#### BRIEF MENTION.

Leaves From the Notebook of Chronicle Reporters.

Sauer kraut at W. A. Kirby's. The weather indications for tomorrow are snow and cooler.

In two weeks more the days will begin to again grow longer.

The Columbia Packing Co received another big drove of hogs last night.

The motion for a new trial in the Savage case is being argued this afternoon.

Although not warm, the weather moderated enough this morning to cause the snow to about all disappear.

Coffee supper at Salvation Army barracks on First street, Tuesday night, next, at 8:30. Supper 10 cents.

Yesterday's storm is followed by today's calm. It was not much of a storm either, a couple of inches of snow falling.

This has been about the quietest and dullest day since the June flood. The sloppy condition of the roads was the cause.

Those who have attended the Portland exposition are not highly pleased with it, but then some folks are hard to please.

Sheriff Driver last night arrested Morton Green on a telegram from Sheriff Maddock of Clackamas county. He is charged with counterfeiting.

The state board of equalization has been duly organized and is ready for the transaction of business, but its work is delayed by the fact that not all the counties have been heard from.

If Mr. S. A. Kinyon will send his postoffice address to this office we shall be pleased to forward him THE CHRONICLE. By some oversight we neglected to get his postoffice in entering his subscription.

On Monday, next, the show window at Pease & Mays' store will contain all sorts of articles suitable for Christmas gifts, which will be sold by the ladies of the Good Intent society. Call and look at them.

"You must let the baby have one cow's milk to drink every day," said the doctor. "Very well, if you say so, doctor," said the perplexed young mother, "but I really don't see how he is going to hold it all."

While the United States has 47,000,000 sheep, from which it produces 300,000,000 pounds of wool, Australia leads us with 550,000,000 pounds, and the Argentine Republic with 400,000,000. Last year we imported half the quantity we

raised. As mutton breeds are adopted the price of wool will advance, and sheep breeding improve in some lines at least.

The pulpit themes of Rev. J. Whisler at the Methodist Episcopal church for tomorrow, Sunday, Dec. 9th, are: In the morning, "Fidelity and Rewards in Christian Life;" in the evening, "The Divine Proprietorship in Man." All are welcomed.

Mr. W. E. Walther received a ton or more of El Cajon raisins from his father's ranch in Southern California, and which he is dispensing of at a remarkably low price. These raisins are the very finest, Malaga never growing their superior. We know whereof we speak because he sent a sample box to this office that nearly stopped all further business for awhile.

The Sun tells a hard one on the Holiday street car line at Portland. It is in effect that while the car was being whirled madly down towards the depot, the driver unhitched his horse, tied him to a post and went into a coffee stand to take a feed. The passengers stayed in the car until the driver returned, being determined to get their money's worth. That line always did need a Pullman car service.

The Columbia Packing Co. is doing a rushing business; for 100 hogs a day put away in shape to soon be turned into cured meats is not so bad. That is the kind of industry The Dalles and Oregon needs. This thing of selling wheat for 30 cents a bushel and buying bacon and hams at 15 cents a pound, would kill any farming community. One bushel of wheat for two pounds of ham, is well it is a high price for ham.

The members of the literary society will please remember that the following program, which was to have been given this week, will be in order Monday evening, and come prepared: Recitation, Miss Sampson; essay, Miss Rose Michell; debate, affirmative, Miss Newman and Mr. D. Roberts; negative, Miss Evelyn Newman and Mr. B. Phelps. Quotations from Scott. This is also the evening for election of officers.

The celebrated spirit medium, B. S. Garrison of Portland, has been taking a much-needed vacation upon the Columbia river. Last week was spent in Cascade Locks, and this week he will stop at The Dalles. Last night he held a seance at the house of Mr. Sayres, during which the most wonderful and interesting phenomena were developed, such as slate-writing, the materialization of spirit hands and faces, and a curiously pleasant evening was passed. The seance will be repeated this evening. Mr. Garrison would be pleased to meet any who are interested in spiritualism while here in The Dalles. He expects to return to Portland in a few days. In the meantime seances will be held wherever an opportunity is afforded.

All persons not worshipping elsewhere are cordially invited.

#### Two Men Hurt at Bonneville.

Edward Beck and Edward Bedlan, two section men, were taken to Portland, yesterday, having been badly injured, the latter perhaps fatally, in an accident on the O. R. & N. railroad. The two men were on a hand-car and were crossing a bridge near Bonneville, when they heard a work-train approaching from the eastward behind a curve. Being on the bridge and the train close at hand, there was no time for them to do anything towards making their escape. In fact before they could devise means for their rescue, the locomotive swung around the curve. It struck the handcar, hurling it from the bridge into the air and onto the rocks below. The train was stopped, and the men were picked up.

Bedlan had his skull broken open in such a manner as to expose his brain, but the other man was not dangerously hurt, but severely bruised. They were brought to Albino, and after a brief examination were removed to St. Vincent's hospital. Last evening Bedlan, who had his skull fractured, was reported in a very serious condition, while the other one was getting along very well.

Conductor Galley was in charge of the train. No blame is attached to the engineer, as the handcar could not be seen before the train was too close to stop.

#### The Public Schools.

The board of directors of this school district at their last meeting decided to appoint two more teachers. There are now 200 more pupils than ever before. This increase has been caused largely by raising the grades, which has brought from fifty to seventy families into the city solely for the purpose of taking advantage of the schools. The daily attendance now is 627. The rooms are crowded, and after the additional teachers are employed they will have pupils as follows: Professor Gavin 64, Miss Michell 39, Miss Hill 42, Miss Cooper 43, Miss T. Rintoul 46, Miss L. Rintoul 42, Miss Finn 45, Miss Phirman 48, Miss Snell 41, Miss Ball 45, Miss Rowe 54, Miss Hollister 47. The Union street annex will have 44 and the East End 32. These are the figures after two more teachers have been employed, so it will be seen that the present force of teachers have more than they can attend to.

Dr. Miles' Pain Pills cure Neuralgia.

Hon. F. P. Mays came up from Portland last night and will remain until Monday.

Prosecuting Attorney Jayne is recovering slowly, and hopes to be able to return to his home tomorrow. Mrs. Jayne has been in constant attendance upon him ever since he was attacked. His many friends here hope he may soon regain his health.
