NO RAILROAD WANTED.

MONDAY, - - JANUARY 14, 1895

The Prineville Review has stirred up quite a controversy concerning the effect it would have on the business interests of Crook county to have a railroad built into it. The Review thinks the county better off without it, and frankly says so. thought differently from itself, and it is getting them. We have followed the discussion closely, because the subject is an interesting one to us, because the Review has presented some arguments we send us \$2.25 and you can have them, consider unanswerable, and that certainly remain so, as far as the argument and a half a pioce. If you would rather has progressed, and because we have have the New York World, we will send had experience in just such a case. you that and the SEMI-WEEKLY CHRON-That experience was had in the state of ICLE one year for \$2.25. The World is Nevada, we living in a stock region, where conditions were almost identical with those now existing in Crook county. Everybody was prosperous, produce brought a good price, and the money paid to the freighters was largely spent in the country. The hay and grain used by them made a good market for those products. The coming of the Nevada Central railroad changed these conditions, and the freighter vanished. So did the market, so did prices. Freight, with the exception of a few products, staples, was as high as ever, but instead of being paid to dozens of teamsters, who spent the money again or a large portion of it, for the products of the country it went to San Francisco and returned no more. That was fourteen years ago and that section of the state has never been worth a tinker's curse. Speaking from experience we heartily indorse the position taken and so well maintained by the Review.
