THE NICARAGUA CANAL

Morgan's Bill Detrimental to British Interests.

ENGLISH GOVERNMENT QUESTIONED

England Considers Such a Canal Should be Under International Control, and Will Advance This View.

LONDON, Feb. 14.—In the house of commons this afternoon Sir Edward Harland, conservative, asked whether the government was aware that Morgan's Nicaraguan canal bill had passed the United States senate and was now before the house of representatives, and whether in view of the importance of the canal to British shipowners, the government would not make urgent representations to the government of the United States against the provisions of the bill detrimental to the interests of British shipping. Sir Edward also asked whether the government would consider the propriety of urging upon the government of the United States the importance of the creation of a British and American commission to deal with the question of the construction of the canal and its status when built.

Sir Edward Gray, parliamentary secretary for the foreign office, replied it was not usual for the government to make any representations against bills before foreign legislatures. The government, he added, considered such a canal as it was proposed to construct through Nicaragua should be under international control and whatever steps it may deem desirable will be taken by the government to advance this view. He, however, saw no reason to suppose the United States would not maintain the treaty engagement.

Sir George Baden-Powell, conservative, questioned the government regarding the proposed Pacific cables. Sidney Buxton, of the parliamentary colonial office, said negotiations relative to the construction of the cable were proceeding, but it would not be to the public interests to enter into a detailed statement of their status.

The Alleged Perpetrators in Custody at Paris, Tex.

PARIS, Tex., Feb. 14.—Deputy United States Marshal George Stewart arrived here last night, having in charge Fred Wilson, charged with murder and arson.

Last week a house was burned near Easton, Indian territory, and the dead bodies of a family named Tucker, consisting of five persons, were found in the ruins. They had been murdered and the house fired. Wilson was Tucker's son-in-law, and previously trouble had occurred between them. Wilson was arrested by 20 armed men and turned over to the United States authorities. He feared lynching when arrested, and on being taken to view the charred remains of his alleged victims begged for his life.

Mississippi Citizens Stirred Up Over a Shocking Murder.

MERIDIAN, Miss., Feb. 14.—Sander Carlisle, the negro charged with the assassination of his landlord, John Hurst, of Butler, Ala., has surrendered to the officers there. He denies killing Hurst, but says Hurst's son and daughter killed the old man. He (Carlisle) was offered and accepted 40 acres of land and a mule to do the deed, but on reaching the spot where the murder was to be committed, his heart failed him, and he threw up the job, leaving it for young Hurst and his sister to do it. The trio are in jail awaiting investigation, but the probabilities are they will never reach trial, as the citizens are very indignant, and talk freely of lynching them.

Privileges for Harbor Commissioners.

SAN FRANCISCO, Feb. 14.—The Produce Exchange today indorsed a bill to be

submitted to the legislature permitting the harbor commissioners to lease the ground along the city front for the erection of grain warehouses for 20 years, instead of from month to month, as at present, to divert grain warehousing to this city from Port Costa, where it is now shipped and loaded on vessels. It is supposed that local warehouses will operate in conjunction with the San Francisco & San Joaquin Valley railroad.

Secretary Carlisle's Reply.

WASHINGTON, Feb. 14.—Secretary Carlisle today sent the senate a reply to the resolution introduced by Gorman, asking among other things, for information as to what portion of the gold reserve in the treasury January 1, 1893, had been used for current expenditures, how much of the funds were realized from the recent sale of bonds had been so used, and the amount required to replace the money so used. The secretary says the original reserve augmented by the gold proceeds of the sale of bonds was diminished during 25 months to the extent of \$172,678,315, of which \$105,002,143 was directly or indirectly devoted to current expenses, and \$67,676,172 of which had been converted into notes in the process of redemption was still on hand.

"It is proper to state in this connection," says the secretary, "that when United States treasury notes of 1890 were redeemed in gold they were received into and held as part of the general cash assets in the treasury, same as any other money belonging to the government, and under the acts of May 31, 1878, and July 14, 1890, they were paid out when necessary to defray public expenses. Whenever it is possible to do so, redeemed notes have been used to procure gold coin by exchange with banks and other financial institutions, and in this way a large amount of gold was restored to the gold reserve fund during the summer of 1893, and some since that time."

Two Trains Demolished and Five Men Injured.

PITTSBURG, Feb. 14.—Two engines on the Castle Shannon road collided last evening in a tunnel near Monongahela. Five men were hurt and the engine and 26 cars were demolished. The injured are: Conductor John Walker, Engineers Henry Hitters and Frederick Risgar, Fireman Emmett Hamilton, and an unknown man. The three first are seriously injured, but it is thought all will recover.

And Are Now Under an Indictment for Murder.

DEADWOOD, S. D., Feb. 14.—Captain Straighthead and seven other members of the Indian police at the Cheyenne agency, have been indicted for the murder of William Fielder, the interpreter at the agency. Major Lillibridge, the agent, ordered the defendants to arrest Fielder without fail. Fielder refused to come, so the Indians filled his body with lead and brought him in dead.

Organization Completed.

SAN FRANCISCO, Feb. 14.—Members of the board of Fire Underwriters of the Pacific Coast, who have been in session at Monterey since Monday, completed their labors last night, most of the delegates returning to this city today. The proceedings were wholly harmonious, and the new organization has been perfected in almost every detail.

A New Labor Organization.

COLUMBUS, O., Feb. 14.—A new labor organization, the Independent Order Knights of Labor, was formed here today, with William B. Wilson, of Blossburg, Pa., as general master workman. It is claimed that the organization starts with a membership of 60,000, embracing glass-workers, brass-workers and miners.

Want the Mortgage Foreclosed.

JEFFERSON CITY, Mo. Feb. 14.—Representative Julian presented a resolution today which the house adopted calling on Missouri senators and congressmen to vote for foreclosing the government mortgage on the Union Pacific railway and operating it at cost.
