SHOT HIS SON-IN-LAW

Tragic Ending of a Family Quarrel.

LINCOLN COUNTY THE SCENE

Was Shot Dead Before He Could Enter
the Gate—The Murderer Is an
Old Man.

CORVALLIS, Or., Feb. 27.—It is reported from Summit, a small station about 25 miles west of Corvallis, in the Burnt woods district, just over the line in Lincoln county, that John McCalb was shot and almost instantly killed by his father-in-law, John McDowell.

There seems to have been trouble for some time between McCalb and his wife, which finally ended yesterday by McDowell having McCalb arrested for assault and battery on his wife. The trial came off yesterday in Justice Lukey's court at Little Elk, when McCalb was acquitted.

McDowell and his family went home ahead of McCalb, and the latter followed with the avowed intention of taking his children, who were with his wife at his father-in-law's. He rode up to the McDowell place on horseback, and called from the gate, asking if his children were there, to which he was answered by McDowell that they were. He thereupon said that he had come for them, and would take them, when McDowell told him he could not have them, and it is understood that McDowell immediately fired a load of buckshot, which struck McCalb and his horse.

The horse became unmanageable and threw McCalb off. As he fell he tried to get up, saying: "You have not downed me yet," when McDowell rushed out with a revolver and fired three more shots, all taking effect in McCalb's side.

McDowell is 73 years old, while McCalb is a young man. McDowell claims he shot McCalb through fear that he would be overpowered if he allowed him to get too close. McCalb was not armed, and from the information so far obtained it is thought that the killing was not justifiable. The coroner has been sent for, and the inquest will be held today.

White Men Will Hunt Otters in Alaskan Waters.

SAN FRANCISCO, Cal., Feb. 27.—The North American Commercial Company's schooner C. G. White will sail today on a sea otter hunting expedition to Alaska. She carries twenty-five men, rifles and the usual outfit, also four engineers for the steam launches which the company uses in preference to the slow-moving canoes of the Indian hunters, who are supposed to do the hunting for the pelts of the exceedingly valuable sea otter.

The revenue laws are most stringent on the point that no white man shall kill or capture this animal in the waters of Behring sea and along the Alaskan coast, but the C. G. White has signed proscribed hunters here, who will receive \$7.50 for every skin they bring over the side of the schooner. Moreover they are provided with a stock of new Winchester rifles, the use of which will make the vessel liable to seizure, as only clubs, spears and shotguns are to be used by the Indians, who alone are permitted to hunt.

The launch engineers are employed at \$40 a month for the season, and with these small, swift steamers darting among the coves and inlets of the hunting grounds the chances of the otter to escape and of the Indian to realize wages from its capture are reduced to a minimum, though it has been the intention of the government to leave the sea otter to Indians.

The schooner White has caused the government a great deal of trouble and

has twice been seized for illegal hunting. The schooner-yacht Rattler, owned by the Pacific Trading Company, is also fitting out for an otter-hunting cruise.

The Pacific Railroad Bill.

WASHINGTON, Feb. 27.—Chairman Reilly, of the Pacific railroad committee, and Senator Brice, chairman of the senate committee, had a consultation last evening as to what could be done to secure some railroad legislation before the close of this session. They came to the conclusion that the only way in which they could expect to accomplish anything was to add an amendment in the senate to one of the appropriation bills, which would in itself be a sort of funding measure. The California senators, however, are looking out for any such attempt, and would be sure to defeat it.

Reilly has been nagged by the railroad lobbyists until he has become almost desperate, and would jump at any possible opportunity to get through some sort of legislation favorable to the railroads between now and March 4. The California members are always of guard in the house as well as in the senate, and he is not likely to spring any sort of surprise on them, as they keep thoroughly posted as to his movements. Members of congress generally do not take much stock in Reilly's plan to attach his funding bill to one of the appropriation bills, as they feel it would certainly be defeated. "I am sure that any such attempt would fail," said Senator White. "Reilly evidently thinks he could put such an amendment on in the senate and that rather than have the appropriation bill fail and run the risk of having an extra session called, the members of the house would allow it to go through. We will take care that no such amendment is adopted."

"The house would never agree to any appropriation bill with such an amendment attached," said Judge Maguire. "However, I rely upon our senators to see that it is not done."

