NOT IN THE ARMISTICE

Exceptions of Great Importance Made by Japan

WHERE SHE IS NOT IN POSSESSION

It Does Not Apply to the Lower Coast of China, Formosa and the Fisher Islands.

SIMONOSAKI, March 30.—The three weeks' armistice agreed to between Japan and China applies only to the localities of Moukden, the Gulf of Pe-Chi-Li and the Shan-Tung peninsula.

A conference was held between the Japanese plenipotentiaries and Li Hung Chang's son-in-law, Lord Li, preceding the declaration of the unconditional armistice declared by the emperor of Japan.

WASHINGTON, March 30.—Secretary Gresham has received official confirmation of the declaration of an unconditional armistice by the emperor of Japan. It is not understood here that this is in any sense equivalent to a declaration of peace, but it is believed that there is not likely to be a resumption of hostilities. The negotiations may continue for a long time before a peace treaty is signed, and it is quite certain that Japan will abate none of her demands on account of the armistice. In fact, the granting of the latter is looked upon as a shrewd move by the Japanese emperor to diminish the harmful effect of the attack upon Li Hung Chang. If the war were prosecuted now, it would have the effect of forcing the peace negotiations to a speedy conclusion, and it is realized by the Japanese that in the present state of feeling caused by the attack they could scarcely insist upon as favorable terms of peace as can be realized after the lapse of a few weeks, when the first impression will have worn off.

It is noted here with interest that the terms of the armistice do not apply to the lower coast of China, and particularly to Formosa and the Fisher Islands. This is taken to mean that the Japanese have determined to occupy Formosa before the peace negotiations are completed, and the explanation of this purpose is found in the fact that it is almost an invariable rule of international law that a nation must be in actual armed possession of a piece of territory as a basis for a demand for its cession.

Now that suspension of hostilities has been directed there is a renewal of interest as to terms of peace to follow. While there is no definite information on the subject at the Chinese legation, the opinion prevails that a money indemnity will be paid, largely in silver, as that is the metal in common use in China. Those most familiar with China say there is no gold coin in circulation there, although that country has heretofore purchased large supplies of gold bars, and from this accumulation has made heavy gold exports.

The officials of the Japanese legation believe that the next step will be the issuance of a proclamation by Japan, and unofficial word has already reached the legation that this has been done. Confidence is expressed that the emperor's proclamation will be accepted at once by the armies. There is telegraphic communication with the various divisions at Port Arthur, New-Chwang and Wei-Hai-Wei, although it takes twelve hours to reach the last named place.

The Worst Snowstorm Colorado Has Known in Years.
DENVER, March 30.—Colorado experienced today the worst snowstorm of many months. A tremendous gale blew from the north, but as the snow melted rapidly, traffic will not be seriously impeded. The snowstorm continued all day with unabated fury. It was the

worst since the memories of the March storm of 1854, which continued for three days. Heavy thunder and vivid lightning accompanied this storm, a feature not usual at this season. The velocity of the wind just before daybreak was terrific, and but for the heavy, wet snow, which served to hold things in their places, much damage would no doubt have been done. At 5:20 the wind was blowing at the rate of 48 miles an hour, but it slowly decreased up to noon, when it registered 34 miles. A gable of the Columbine schoolhouse was blown out. Stones weighing 35 pounds were blown over 30 feet, while heavy blocks lay piled up over 80 feet from the building. The tramway and cable companies had great difficulty in moving their cars, and many of the street railway lines are blocked.

At 6 p. m. the snow was about a foot deep in this city, and was badly drifted. During the early part of the day trains on the railroads east and west were considerably delayed. The storm was exceptionally severe in Western Colorado. Observer Bradenburg says the storm will abate during the night, and colder weather will follow. It is now rapidly advancing southeastward, and tomorrow's indications are that Texas and the Gulf states will have a touch of it.

GLENWOOD SPRINGS, March 30.—The weather here, which for a week or ten days had been very warm and springlike suddenly changed yesterday, and a cold rain set in, which continued late in the night, when it turned to snow. It is a very hard storm, and it is thought many cattle that have struggled through the winter will perish.

CASTLE ROCK, Colo., March 30.—The worst snow and windstorm of the season has prevailed here since an early hour this morning. It is blowing at a terrific rate, and snow drifting badly, and should the storm continue, as at present, it will impede railway travel. Eighteen inches of snow has fallen at Central City.

LEADVILLE, Colo., March 30.—The weather is very blustery and cold at this place. The snow has been blowing in clouds all day. A like condition of affairs exists at Brighton, Colo., and fears are entertained that there will be great loss of stock. Business is entirely suspended at that place.

Portions of Nebraska Felt It.
OMAHA, March 30.—A great snowstorm is raging in Northwestern Nebraska. Snow plows have been sent from here. Five inches fell today. In Omaha it was 85 degrees yesterday, and remained so today.

CHADRON, Neb., March 30.—A heavy storm has been raging in the Black hills since early this morning, and all telegraphic communication between here and Deadwood is cut off. A large number of farmers were in the city today and started home. Fears for their safety are entertained.

From Yukon Gold Fields.
PORT TOWNSEND, Wash., March 30.—The first news of this season from the Yukon river gold fields was received today upon the arrival of T. C. Healy, a trader, who came out overland to Dyea, and hence by steamer Alki to hurry a shipment of supplies to the mining camps, all provisions being exhausted except coffee. The last sack of flour sold for \$16. Over 1000 miners are living on less than half rations and undergoing severe hardships, but it is believed they can subsist on the present supplies until the steamer reaches there in July, although many will be incapacitated from labor next summer on account of the winter's famine.

The reason supplies ran short was owing to nonarrival of the steamer Arctic which was abandoned by Captain Peterson at Fort Yukon last autumn, and was unable to reach the mining settlements.

agement of Edith May Shields, daughter of the mayor of Big Rapids, Mich., to L. S. Daniels, a Larksville (Tenn.) lawyer, news of which has just reached here. A few years ago Miss Shields eloped with the son of H. E. Buckner, a millionaire merchant of New York. The story of Buckner's conviction of theft will be remembered, as well as the fact that there was a strong indication that he went to prison rather than compromise the young woman, whose property he was charged with stealing. When he was sent to the penitentiary, much interest was manifested in his pretty wife, who made every effort to secure his pardon. She was taken care of by prominent people, and remained here for some time, going to the convict camp to see her husband almost daily. It now transpires that she has secured a divorce, and her engagement to the Tennessee gentleman is announced.

Tried in Those States.
BALTIMORE, March 30.—In a discussion of woman suffrage at a Friends' circle last night, J. K. Taylor, president, read extracts from letters just received from governors of Western states.

Governor Morrill, of Kansas, writes: "There has been no complaint. It seems to be successful."
Governor McIntyre, of Colorado, says: "Their advent into political life will positively and permanently benefit all the people."

Governor Richard, of Wyoming: "Women are allowed all the privileges men have in voting. They are not allowed to sit on juries, and do not ask for it any more than they ask for military rights."
Justice Grossbeck, chief justice of the supreme court of Wyoming, says: "It has been tried and not found wanting."

Exposure to rough weather, dampness, extreme cold, etc., is apt to bring on an attack of rheumatism or neuralgia; chapped hands and face, cracked lips and violent itching of the skin also owe their origin to cold weather. Dr. McLean's Volcanic Oil Liniment should be kept on hand at all times for immediate application when troubles of this nature appear. It is a sovereign remedy. 25c, 50c and \$1.00 per bottle.
