

THEY STILL INCREASE

Apparently No End to Foreign Complications.

BRITISH GUIANA VS. VENEZUELA

Monroe Doctrine Reasserted by Ambassador Bayard, and His Position Supported at Washington.

WASHINGTON, March 13.—Following direct upon the already accumulated foreign trouble that this government has to contend with is the fact that the British government is just now about to state its case in the matter of the controversy between Great Britain and Venezuela over the boundary of Venezuela and British Guiana. The intimations in official circles are that Great Britain thinks it has a strong case, which it is more than willing to lay before the United States government. Its claim is that the Venezuelans have encroached upon British territory with a view of working the gold fields within the disputed limits. In diplomatic circles here it is of interest that England recognizes the sincerity of this government's views regarding the question, and has decided to act.

It is believed that Ambassador Bayard, if he cannot get satisfactory explanations from the court of St. James as to why the disputed territory appears to Great Britain to be its right, will be necessitated under proper diplomatic usage to demand his passports. Officials who have been taking much interest in this question of American interests in South America do not believe that Great Britain will wish to assume a hostile attitude on account of a strip of interior territory contiguous to South American rivers, and trust in a receipt by Ambassador Bayard of satisfactory explanations.

At the state department here, the position is maintained that foreign interference with American affairs and with independent American nationalities is hostile to our national policy. This ground was solidly assumed by Ambassador Bayard in his correspondence with the British government, and his position meets vigorous and emphatic support in Washington.

The entire matter up to its present status can be summed up in the statement that Venezuela claims a strip of ground in British Guiana over which there has been a controversy of long standing, and the counter declaration of Great Britain that to it the ground in dispute is subject. Upon the resting of the claim of the British government upon a basis that will prove satisfactory to Ambassador Bayard now appears to rest a continuance of the friendly relations between the United States and Great Britain.

Revenue Cutters for Duty in Alaskan Waters.

WASHINGTON, March 14.—The following revenue cutters have been designated to patrol Behring sea this season: The Corwin, Rush, Bear, Grant, Wolcott and Perry. Assistant Secretary of State Hamlin today stated that the president had not yet designated any warships to patrol Behring sea. Several warships will probably be designated to assist the revenue cutter fleet later should the number of poachers in the sea become numerous enough to require their presence.

The Island Republic.

HONOLULU, March 7, per Steamship Arawa, via San Francisco, March 14.—Excitement over the recent rebellion here is gradually quieting down. The Hawaiian government is now directing its principal attention towards abettors of insurrectionists, who are now on American soil.

W. A. Kinney, who acted as judge advocate of the military commission which

tried the rebels, is among the passengers who will leave San Francisco today. He carries with him testimony and affidavits that the schooner Wahlberg is the vessel which landed arms for the rebels, and which is now detained at San Diego. Kinney is accompanied by George Townsend and Charlie Warren, half whites, both of whom spent several days on the schooner while she was lying off the coast waiting to land arms for the rebels. They will be able to identify the vessel and the captain or crew of the craft.

Upon reaching San Francisco Kinney will proceed to San Diego to act in behalf of the Hawaiian government. The witnesses who accompany Kinney were among the 25 rebels who were convicted and sentenced for treason, but in view of their recent services to the government President Dole has suspended sentences.

Among the passengers on the steamer were Captain William Davies, P. G. Camerinos, Carl Klemme, Henry von Werthen, C. W. Ashford and Harry Zuen. They are all from Honolulu, and were released from prison on condition that they would leave the country. Before leaving Ashford called on the ex-queen and asked her if he could do anything for her in America. She replied that all possible had already been done.

The ex-queen has after all refused to leave her Washington place residence. Apparently she hopes soon to return there, which seems quite unlikely. The government feels the necessity of separating her from access to the native population, who would instinctively pay homage to her.

The Hawaiian Annexation League are vigorously perfecting and extending their organization. They expect soon to embrace most of the natives.

Anti-Toxine of Tetanus.

NEW YORK, March 14.—Before the Medico-Legal society a paper was read last night by Paul Gibier, director of the New York Pasteur institute, in which he presented the interesting facts of a discovery in which he claimed that antitoxine of tetanus is a positive preventive if not an absolute remedy for lockjaw. He entered at length into the details of the preparation of the anti-toxine, and cited numerous cases where the introduction of the wonderful fluid into the system both prevented lockjaw and effected cures.

