NO. 261

## A ROYAL UPRISING

Is Threatened in Honolulu on Election Day.

### ATTEMPT TO RESTORE THE QUEEN

Samoa Rebels Will Not Allow the Island Commission to Meet—Will be Protected by a Warship.

SAN FRANCISCO, Oct. 26.—The steamship Alameda arrived this morning from Sydney, Auckland, Apia and Honolulu, bringing the following news advices, under date of Honolulu, Oct. 16:

Rumors of a royalist uprising have been very scarce for the last few months, but, now that the first election of the new republic draws near, these reports have again been circulated. This time election day, October 29, has been chosen as the date of an attempt to restore the ex-queen, but very little stock is taken in the tale.

The nominations for senators and representatives have been made. Out of 12 chosen for this island (Oahu), only two are natives, and this has caused some criticism among the native annexationists. Every nominee has been pledged to the support of the annexation platform, to the exclusion of everything else.

Sanford Fleming, the Englishman who has been in Honolulu for some time in the interests of the British Cable Company, which proposes to lay a cable to Australia, leaves on the steamer today. He has asked the government to cede Necker island to England, claiming if this is done the cable project will at once be carried through, and Necker island will be the half-way house between Victoria and Australia, with a branch line to Honolulu. He has also asked for an exclusive cable right on Hawaiian territory. The latter proposition has not met with the approval of Hawaiian government, and will probably not be accepted. The former grant would probably be made under certain conditions. At present no definite arrangement has been concluded.

### Proposed Cable to Australia.

SAN FRANCISCO, Oct. 26.—Sanford Fleming, commissioner for the Canadian government in the matter of establishing cable connection between Canada and Australia, and English Commissioner Mercer arrived on the Alameda from Honolulu this morning. Both gentlemen express themselves as sanguine of the success of the cable project. In an interview, Mr. Fleming said that he and his colleague were very warmly received by the members of the Hawaiian government, and that the people are more than anxious for a consummation of the project. "Of course," he continued, "they would prefer to have communication established with San Francisco instead of Vancouver, but as there is no immediate indication of the United States laying a cable they are anxious to seize upon the opportunity now presented, and it is not to be wondered at. The people there are cut off for weeks from news of the outside world. The Alameda brought the first news we had had in a fortnight, and that came from New Zealand. We go from San Francisco tonight to Ottawa. We shall not go to Washington, as has been stated, to urge the United States government to grant the request of the Hawaiian government for its consent in the matter in giving us a lease to one of the islands. That is outside of our province, and will leave it in the hands of the Hawaiians themselves."

### All Quiet in Samoa.

APIA, Oct. 26.—There have been no recent conflicts between the native rival bands. All the warriors are still under arms, however, and the people here are prepared for an outbreak to occur at any time. The Samoan island commission, which had prepared to hold sittings in the district of Atua to dispose of cases there, were notified by the heads of the rebel party that they would not be allowed to do so. The letter sent was a most impudent one. It is expected the commission will now proceed to Atua on one of the warships. A movement has been secretly inaugurated here to circulate a petition to the three treaty

powers, urging the removal of President Schmidt, with whose administration there is considerable dissatisfaction. The German warships Buzzard and Falke are still here. The British cruiser Curacoa will be relieved in about a week by the Wallaroo. The Union Steamship Company of New Zealand has inaugurated a monthly steamship service between here and Sydney via Tonga.

### Zella Will Be a Witness.

NEW YORK, Oct. 26.—It is stated Zella Nicolaus has been in close conference with Lawyer Goff and his partner, Mr. Pollock, for the last three days. She will be subpoenaed to appear before the Lexow investigating committee, and she declares she will tell all she knows. It is alleged her testimony will include an exposure of the secret relations between a world-famous multimillionaire of this city and the man who has long posed as the Chevalier Bayard of the police department. She will, it is asserted, relate all the circumstances attendant upon certain financial transactions between those two notable gentlemen in consequence, she alleges, of police protection of an extraordinary nature which was furnished to Gould, and the machinery of the police force was employed in the accomplishment of a private and by no means irreproachable purpose. Miss Nicolaus said: "I have consented to appear before the Lexow committee. I shall tell all I know, sparing no detail, shielding no man, the truth and nothing but the truth. The exact facts will be quite enough in this case without elaboration of any kind. I have been in communication with Mr. Goff and his partner. I expect to be subpoenaed immediately."

