SPRINGER ON THE PROSPECTS FOR 1896.

Ex-Congressman Springer is credited with the prediction that the democracy will be frightened into making a square declaration in its national platform in 1896 in favor of free silver, which he thinks will compel the republicans to antagonize this policy and nominate Allison.

This view of democratic policy is of interest from the fact that the Illinois statesman is opposed to it, and presumably will use his influence against its adoption. He is not a free silver man. On most of the divisions in congress in the past two or three years he was on the sound money side.

Allison has not, in recent republican calculations, figured conspicuously on the roll of presidential possibilities, but in national conventions the unexpected often happens. For a few years the distinguished Iowan has, in the popular mind, dropped out of the line of succession.

We called attention Saturday to the fact that the attempt is being made, or at least that it is so reported, on pretty good authority, to delay the completion of the locks at the Cascades indefinitely, by forbidding the removal of the upper bulkhead until after the entire locks have been raised to a height above the high-water mark of 1894.

The news comes today that Li Hung Chang has been shot in the face by a misguided Japanese youth. The great Chinaman was on his way to his rooms returning from a conference with the Japanese peace commission, when the Jap, a youth of 20 years, rushed in front of him and fired a pistol in his face.

Reports from the South indicate a general revival of business. It is hoped the thing may become epidemic and that every town and village may be inoculated with it. It has been a long time since the business men of the country could truthfully say "business

is getting better," and the fact that some of them can say so is encouraging. We can't have too much business to counter balance the awful thud with which things struck bedrock two years ago. Let the business boom come. We are ready for it.

Since President Cleveland returned from his duck-hunting trip in North Carolina, it is said he only half agrees with Secretary Gresham. If this is true, his outing has not been without benefit to the country, and the sooner the president can take another trip, the better.

Saturday the German reichstag refused to pass a resolution congratulating Prince Bismarck upon the anniversary of his birth. All Germany is aroused over the matter, and the newspapers are filled with articles condemning the reichstag's course.

The latest news from Cuba indicates that the insurrection is getting quite formidable. It may be possible that this will indeed prove a revolution, and that Cuba may set up in business for herself, unless she is wooed and won by Uncle Sam.

A Bank Failure.

AN INVESTIGATION DEMANDED.

A general banking business is done by the human system, because the blood deposits in its vaults whatever wealth we may gain from day to day. This wealth is laid up against "a rainy day" as a reserve fund - we're in a condition of healthy prosperity if we have laid away sufficient capital to draw upon in the hour of our greatest need.
