Steps Toward Government Control of Railroads.

Carroll D. Wright, in the February Forum.

The reason why it is that the Chicago strike is exerting an influence as a subordinate phase of a silent revolution—a revolution probably in the interest of the public welfare—is because it emphasizes the claim that there must be some legislation which shall place railroad employes on a par with the railroad employes in conducting the business of transportation, so far as the terms and conditions of employment are concerned; it is because the events of that strike logically demand that another declaration of law and of the principles of the Federal Government shall be made; a declaration that all wages paid, as well as charges for any service rendered in the transportation of property, passengers, etc., shall be reasonable and just.

A declaration of this character, backed by the machinery of the Government to carry it into effect, would give to railroad employes the status of quasi-public servants. The machinery accompanying such a declaration should be modelled on the Interstate Commerce Act. It should be provided that some authority be established for the regulation of wage contracts on railroads. I would not have the machinery of the law for the regulation of such matters provide for a compulsory adjustment, as now provided for the adjustment of freight rates, but I would have such machinery that there would be little inducement, under it on the part of railroads to pay unjust and unreasonable wages and on the part of employes to quit work when they were just and reasonable.

Government Forces Win a Victory at Bogota.

COLOM, Colombia, Jan. 31.—A severe engagement has been fought at Bogota, between the government forces and the rebels, and 200 of the latter were killed. The government troops were under the personal command of the president. The victorious troops have been sent by train from Cartagena to Michinan, to engage the rebels there. Six liberals have been arrested at Cartagena. Men are being pressed into service by the government.

The steamer, Amerique is aground near Savinalla. Her position is serious.

Large Hats Must Go.

ALBANY, N. Y., Jan. 31.—People laughed when Assemblyman Cutler, of Rockland county, introduced a bill aimed at the custom of wearing big hats at theaters. When first introduced, the measure looked very much like a joke, but today the committee will prove that Mr. Cutler means business, by reporting the bill favorably to the house.

Many stubborn and aggravating cases of rheumatism that were believed to be incurable and accepted as life legacies, have yielded to Chamberlain's Pain Balm, much to the surprise and gratification of the sufferers. One application will relieve the pain and suffering and its continued use insures an effectual cure. For sale by Blakeley & Houghton Druggists.

That Big Slide.

Mt. Bradley, whence the avalanche got its start, is a steep bald mountain nearly two miles from the river. As the slide started down the mountain it gathered strength and bulk in its path. It soon began to take brush along and then trees. Plowing through a deep and narrow gorge it carried trees, rocks and everything in reach. Great pine trees three or four feet in diameter were twisted off like reeds and carried along on the breast of the avalanche, diving into the snow and then shooting up in the air until they struck the opposite bank of the Sacramento river more than a mile away from the starting point.

When the avalanche crossed the river it was nearly a thousand feet wide and fifty feet deep. It ran up on the bank on the east side of the river, and dammed the water completely for some time. At Dunsuir, over a mile south of the slide, the river ran so low at one time that a person could walk across without wetting the soles of his feet.

Tuesday, while the men were away to their noon meal, another wild avalanche came down bigger than the first one and spread out on top of it, burying the railroad track fifty or sixty feet deeper. Two big pine trees, between four and five feet in diameter, plowed a trench through the hard snow and shot across the river, burying one end into the bank on the other side, and making two bridges across the Sacramento.

To give one an idea of the amount of snow that came down, besides what went into the river and was washed away, there is a body 1200 feet wide, 2000 feet long and 50 to 100 feet deep. If the men had been at work when the last slide came down there would have been over a hundred of them buried under the snow, crushed to death or slid into the river.

One of the working men went up on snowshoes to near where the snow broke loose. He reports that the snow was between thirty and forty feet deep where the avalanche broke off, and the piece that came down is only a speck compared to what is left and ready to start at any time.—Dunsuir News.

There is good reason for the popularity of Chamberlain's Cough Remedy. Davis & Buzard, of west monterey, Clarion Co., Pa., say: "It has cured people that our physicians could do nothing for. We persuaded them to try a bottle of Chamberlain's Cough Remedy and they now recommend it with the rest of us." 25 and 50 cent bottles for sale by Blakeley & Houghton Druggists.

Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. Belle—And so you have accepted Harry? And you always laugh at the idea of marrying him. Nellie—I know it. But when he proposed I was all taken back, and I exclaimed, "Do you take me for a fool?" And he said, "No, I want you for myself." It so astonished me that he should say anything so bright that I said "Yes" before I knew what I was doing.—Boston Transcript.

Carlton Cornwell, foreman of the Gazette, Middleton, N. J., believes that Chamberlain's Cough Remedy should be in every home. He used it for a cold and it effected a speedy cure. He says: "It is indeed a grand remedy, I can recommend to all. I have also seen it used for whooping cough, with the best results." 50 cent bottles for sale by Blakeley & Houghton Druggists.

We'll just address a private circular to the different members, asking if they are old enough to vote, and stating if they will be able to cast a vote this election that we'd like to have it count for us.—Pittsburg Dispatch.