Attempts to Implicate Adry in a Highway Robbery.

MINNEAPOLIS, Feb. 27.—The defense in the Hayward murder case seems determined to fasten the responsibility of the highway robbery of April 25, 1893, on Adry Hayward. The chief incident in today's session was the testimony by Fred Horst, liverman, that Adry hired a horse at 9 p. m. on that date and returned at 10:30. This would have given him time to take part in the hold-up of his brother and Miss Ging and Miss Vedder.

The defense expects to show by other witnesses that Adry was seen near the scene of the robbery.

There are fears that the jury will not be able to stand the long strain of the trial successfully. Juror S. H. Dyer is suffering badly from swollen veins, and this morning had to be carried up stairs to court.

Large Property Loss—Several Persons Seriously Injured.

CHICAGO, Feb. 27.—Fire started at 9 this morning in the Kaestner building, containing the Kaestner knitting works, Pioneer Paper Company and Bach & Hertz' Leather Company. The building was totally destroyed, together with five dwellings in the vicinity. The damage is \$80,000.

The Crate elevator is also badly damaged. Hundreds of employes in the Kaestner building, including 220 children, were panic stricken. Eleven were rescued unconscious, some of whom will probably die.

Forty Men Imprisoned in a Burning Mine.

DENVER, Feb. 27.—A special to the Times from Cerrillos, N. M., says: "One of the most serious mine accidents ever known in this territory occurred at 'White Ash,' three miles from here, this afternoon, when an explosion in the Santa Fe Company's mine closed the entrance and set fire to the interior. Forty men are in the mine, and it seems impossible that any can have escaped."

People Who Weigh and Compare

Know and get the best. Cottolene, the new vegetable shortening, has won a wide and wonderful popularity. At its introduction it was submitted to expert chemists, prominent physicians and famous cooks. All of these pronounced

Cottolene

a natural, healthful and acceptable food-product, better than lard for every cooking purpose. The success of Cottolene is now a matter of history. Will you share in the better food and better health for which it stands, by using it in your home? Cottolene is sold in 3 and 5 pound pails by all grocers.

Dense smoke is pouring from openings and prevent the work of rescue. One dead body has been recovered, that of a driver, who was near the mouth of the tunnel when the explosion occurred.

Symptoms of kidney troubles should be promptly attended to; they are nature's warnings that something is wrong. Many persons die victims of kidney diseases who could have been saved had they taken proper precautions. The prompt use of Dr. J. H. McLean's Liver & Kidney Balm has saved thousands of valuable lives. If you have any derangement of the kidneys try it. Price \$1.00 per bottle. Sold by Salpe & Kinerly, druggists.

Jamieson Mills Burned.

SEATTLE, Feb. 27.—The Jamieson shingle mills at Ballard, with a daily capacity of 200,000, and owned by McGee Bros., was destroyed by fire this morning. The loss is fully \$15,000; insurance, \$5000, in the Palatine and Northern companies.

The boiler was the only thing saved. The fire started in the fan of the drying-room.

Four Great Northern box cars were burned, and the stockyard of J. M. Donohoe's mill ignited from the sparks, but was quickly extinguished with small damage.

Exposure to rough weather, dampness, extreme cold, etc., is apt to bring on an attack of rheumatism or neuralgia; chapped hands and face, cracked lips and violent itching of the skin also owe their origin to cold weather. Dr. McLean's Volcanic Oil Liniment should be kept on hand at all times for immediate application when troubles of this nature appear. It is a sovereign remedy. 25c, 50c and \$1.00 per bottle.

Trades Unions Asked to Boycott the Salvation Army.

SAN FRANCISCO, Feb. 27.—The boycott on the War Cry by the typographical union will probably result in an organized fight against the Salvation Army by the trades unions of the Pacific coast. Steps are being taken by the union to accomplish this result and copies of their manifesto calling on all members of unions to refrain from having anything to do with the Salvation Army have been sent all over the coast. A direct appeal has been made to General Booth.

Mrs. Emily Thorne, who resides at Toledo, Washington, says she has never been able to procure any medicine for rheumatism that relieves the pain so quickly and effectually as Chamberlain's Pain Balm and that she has also used it for a lame back with great success. For sale by Blakeley & Houghton Drugists.
