WHO KNOWS,

"Man never is but always wants to be," and this trueism is made perfectly plain and apt in the present wild scramble to get the country on a silver basis. It may be possible the country will be better, that times will be better if the change is made, but we do not believe such will be the case. We do not pretend to be a prophet, or to be able to peer into the future and tell what effect the change of a monetary system by a nation of seventy millions of people will have on the world. We know that today under our present system, every dollar of the country's money, whether gold or silver or paper, is worth one We know that in countries dollar. where the silver is coined as it is proposed to be coined here, the dollars are not of equal value, but that the silver dollar is worth only its bullion value, and not a cent more. We believe, therefore, that the cause that has produced such effects in other countries, will produce the same effect here. What we have in the shape of a financial policy may not be perfect, but at least we know what it is.

Our silver friends are much in the condition of those wounded Japaneses on the warships, after a recent naval battle, whom the physicians found hopelessly wounded. The poor fellows raised their heads and opened their mouths, with implicit faith in the skill of the physicians, only to receive a drop of hydro-cyanic acid-and death.

A PRECOCIOUS DEMOCRAT.

An intelligent news-gatherer for the Associated Press telegraphs the astounding announcement that the Jacksonian Club of Omaha, the leading democratic organization of the state, celebrated the 82d anniversary of the birth of its patron saint, General Jackson, yesterday. We always knew the democracy were behind the times, but did not think they were back more than twenty or thirty years. At any rate no one can accuse the old general and democratic president of being slow if, as the dispatch indicates, he fought the battle of New Orleans the day he was born.

The Oregonian yesterday makes the assertion that the Hon. Jonathan Bourne is the head and front of the silver movement in this state, and we believe is perfectly correct in its assertion. In speaking of Mr. Bourne's abilities as a politician and manager it further says that Bourne supplies the phrases and argu-Wasco County: David D. meaning." The word sequipedalian is of particularly happy choice in the con-nection, since it denotes the giving to words, as Mr. Bourne would to silver, a measure much larger than belongs to them. The fight against Budd and the at-tempt to seat Estee as governor of Cali-fornor have been abandoned, and gov-ernor-elect Budd was sworn in today. It was a foolish contest in the first place, for the reason of Estee's unpopularity was the fact that he was supposed to be too friendly to the Southern Pacific rail-road. That was what made Mr. Estee drag along far in the rear of his ticket. There were lots of republicans who felt that a democratic governor was a that a democratic governor was a smaller evil than having the railroad managers in charge of the state.

The vote on the adoption of school books has been taken as appears in the dispatches on the front pages of this paper. Some changes have been made, but the American Book company are still to furnish the larger portion of the books for the next six years.

Text-Book Question Settled.

SALEM, Or., Jan. 8 .- The canvass of the vote of the several county school superintendents by the state board of education, consisting of Governor Pennoyer, Secretary of State McBride and Superintendent of Public Instruction McElroy, for a series of textbooks to be used in the public schools of Oregon for a period of six years, under the law, exhibits the following results:

First-No textbook has received a majority of votes cast under the following topics: Orthography, spelling blanks,
