SPRAY NO. 1.

Winter Spray for San Jose Scale and
Curl Leaf of the Peach.

Lime, unslacked, 30 lbs
Sulphur, powdered, 20 lbs
Salt, Liverpool, 15 lbs

The above is a very efficient remedy for
the San Jose Scale and Curl Leaf of the
Peach, and is an excellent fertilizer for
the trees. It not only destroys the scale
and prevents the spread of the curl leaf,
but removes all lichens and keeps the
bark soft.

In the case of curl leaf, the greatest
good will result from the early spraying,
as it prevents to a large degree the dor-
mant spores of this parasitic fungus
coming to life, and destroys any that
may have started.

DIRECTIONS.

To be most successful, this spray
should be applied just before the buds
swell in the spring. It can be used at
this time stronger than later, and should
be thrown upon the trees when it is
warm.

Use for winter spraying, 1 pound to 2
gallons of water; for summer work use
1 pound to 8 gallons of water. Maier &

MONDAY - - - - APRIL 1, 1895

BRIEF MENTION.

Leaves From the Notebook of Chronicle
Reporters.

Mr. Pague this morning gives the
weather probabilities as fair, followed by
showers, and for tomorrow, warmer with
showers and then cooler.

Captain Paul Webb went over the
Oregon City falls in a barrel Sunday.
The only thing this proves is that Ore-
gon fir and good iron hoops will with-
stand a whole lot of hard thumps.

The temperature for the month of
March, as taken by Mr. S. L. Brooks,
shows that it has been slightly below
the average for March. The average
was 45.

There was no April fool about the
shower this afternoon, although it
started in like it was only a windy joke.
It rained as if old Jupiter Pluvius him-
self was bossing the job.

The flying machine landed at the foot
of the stairs on Laughlin street (so we
are told) this morning about 11 o'clock.
One of the stockholders witnessed the
landing, and pronounced it a thorough
success.

They played it on us again this after-
noon by getting us to walk over to the
sheriff's office, and on the door thereof
was an immense placard inviting us to
come in and see the flying machine.
These April fool jokes are awfully silly,
ain't they?

County Surveyor Sharp will be in
Hood River on Tuesday next for the
purpose of surveying county roads, of
which two demand his attention. He
will be there Tuesday and Wednesday,
and on Monday, the 8th, he will be in
Oak Grove, where two more roads are
to be surveyed.

The gentle west wind got on a jam
this afternoon, and the way the dust,
papers, boxes, cans, and everything else
that was loose got whirled through the
streets was a caution. If the affair will
only wind up in a good rain, we will
cheerfully put up with the wind.—And
it did.

The Prineville Review last week was
filled with accounts of death and dis-
aster. It contains an account of the
burning of McNally, the killing of Wm.
Raglin by a kicking horse, two accidents
in the shape of runways and overturned

wagons, both happening to Joe Crooks,
and the insane freak of a shepherd,
who tried to become a dode.

We heard a good one Saturday that
was perpetrated by an Eastern capitalist
some weeks ago during the smallpox
scare. The special car in which his
party was traveling was sidetracked
near the depot, and two of the tourists
walked up to Second street. Looking up
the street, the gentleman noticed the
fences across the street and asked if the
street was dangerous. He was told that
the fence was put up across the street
because there was a case of smallpox in
one of the houses. "But," said he, "the
sidewalk is left open. Do the horses in
this country catch smallpox, while the
people are beyond the possibility of con-
tagion?"

Eggs Galore.

The Pendleton Tribune says that a
firm in that city recently shipped 3000
dozen eggs to Seattle, that the entire lot
was obtained in Umatilla county within
one week's time, and that the price paid
was 6 cents a dozen, cash. The same
firm shipped 1500 dozen to Butte, Mon-
tana, the week before. This is a pretty
good showing for Umatilla county, but
as it is capable of demonstration that "a
barrel of wheat will make a barrel of
eggs," there is no limit to Umatilla's
possibilities in the egg line. The differ-
ence in value between the two, is the
difference between fifteen dozen eggs
and a barrel full.

A Brave Man.

Sheriff John Bogard of Tehama county,
Cal., who was killed in the recent hold-
up of the Oregon & California train, after
having killed one of the robbers, was an
old friend of Sheriff Driver's, who
formerly lived in Tehama county.
About a week ago Mr. Driver received a
letter from Mr. Bogard containing his
photograph. It was probably sent just
before his trip on the return from which
he was killed. Sheriff Bogard was also
known by the writer. He was a mag-
nificent fellow, brave as a lion, and he
fell shot in the back by a cowardly mur-
derer, while doing his duty. No effort
should be spared to bring his murderer
to punishment.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

On April 1st Mr. W. D. Jones, of Ant-
elope, will occupy his brand new Ant-
elope hotel, and will, of course, run it in
first-class shape, as also in connection
with it, his old reliable Red Feed Barn.
Travelers staying at Antelope will find
at his house the very best accommoda-
tions in town. al-m1.

After the Play.

The Home Dramatic Club, appreci-
ating the generous support given it,
herewith submits an itemized account of
the expenses of the play, so that the
good people who put up the money may
know just what was done with it. The
balance remaining on hand will be di-
vided, as stated, among the charitable
institutions of the city.

A Mean Trick.

This morning Tom McCoy and Dick
Nolin put it up on us in a way that was
simply low down and mean. McCoy
had a white thread run out through the
shoulder-seam of his coat, the spool be-
ing on the inside pocket. The end of the
white thread was curled up promiscu-
ously like over the back of his black
coat and of course when he turned that
shoulder towards us, while Dick com-
menced to question us about the flying
machine, we saw the thread, and in an
absent minded sort of way we caught
hold of it to take it off. When the thing
pulled out five or six yards we took a
tumble. We have a poor opinion of a
man who would deliberately perpetrate
an April fool joke anyhow. A man
ought to have more dignity about him,
and then he shouldn't waste his time.
This thing of deceiving people just be-
cause it is the first day of April, cannot
be too severely condemned.

Bonnets and Such.

We just dropped into the Mrs. Briggs'
millinery store this morning, for two
reasons, one because the show windows
were full of pretty Easter bonnets and
hats, and the other because a galaxy of
pretty women were trying on those
same bonnets, and the effect was that of
an immense kaleidoscope with hand-
some faces, mingled with the ever-
changing figures. We have an indistinct
recollection of "bluet" and "cerese," be-
sides a subdued chatter about shapes
and shades and bows mingled with ex-
clamations of pleasure, such as an
Easter bonnet alone can give to the
ladies—God bless them. We noticed
also that violets are fairly in it, and
purple is the popular shade.
