when the earnings of the company were \$300,000,000 a year, they reduced salaries \$3,000,000 a year, rendering it impossible for the workmen to support their families and keep their heads above water. He denied that the railway men fired the cars in the Illinois Central yards, and declared it was the work of the United States marshals sworn in at the instance of the General Managers Association. He cited instances where men were caught in the act of applying the torch and when arrested by the police United States marshal badges were found on them. He said the 3,600 special deputy United States marshals sworn in were chosen from the sewers and the slums, and were men of no character; that the A. R. U. had won the fight and that the railway managers knew that unless public sentiment was changed they would have to back down, so the riff-raff of the city were pressed into the dirty work of fire demons. He said there were no Pullman coaches burned, although many of the cars were in the yards, only cheap rolling stock and box cars being burned.

He said that when the trial is continued in May, it will be shown "who the conspirators are." Mr. Debs explained privately that his tour is being made for the purpose of raising money to pay the costs of the suit and to carry the case on appeal. He expects that the United States supreme court, in full bench assembly, will hand down its decision, which will be final and will let Mr. Debs and the railway employes know just where they stand.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Claimed Eighty Victims.

EVANSTON, Wyo., March 21.—It is expected it will take a few days before the bodies in the Central Pacific mine at the canyon, will be reached. The explosion wrecked the power-plant and several buildings, entailing a heavy loss.

The best information obtainable places the number of victims at 80. Two bodies have been taken out of the slope by rescuers who claim further progress is impeded by caves.

The explosion is believed to have been caused by sparks from a blast setting fire to the dust. It is said the mine was wholly free from gas.

In addition to the 80 mentioned, it is believed 10 lost their lives in the powerhouse. A searching party is now exploring the slopes of the mines. General mourning prevails throughout the place and nearly all the woman and children are assembled at the scene of the disaster awaiting the news of dear ones. Half a dozen bodies are already lying in the improvised deadhouse.

The bodies of the following have been recovered: Willard Brown, Baptist Julian, James Limb, Angel Dermodi, all married, having big families, and two boys, William Grieves and a son of J.R. Slay.

The following married men with large families are known to have been in the mine: Henry Burton, Samuel Holston, George Hardy, David Lloyd, William Sellers, jr., Thomas Hutchinsen, Samuel Bates, Walter Miller, Henry Scotchren, Aaron Butt, George Cricket, Hugh Sloan, William Morris and the following young men: John Morris, William Graham, jr., Marshall Langton, George Hymes, John G. Locke, Albert Clark, David Lowry, jr. The greater part of the men who perished are covered with debris at the seventh level, where they were gathered awaiting a man trap. Work is being pushed with all possible speed to uncover the dead. There is no fire in the mine.

The Discovery Saved His Life. Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail, and was given up and told I could not live. Having Dr. King's New Discovery in my store, I sent for a bottle and began its use, and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Snipes & Kinerly's.

"Perhaps you would not think so, but a very large proportion of the diseases in New York comes from carelessness about catching cold," says Dr. Cyrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to the cold. New York is one of the healthiest places on the Atlantic Coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure a cold but we will. It will relieve the lungs, aid, expectoration, open the secretions and soon effect a permanent cure. 50 cent bottles for sale by Blakely & Houghton, druggists.

A severe rheumatic pain in the left shoulder had troubled Mr. J. H. Loper, a well known druggist of Des Moines, Iowa, for six months. At times the pain was so severe that he could not lift anything. With all he could do he could not get rid of it until he applied Chamberlain's Pain Balm. "I only made three applications of it," he says, "and have since been free from all pain." He now recommends it to persons similarly afflicted. It is for sale by Blakely & Houghton Druggists.

The continued dry weather has not been favorable for the placer miners, particularly those who depend upon working the rich gulches and among the smaller streams where water is expected only during a few months in the year during the winter season. Those who depend upon the snowfall in the higher mountains to supply water during a longer season, are all right for there is the usual store of moisture in the higher altitudes.—Ashland Tidings.
