Gold Reserve Diminishes.

WASHINGTON, Jan. 25.—The secretary of the treasury has authorized for sale gold bars for export on the payment of a premium of 3/4 of 1 per cent to cover the cost of manufacture and transportation, and this morning \$1,000,000 was taken on these terms. There were withdrawn \$3,800,000 coin and 900,000 additional was engaged for export tomorrow, making up at noon \$5,700,000. This leaves the gold reserve \$58,024,428, and the amount of gold coin on hand above the amount of outstanding gold certificates, \$10,912,280. Treasury officials, however, do not regard the amount of coin received on deposit for certificates as sacred to their redemption, but will continue to pay out gold on demand for legal tender. It is deemed ample sufficient. There is enough gold in either coin or bars to meet the demand on the gold certificate. While the situation is regarded as a very trying one, there is no thought of anything so serious as to involve the credit of the government, which the secretary will fully maintain at all hazards.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a Severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. A year ago he began the use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all Kidney and Liver trouble and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle. At Snipes & Kinnersley's Drug Store.

Father (to small son with black eye)—What's the matter, Dick? Small Son—Johnny Higgins hit me this afternoon. Father—Well, he's a boy of your size. I hope you hit him back? Small Son—Oh, I hit him yesterday.—New York Sun.

Symptoms of kidney troubles should be promptly attended to; they are nature's warnings that something is wrong. Many persons die victims of kidney diseases who could have been saved had they taken proper precautions. The prompt use of Dr. J. H. McLean's Liver & Kidney Balm has saved thousands of valuable lives. If you have any derangement of the kidneys try it. Price \$1.00 per bottle. Sold by Snipes & Kinnersley, druggists.

Domestic—Oh, please, mum what shall I do? Half the soup is spilt, and the borders is at the table. Mrs. Slim-diet—(firmly)—Empty the box of red pepper into what's left. There will be enough then.—New York Weekly.

Many stubborn and aggravating cases of rheumatism that were believed to be incurable and accepted as life legacies, have yielded to Chamberlain's Pain Balm, much to the surprise and gratification of the sufferers. One application will relieve the pain and suffering and its continued use insures an effectual cure. For sale by Blakeley & Houghton Druggists.

Minnie—Hattie Homeleigh seems to be crazy over Boston men. Everyone of those fellows with her wear eyeglasses. Mable—It isn't that, my dear. There is a method in her madness. She knows they are all shortsighted.—Harlem Life.

Exposure to rough weather, dampness, extreme cold, etc., is apt to bring on an attack of rheumatism or neuralgia; chapped hands and face, cracked lips and violent itching of the skin also owe their origin to cold weather. Dr. McLean's Volcanic Oil Liniment should be kept on hand at all times for immediate application when troubles of this nature appear. It is a sovereign remedy. 25c, 50c and \$1.00 per bottle.

W. A. Clark, the Montana mine owner, is building a million-dollar palace in New York. His fortune is estimated at from \$20,000,000 to \$40,000,000. Thirty years ago Mr. Clark arrived in Montana with a pick on his shoulder.

SOUTHERN PLANTATIONS.

Conducted Differently from the Way They Were Managed Under the Old Regime. Plantations at the present day are conducted very differently from the way they were managed under the old regime. The one I have in mind comprises something over five thousand acres. The proprietor reserves about two hundred and fifty acres for his own planting and rents out the remainder to small farmers, who give him so many pounds or bales of cotton for the rent, in proportion to the quantity and quality of the particular piece of ground they cultivate, the size of house and corn house of which they have the use, etc. Much discrimination is required in the selection of tenants, for defective or indifferent farming will impoverish the land and endanger the landlord's chances of collecting his rent. Most of the tenants are negroes, forty families of that race residing on the place.

Of these, says the Boston Transcript, there are a number who are excellent farmers, thrifty, industrious, prompt in paying their obligations, and thoroughly interested in everything that pertains to their business, the wife working as hard as her husband—harder, in fact, because when her field work is over she cooks the simple meals, washes the clothes and patches the garments for her numerous family by the blaze of a light wood torch, after the members of the household are rolled in their respective "quilts" and voyaging in slumberland. She does more than this, for she raises chickens and turkeys, sometimes geese and ducks, using the eggs for pocket money and to obtain the tobacco which is as necessary to her comfort as to that of her husband and sons.

The majority of the negroes go to work in the early morning, with no breakfast, or perhaps only a crust to nibble on. When they come in, at twelve o'clock, a stirabout is made (a dish concocted of corn meal, salt and water, and looking very much as the name suggests) of which all the family partake, the elder members eating an "allowance" of bacon. Any luxuries they may enjoy appear at the evening meal, such as coffee, flour, etc. Usually, however, their fare is of the simplest, and cold water their beverage, except on Sundays and high days, celebrated usually with reference to some religious festival. Too much credit cannot be given these hard-working wives and mothers, who hoe, rake, cook, wash, chop, patch and mend, from morning until night. Very often garments will be patched until scarcely a trace of the original foundation material can be seen, and there are many cases where the wife is much the best "bottom chopper" of the two, and her work far more desirable than her husband's.

HORSES FOR UNCLE SAM.

Animals for Cavalry Service Obtained Very Cheaply.

The government has been picking up horses for the cavalry and artillery service very cheap in Washington and Oregon this summer. The average price paid was seventy-five dollars for each animal, which is uncommonly low when the style of animal required for the army is considered. A government purchasing agent says: "We inspected recently at The Dalles, Pendleton, Walla Walla, Ellensburg and North Yakima, and at each place found about one hundred awaiting examination. I selected such as met the requirements, which are that they must be bays and grays, fifteen hands high and upward, and from four to eight years old. These were passed upon by the government officials, and, if found satisfactory, were accepted. They were purchased at a very low price, as the sellers had but little money, and were anxious to dispose of their stock. The animals bought are of fine class, and especially suited for cavalry purposes. The lowness of the cost of horses this year may be attributed to the small demand, which is insignificant when compared with the supply. Never before during the fifteen years or so that I have been inspecting horses for the government have I seen times so dull in the stock regions, or the stock dealers so anxious to sell their animals at a small price. The small demand is, of course, due to the supplanting of horse cars by electric and cable railways, the shutting down of logging camps and lumber industries on Puget sound, and the general dullness of trade. In Portland cars which would require thirty-five hundred horses are operated by cable and electricity. Then the freight cars operated on these steel railways have shut out trucks and delivery wagons on which a large number of horses were used."
