# PAPER MONEY.

first wild demand for a currency based idea is that a money based on the credit the jury. It is sale to say that no case of the nation is a good money. This, in in Wasco county has ever elicited the inone sense, is true, and that is that the terest this has. The First National cepted the government must promise to so great. pay in something besides other promises to pay, and as the money of the world is the final thing in which debts must be paid, the promise of the government to pay must be to pay in such money, and that is gold or silver.

The first paper currency ever issued possessed this very character, the prom-Tendilla, found himself besieged at Alhama in 1484, he issued pieces of paper same time issued an order that he would a punish any tradesman who refused to take them at their face. He promised to redeem these notes as soon as possible, and as the people had confidence in his ability to redeem, as well as his power to punish, they passed as money. No doubt these same notes would have been taken at par without any promise to redeem, for the reason that the Count would have beheaded those who refused. But in these days, as we have no power to punish, our notes can only be made to pass by the promise to redeem in the world's money, gold or silver.

### THE DEMOCRATIC SPHINX.

The letter that his excellency Grover Cleveland wrote, indorsing David Bennett Hill, and urging the New York democracy, the Cleveland style of democracy, to go to his aid, bears all the marks and brands necessary to identify it, as "the letter that never came." Like his prototype, the sphinx, Cleveland with sightless eyes turns his face to the desert, motionless, silent, soulless. has now been made certain that the Whatever other attributes the president may possess, he certainly has none that being under great pressure. will compare with his ingratitude. Following closely on this trail come egotism SACRED RIGHTS OF PROPERTY. and selfishness. Cleveland has always been bigger than his party, in his own An English Curate's Suit for Trespass In estimation and his good opinion of himself remains with him long after the public notice in England by the congood opinion of others has failed him. duct of Rev. John Vallaney, perpetual If David Bennett Hill had been as small curate of Rosliston, who in the Burton of soul as Grover Cleveland, that ob. county court prosecuted the daughter streperous chunk of obesity would never have warmed the presidential chair. "his" hay, by visiting her sister's grave Cleveland's action towards Hill and the democratic party in its hour of need is outrage on the sacred rights of properthe same of ingratitude. It is the child ty he claimed damages to the amount repudiating its father, the cur biting the of one shilling and sixpence. He conhand that fed it. the snake striking the bosom that warmed it into life, the son driving the dagger through the breast to go into it without his permission. that gave him nourishment. Democrats He cut the hay and stacked it in his yard, will find a place in history for this prince and had by a formal notice interdicted of ingrates. From a democratic standpoint he will be classed with Benedict Arnold and Judas Iscariot, and over his political grave, where he lies buried beyond the hope of resurrection morn, will appear that curse of Hafed's, which he so boldly pilfered.

### Concluded from Third.

DETECTIVE SIMMONS THE LAST. Mr. Simmons was recalled and told what he knew about the stick and paper. At this point the prosecution rested their case and the prisoners waived de-fense. This placed Justice Davis under the necessity of binding them over till various other remedies and several phythe grand jury could act on their cases. The defense moved to have the bail reduced from \$5000, which was the original THURSDAY: - NOVEMBER 1. 1894 amount. After hearing the arguments, \$3000, except Klein whose bail is kept at it. Free trial bottles at Snipes & Kin-\$5000. Gibons filed his bond with his ersly's.

The populist theory of money has father and John Marden as sureties.

become somewhat modified since the Savage has not yet obtained bondsmen. Public opinion is varied regarding the dry fir and hard wood for immediate on wheat, pumpkins and skimmed milk, strength of evidence presented by the delivery at the lowest rates, and hope to but some of the perennial greenback fal- prosecution. It is a question how much be favored with a liberal share of the lacies still hold sway with them. ### PROPERTIES OF THE RUBY. Recent Interesting Discoveries Regarding

the Crystals of Corundu The chief scientific interest of the ruby corundum flows from the ex-

