BRIEF MENTION.

Leaves From the Notebook of Chronicle Reporters.

C. E. Bayard announces himself as a candidate for the office of school clerk. By request I desire to state that I will be a candidate for school clerk again. E. JACOBSON.

Mrs. C. L. Phillips desires to announce that she has just received her spring stock of millinery, which she now has at her home. She will move the same into the rooms being prepared for her on Washington street, Monday or Tuesday.

The Wasco Warehouse Co. have on sale at their warehouse Seed Wheat, Feed Wheat, Barley, Barley Chop, Oats and Hay. Are sole agents in The Dalles for the now celebrated Goldendale roller mills flour, the best flour in the market, and sold only in ton lots or over. 9-11

The committee of physicians appointed by the city council to select a site for a pest house yesterday agreed upon a site the other side of the old military burying ground, and the work of erecting a building was begun yesterday afternoon. The building will be 24 feet square, one story and will contain four rooms. It will be completed tomorrow.

The weather clerk seems determined to make amends for the deep snows he sent us in January and is furnishing a quality of weather that is above par. The result is that the city is duller just now than it has been for years, every farmer is at work with all the help he can get scratching the cuticle of old mother earth, and preparing to sow bread microbes and biscuit bacteria. The acreage promises to be large, and with a little rain two months from now the harvest should be a generous one.

New Seats Needed.

Anyone who has recently paid a visit to the Central school in this city could not well avoid noticing the seats in the different rooms of that building. The seats were put in there years ago, and are built of heavy lumber, and are not in any sense adapted to the convenience or comfort of the scholars, especially the little fellows. None of the small pupils can lean against the back of their seat and have the use of their desk, the seats and desks in every room being so far back as to

enable a grown person to sit down without crowding. Aside from this, the seats are becoming worn, and in some cases full of slivers. Yesterday we were told of a case of a small boy going home with a sliver an inch long in that part of his anatomy which left the seat last as he slid out. The building should be supplied with new seats, and some regard had for the comfort of the scholars. —Engene Register.

The remedy suggested is the proper one, only the application seems to be wrong. The building is all right, but what's the matter with giving new seats to—that is to say—re-seating the boys. As the seats are becoming "worn and full of slivers," the boys have a right to demand this repairing.

How the Mistake Occurred.

We stated Thursday that Judge Bradshaw would go to Heppner Monday to open court. This was a mistake and was caused by his saying he would go to Moro, which the reporter understood "to Morrow," that is the county of that name, the county seat of which is Heppner. Now the fact is that the judge will go to Moro, and not to Morrow. He will not go tomorrow because he does not go until Monday, which instead of being tomorrow will not be, strictly speaking, tomorrow until tomorrow, at which time he will go to Moro instead of to Morrow. That is to say, he will not go to Moro tomorrow, but tomorrow it can be said that he will go tomorrow to Moro, instead of to Morrow. Day after tomorrow he will be in Moro, and then when we can write today, we may be able to make the matter clear, but whether he goes tomorrow or day after tomorrow he will hold court in Moro Monday.

MARRIED.

At the residence of Daniel Woodford, on upper 15-Mile, Mr. J. A. Fawcett and Mrs. Ella Woodford, Rev. G. W. Barnhart officiating.

He Is Mistaken.

Grand Master W. W. Brannin, of the A. O. U. W., in conversation with an East Oregonian reporter, after giving some account of his work on his recent visiting trip to the lodges in his jurisdiction, says:

"At Cascade Locks an inspection was made of the works on the locks, which cannot be completed within one year. The time of the expiration of the contract being about that far distant. It is thought that an extension will be granted, at least it will be asked by the contractors. More than 350 workmen are now employed and work progresses day and night at greatest possible speed."

Mr. Brannin is an excellent lecturer, but a poor reporter. His assertion that the locks will not be completed within one year is as great a mistake as the other statement that the contract will expire one year from now. The contract has already expired, and the locks will be completed sufficiently to allow the passage of boats this year.
