Work on the cannery is progressing rapidly. The sides are up and the rafters raised. With a few days good weather the roof will be on and then the work can be prosecuted steadily.

A four-horse team loaded with goods for the Warm Springs reservation, left this morning. An evidence of civilization in the shape of several bundles of mattresses formed a part of the load.

The recorder's court interviewed three individuals who had been imbibing too freely this morning. They were fined \$5 each, and what is particularly refreshing about the matter is that they each paid up.

A rumor is in circulation that the Regulator will soon tie up. There is absolutely no foundation for the statement. The incline will have to be abandoned by the 10th, but the new road will be laid, and the new incline completed by that time.

The governor has issued his Thanksgiving proclamation. This time he gave the president the first shot at it, and then accepted his decision. The governor's proclamation is as follows: "I hereby appoint the last Thursday of this month as a Thanksgiving holiday."

The celebrated play of Dr. Jekyll and Mr. Hyde will be on the boards here next Monday night, remaining one night only. The Seattle Post-Intelligencer, speaking of this play, says: "Richard E. French opened the week with Dr. Jekyll and Mr. Hyde, which ran successfully the entire week. Mr. French made a strong impression by his masterly transformation into the fiend incarnate Hyde, and the general excellence of the cast and scenery, made it to be regretted that this play could not have had a longer run."

The success that has attended the use of Dr. J. H. McLean's Volcanic Oil Liniment in the relief of pain and in curing diseases which seemed beyond the reach of medicine, has been truly remarkable. Hundreds supposed to be crippled for life with arms and legs drawn up crooked or distorted, their muscles withered or contracted by disease have been cured through the use of this remedy. A Jersey Lilly.

A Spokane deputy sheriff with the coroner and a newspaper reporter or two went recently to the northern boundary of the county to open a grave on a farm belonging to an old German named Hermann. Hermann's boy, aged 16 years, ran away some time ago and as the old man used to thrash him occasionally, the neighbors came to the conclusion he had, in a fit of anger, killed him. The discovery of a grave on the old man's ranch set all tongues wagging, finally resulting in the visit above mentioned. The old man sat by the grave while the coroner and sheriff shoveled out the dirt and when they reached a depth of five feet and unearthed the decaying remains of a Jersey cow, the old man laughed a laugh that made neither the sheriff nor coroner smile. And then he told them the last he had heard of the boy he was in Cheney, where they could find out all about him.

He Got Thirty Days.

Arthur J. Thornley was arrested in Portland a few days ago on a telegram sent from this place, and was brought here Wednesday evening. He had been employed by S. P. Conroy to sell packages of stationery containing prizes. A short time ago he received sixty packages, with which he was to work Hood River. He also had a watch and an overcoat belonging to Conroy. Instead of stopping at Hood River he went on to Portland and wrote back that he was going to San Francisco, but that he would settle up everything as soon as he was able, provided Conroy would not make any fuss about it. Conroy, however, swore out a warrant for him and had him brought back. On being arraigned before Justice Davis yesterday he acknowledged his guilt and was sentenced to thirty days in jail. The total value of the plunder he was trying to get away with was about \$15.

The Markets.

There is considerable activity in the wheat market, and especially is this true of Portland, though prices remain unchanged. Sales at that place have run from 62 to 63 1/2 for Walla Walla, and 70 to 72 Valley, per cental. The crop news from European countries does not vary much from previous reports. Advices from Russia vary greatly, some reporting favorably and others quite unfavorably as to the result of the wheat harvest. No official estimate of the crops has yet been issued. It is being anxiously looked for. The official reports of the exports of wheat from the Argentine Republic for the first six months of 1894 have been published, showing exports of 37,864,000 bushels, a little less than commercial reports have shown. The exports of wheat from Uruguay during the same six months were 2,240,000 bushels. None of the European corn trade journals appear to anticipate any improvement, unless it can be established that this grain is going to be more extensively used for feeding purposes in place of corn than is now considered probable. Desired to Die in Russia. LONDON, Nov. 1.—According to dispatches from Berlin, the Emperor William has received a dispatch from General von Werder, German ambassador to Russia, now at Lividia, saying the czar refused to go to Corfu, as he desired to die in Russia.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address: F. J.