Through a large microscope, which Dr. Gibier had previously set upon the platform, his hearers were enabled to peep at magnified bacilli of tetanus with which he had charged the glass. The observers, many of whom thus took their first object lesson in the study of bacteriology, saw through the glass myriads of globelike objects apparently as big as peas, but in reality invisible to the naked eye.

"These are the globes which produce the terrible tetanus," said Dr. Gibier. "The bacilli of tetanus cover all sections of the earth inhabited by man or beast. The germs are indigenous, I might say, to the soil where man or animal lives. Particularly in the stable myriads and myriads of these germs of disease have their being. The horse, more than any other animal, is susceptible to tetanus, and this may be accounted for from the fact that the filth of the stable is more conducive to the development of the tetanus bacilli than any other condition."

"The disease is not contracted by inhalation. It is the result of the germs being introduced into a wound or opening of the skin. Once in the wound the germs of tetanus thrive wonderfully, and in a few days produce that awful condition which results in the stiffening of the muscles of the jaw, terrible rigidity of frame and ends in death."

Dr. Gibier quoted statistics showing that 65 per cent of the cases of tetanus resulted fatally; these figures including deaths on the battlefield and in railway accidents. The development of the tetanus among victims of railroad accidents, he said, was due to the introduction of the germ charged rail into the wounds.

There's nothing so GOOD as Cottolene

The new vegetable shortening. Wherever introduced, it drives lard from the kitchen, and indigestion from the household. It has been tried by every test, and has met every requirement. It is as much superior to lard as the electric light is to the tallow-dip. The only question now is, will you give your family the benefits which its use bestows?

There's nothing LIKE Cottolene

In composition, in healthfulness, in flavor, or in economy. Its success has called out a lot of imitations and counterfeits made for the sole purpose of selling in the place and on the merits of Cottolene.

Avoid them all. They are made to sell and they are a sell! Get the genuine COTTOLENE.

Sold in 3 and 5 pound pails. Made only by The N. K. Fairbank Company, ST. LOUIS and Chicago, New York, Boston.

Was Willing to be Bribed.

CHICAGO, March 14.—Judge Groggin today sentenced William Halpin to four months in jail for offering to take a bribe, and held in heavy bonds on the charge of perjury. Halpin was a juror in the case of Strauss against the West Chicago Street Railway Company. Halpin made affidavit that he and juror William Gray prevented a verdict against the company on the understanding that they would be taken care of. The man who made the promise, he said, was Edmund Furthman, attorney for the company.

A Secret.

If all the ladies knew the simple secret that a bad complexion is due to a disordered liver, there would be fewer sallow faces and blotchy skins. This important organ must be kept active and healthy to insure a clear and rosy color. Dr. J. A. McLean's Liver & Kidney Balm as a purifier, beats all the creams and lotions in existence and will produce a more permanent effect. Removes bad taste in the mouth, offensive breath, yellow tinge in the skin, wind on the stomach and that dull, bilious feeling which so surely indicates the torpid liver. Price \$1.00 per bottle. Snipes-Kinersly Drug Co.

Cheated the Gallows.

BOISE, Idaho, March 14.—Charles Perry, under sentence of death at Pocatello, died last night from a dose of morphine, which he said he got from a fellow prisoner. Perry murdered Patrick McNamara last June.

"Perhaps you would not think so, but a very large proportion of the diseases in New York comes from carelessness about catching cold," says Dr. Cyrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to the cold. New York is one of the healthiest places on the Atlantic Coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure a cold but we will. It will relieve the lungs, aid expectoration, open the secretions and soon effect a permanent cure. 50 cent bottles for sale by Blakely & Hough-Druggists.

Paid the Penalty.

FORSYTHE, Ga., March 14.—Yesterday afternoon Amos Gibbons, a negro, criminally assaulted Mrs. Martha Waller and Miss Hart, respectable white women, the latter imbecile. He was caught and hanged to a tree, his body being afterwards riddled with bullets.

All pain banished by Dr. Miles' Pain Pills.

Castoria

For Infants and Children.

Castoria promotes Digestion, and overcomes Flatulency, Constipation, Sour Stomach, Diarrhoea, and Feverishness. Thus the child is rendered healthy and its sleep natural. Castoria contains no Morphine or other narcotic property.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANCKER, M. D., 111 South Oxford St., Brooklyn, N. Y.

"For several years I have recommended your 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. PARSONS, M. D., 125th Street and 7th Ave., New York City.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City.

THE CENTAUR COMPANY, 77 Murray Street, N. Y.

Headache and Neuralgia cured by Dr. Miles' Pain Pills. "One cent a dose."
