HOW FREE TRADE BENEFITS.

An inquisitive individual asks this question:

As free-trade is mutually beneficial why (by tariffs) debar men from mutually increasing wealth and happiness by trade?

The American Economist thus replies:

Free-trade is not mutually beneficial. It is beneficial to a low wage country, but not to a high wage country. Free-trade allows a low wage country to ship their manufactured goods into a high wage country and close their mills, or compel their high wage workmen to work for half their present wages or starve. When we have free-trade our country could never ship one knife or plate or yard of silk to Europe or Japan till we had their low wages plus the freight. Who would buy a knife made by two-dollar labor when you could buy the same knife made by forty-cent labor in Belgium? Protection makes high wages, prosperity and happiness in America. Free-trade with us would starve our workmen, close our mills, but it would make Europe prosperous. Free-trade would drop wages in American and stop mills, but it would make happiness and prosperity in Europe and China. With free-trade, only the freight (15 cents per hundred pounds) would separate wages. Do you want their low wages?

The Nevada legislature yesterday passed resolutions indorsing Sibley and the bimetallic platform, and the governor approved the same. Nevada is for silver because she is a silver producer, and her action cannot be considered in the light of a dispassionate opinion on the money question. Sibley, however, if nominated can depend on getting three of the electoral votes of the Pacific coast, and if we could have a few more legislatures in session and another democratic congress, he would probably get all there is to get.

The democrats of Multnomah county are kicking against the retention of republican clerks by the collector of internal revenue and other government officials at Portland. It strikes us our democratic brethren are entirely too modest. If they are going to kick, what is the matter with Russell. He was not in the country long enough to recognize Mt. Hood when he saw it before he had the pick of the plunder. He believes in a tariff for revenue, because no tariff no revenue—for him.

Collis P. Huntington has been in Washington for several days advising the secretary of the interior how to run his department in the interests of the people of whom Collis P. is several. The Hon. Secretary can discover a simple and safe course in all matters that the distinguished Californian has suggested, by doing just the opposite to what he advised.

In another year the presidential fight will again be getting ripe. In the meanwhile the country can make up its mind that it is going to get, through the press and through every other available source more alleged information concerning financial matters than it has heard since the meteoric greenback craze. The silver question has side-tracked everything else.

Charley Fair is contesting his father's will. If he succeeds in breaking it the chances are that a dozen or more children not now benefited by the will, will become parties to the settlement of the estate. The illustrious James G. Fair did some things in the course of his eventful life, the details of which are not published in the Congressional Record.

Li Hung Chang sailed yesterday for some place or other where he is to meet the Japanese peace representatives. He has full power, so it is said, to concede everything, and make the best terms with China's conquerors that he can. By the way, was there not a white man named Foster mentioned some time back in connection with these peace negotiations?

The divorce suit of Mrs. Catherine Search against W. H. Search was tried before Judge Stephens at Portland yesterday, and taken under advisement. Search is well known among the railroad men, having been a conductor on the freight trains, and running between this point and Portland for a long time.

He came up from California to fight the suit.

Secretary Gresham has sent word to Spain that he will not have United States vessels interfered with. The secretary is correct as for as standing on his dignity and the country's rights are concerned; but it is a dead safe gamble at 16 to 1 that he has made an ass of himself again.

The Congregational church, corner of Court and Fifth street—Sunday services as usual: At 11 a. m. and 7:30 p. m. worship, and a sermon by the pastor, W. C. Curtis. All persons not worshipping elsewhere are cordially invited.

Monahan and the other man, who are in the pest house, are getting along nicely, and are out of danger, and will be turned loose as soon as they get through "shedding." They sent down yesterday requesting two yards of green ribbon and a bottle of Irish whiskey be sent up, that they might celebrate St. Patrick, his day. As there was no one to see the ribbon and the whiskey was too rich for their blood, the request was not complied with. Any reasonable man ought to be satisfied with a house to himself and a case of smallpox, without wanting to gin up, but then some people never are satisfied.

THE ONWARD MARCH

of Consumption is stopped short by Dr. Pierce's Golden Medical Discovery. If you haven't waited long enough, there's complete recovery and cure. Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain. The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience. Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

S. P. SMITH, of Towanda, Pa., whose constitution was completely broken down, is cured by Ayer's Sarsaparilla. He writes:

"For eight years, I was, most of the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken down. I was induced to try Ayer's Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach, bowels, and kidneys are in perfect condition, and, in all their functions, as regular as clock-work. At the time I began taking Ayer's Sarsaparilla, my weight was only 129 pounds; I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I believe this preparation of Sarsaparilla to be the best in the market to-day."

Exposure to rough weather, dampness, extreme cold, etc., is apt to bring on an attack of rheumatism or neuralgia; chapped hands and face, cracked lips and violent itching of the skin also owe their origin to cold weather. Dr. McLean's Volcanic Oil Liniment should be kept on hand at all times for immediate application when troubles of this nature appear. It is a sovereign remedy. 25c, 50c and \$1.00 per bottle.