traordinary peculiarities of structure that it presents, as well as from the of 100 to 160 acres grain land, same mysterious qualities that determine its amount of pasture, must have good striking color, says the Jewelers' Cirise to redeem in the world's money, and cular It is found in crystals of great this promise has been behind every cur-rency issued since. When Don Inigo tendency to the peculiar habit of Lopez de Mendoza, the good count of growth known to crystallographers as "twinning." By testing crystals of corundum with polarized light its structure is found to be wonderfully with different amounts expressed upon them, to his soldiers, and he at the its exterior face is covered with strange network of sculpture, indicative of molecular changes. But probably the most interesting thing about the corundum crystal is the fact that it is nearly always found to have inclosed and surrounded some foreign body or other which lies imprisoned in its midst. Stranger still is the fact that those "included" foreign bodies lie generally disposed in planes meeting each other at an angle of sixty de-grees, the result being to produce the phenomenon of "asterism," which is the term given to the white star of light which is observable on certain jewels cut with a rounded surface. Very frequently the imprisoned body is a minute bubble of gas or drop of liquid, containing sometimes little crystals of its own. The microscopic cavities containing these things are often very numerous. For a long time the nature of the gas and fiuld contained in the cavities remained a mys-tery. The English philosopher. Brews-ter, was induced to investigate the New Stock, Low Prices. subject by hearing that a ruby which an Edinburgh jeweler had placed in his mouth had exploded while in that

position, with unpleasant results. Other investigators followed, and it fluid is no other than liquid carbonic acid gas, reduced to that condition by

Mr. Allen Calif, formerly of this city, married in the East some five or six a perpetual curate. Had he been a rec weeks ago, and brought his bride West to his home in Portland about two weeks ago. As a welcome home he has been sued for breach of promise, by Miss Louie Tillock, a young lady of sixteen sweet summers and as many sugar." coated winters, who claims ten thousand dollars for disjointed affections, blasted hopes and unrequited love. There is no telling what the next Dalles boy will all the rest, when once laid to sleep, do, but as it is The Dalles inninge, we are prepared to chronicle anything without surprise.

The success that has attended the use of Dr. J. H. McLean's Volcanic Oil Linament in the relief of pain and in curing diseases which seemed beyond the reach of medicine, has been truely remarkable. Hundreds supposed to be crippled for life with arms and legs drawn up crooked or distorted, their muscles withered or contracted by disease have been cured through the use of this remedy. Price 25c, 50 and \$1.00 per bottle. For sale by the Snipes-Kinersly Drug Co.

Every mother should know that croup can be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. If Chamberlain's Cough Remedy is given freely as soon as the child becomes hoarse or even after the cough has developed it will prevent the attack. 50

"His" Churchyard. A curious fact has been brought to public notice in England by the con-duct of Rev. John Vallaney, perpetual curate of Rosliston, who in the Burton county court prosecuted the daughter of one of his parishioners for trespass-ing in "his" churchyard and damaging "his" hay, by visiting her sister's grave and placing flowers thereon. For this outrage on the sacred rights of proper-ty he claimed damages to the amount of one shilling and sixpence. He con-tended.says the New York Evening Post, that the churchyard was his private property and that no one had a right to go into it without his permission He cut the hay and stackedit in his yard, and had by a formal notice interdicted the defendant from damaging the crop by trimming the grass over her dister's grave, which had been done for three years. When the young lady persisted in visiting the grave a follow-of her of the sole of the sole of the sole of the grass over her dister's grave, which had been done for three years. When the young lady persisted in visiting the grave a follow-of her of the sole of the sol years. When the young lady persisted in visiting the grave he followed her, took hold of her, and, with a contemptuous remark upon the flowers which she had placed there, knocked them off

the grave with his stick. The reverend suitor lost his case because he was only tor he could have recovered. A London newspaper in commenting upon the case says: "By two sentimental fletions the churchyard is God's nero, and the church, the national or the people's church. But in dry law God's acre is the incumbent's freehold, and the only right of the people in the 'national' churchyards is the right to be buried "The rude forefathers of the there. hamlets,' the 'village Hampdens,' and merely serve the purpose of enriching the soil which produces the parson's hay crop, and their posterity may only visit their graves subject to the permission and convenience of the lord of the

soil.'

\$50,000,000.

Charities in London. The income of merely the principal charitable institutions having the headquarters in London amounts to over £7,030,000 per annum, or \$35,000, 000. That represents a sum could to half the whole capital invested in the Bank of Laphand. It exceeds the total revenues of all the Dritisk colories to gether in 1884, and it has much as the total annual revenues of all the Britisk colories, including New South Wales, Victoria and Canada. If there is added to this sum the income of the smaller charities the total benevolence paid voluntarily in the metropolis does paid voluntarily in the metropolis does not fall short of £10,000,000 sterling, or