### New Discovery in Armor Plates.

PITTSBURG, Oct. 26.—A discovery in the manufacture of Harveyized armor-plate for battle-ships is announced by the Carnegie Steel Company. By the aid of electricity the "sand strip" on Harveyized plates have been dispensed with. The strip is six inches wide, and stretches the entire length of the plate. It is painted to indicate the places left soft where the bolts are located. The soft surface is big enough for a projectile to pierce and is dangerous. The Carnegie company tried to get some other method of bolting the plates. An electrical apparatus was tried and it proved successful. By an electrical force the temper of any part of a Harveyized plate can be drawn without affecting the surrounding portions. The entire surface of all plates will hereafter be under-packed with carbon, instead of being broken by the sand strip.

### The Discretionary Pools.

PITTSBURG, Oct. 26.—The discretionary pool managers, tired of the assault upon their credit and character, have determined to do some fighting. It has been pretty well established there is no law in this state under which they can be attacked unless they default, and probably not then. Manager Dudgeon, of the Traders' syndicate, and Manager Devlin, of the American syndicate, both incorporated in West Virginia, but with headquarters at Chicago, have combined forces. They will demand the appointment of a committee by the chamber of commerce to go to Chicago and examine the operations of the syndicates. Later, by paying all expenses, they claim they will show their operations are legitimate and will then take legal action against all persons who have criticized them and thereby caused the recent run.

### The New Cruiser Olympia.

SAN FRANCISCO, Oct. 26.—The progress made on the 5800-ton cruiser Olympia during the past two weeks has been very great, and three weeks more will witness her delivery to the United States naval authorities, all ready to assume a position among the crack ships of the white navy. Her armament will all be put in before she leaves the works. All of it has been received but five of the five-inch guns and two of the eight-inch guns. These are supposed to be on the way. The crew of the Olympia will probably be supplied from several of the vessels now laid up at Mare island, but mostly from eastern enlistments. All told the cruiser will require upward of 450 men.

### End of the Blythe Case.

SAN FRANCISCO, Oct. 26.—Florence Blythe-Hinckley will this afternoon virtually come into possession of the \$4,000,000 or \$5,000,000 estate left by Thomas H. Blythe. The findings in the noted

## Good Cooking

is essential to

## Good Digestion—

in pastry you cannot have either without a good shortening. Lard has always had very objectionable features, causing indigestion and many other dietetic troubles. Science has come to the assistance of the cook, and of weak stomachs, with the new shortening,

## Cottolene

It is composed of the choicest beef suet and highly refined vegetable oil, in many respects as good as the finest imported olive oil. Physicians endorse it, cooking experts recommend it, and thousands are now using it in preference to any other shortening. Refuse all substitutes.

Send three cents in stamps to N. K. FAIRBANK & CO., 111 South Oxford St., Brooklyn, N. Y. Some Cottolene Cook Books containing six hundred recipes, prepared by eminent authorities on cooking. Cottolene is sold by all grocers.

Made only by N. K. FAIRBANK & CO., ST. LOUIS and CHICAGO, NEW YORK, BOSTON.

case, which lasted so many years, were settled yesterday. When the findings are signed Probate Judge Coffey will announce the amount of the bond which the successful litigant in the great case must give to secure the payment of the balance of expenses which were incurred in the administration of the estates, and which have not yet been paid. By the findings the entire estate is distributed to Florence.

### The Detained Lexow Witness.

JERSEY CITY, Oct. 26.—Judge Lippincott today granted an order returnable Monday next requiring attorneys to show cause why a writ for the release of Matilda Hermann, a detained Lexow committee witness, should not be issued. The attorneys for the woman claim the charge of perjury, on which she is being held, is not genuine, and her detention is illegal.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure in the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address:

F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.

To Ascertain—We have been unable to ascertain Maud Muller's exact age at the time of that little episode with the judge, but she was undoubtedly in the hay day of her youth.—Buffalo Courier.

### Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who use Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood.—Will drive malaria from the system and prevent as well as cure all malarial fevers.—For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded.—Price 50c and \$1 bottle at Snipes & Kinersly's.

"The mikado is beating the emperor of China with ease." "Yes?" "Yes; with Japanese."—Pittsburg Chronicle-Telegraph.

### Sucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required.
