, Georgia will either be populist or depopulated by another election.

GUIDO's later works are very inferior. They were painted in haste, to raise money for the gaming table.

POINTS ABOUT PEOPLE.

The Best Medicine.

J. O. WILSON, Contractor and Builder, Sulphur Springs, Texas, thus speaks of Ayer's Pills:

"Ayer's Pills are the best medicine I ever tried; and, in my judgment, no better general remedy could be devised. I have used them in my family and recommended them to my friends and employees for more than twenty years. To my certain knowledge, many cases of the following complaints have been completely and

Permanently Cured

by the use of Ayer's Pills alone: Third day chills, dumb ague, bilious fever, sick headache, rheumatism, flux, dyspepsia, constipation, and hard colds. I know that a moderate use of Ayer's Pills, continued for a few days or weeks, as the nature of the complaint required, would be found an absolute cure for the disorders I have named above."

"I have been selling medicine for eight years, and I can safely say that Ayer's Pills give better satisfaction than any other pill I ever sold." - J. J. Perry, Spottsylvania C. H., Va.
