SPRAY NO. 1.

- Winter Spray for San Jose Scale and Curl Leaf of the Peach. Lime, unslacked... 30 lbs Sulphur, powdered... 20 lbs Salt, Liverpool... 15 lbs

The above is a very efficient remedy for the San Jose Scale and Curl Leaf of the Peach, and is an excellent fertilizer for the trees.

In the case of curl leaf, the greatest good will result from the early spraying, as it prevents to a large degree the dormant spores of this parasitic fungus coming to life, and destroys any that may have started.

DIRECTIONS.

To be most successful, this spray should be applied just before the buds swell in the spring. It can be used at this time stronger than later, and should be thrown upon the trees when it is warm.

Use for winter spraying, 1 pound to 2 gallons of water; for summer work use 1 pound to 8 gallons of water. Maier & Benton, sole agents, The Dalles, Or.

The coroner's jury impaneled to inquire into the cause of the death of William Feldberg, the man who was killed at the falls of the White Salmon last week, rendered a verdict of justifiable homicide, and the boy, Hoff, who did the killing, was discharged from custody.

A Broken Leg.

Yesterday afternoon, about twenty minutes to 5 o'clock, a lot of boys were playing football near the courthouse, when Claude Kelsay, son of the county clerk, got possession of the ball. Several of the other boys tried to get it away from him and in the struggle Claude was thrown over backwards, some of the boys falling on him. One of his legs was caught in such a manner that it was doubled, his own weight and

that of the boys on top of him being thrown on it. The result was one of the bones was broken and the ankle very badly sprained. He was at once taken home where Dr. Sutherland attended to his injuries. The broken bone will soon knit, but the ankle is very badly sprained, and it will be some time before it is "as good as new."

He Built Fort Dalles.

The dispatches today announce the death of General Thomas Jordan, a veteran of the rebellion. His death is worthy of passing mention here because during his service in the United States army, after the close of the Mexican war, he was sent to the Pacific coast and superintended the construction of Fort Dalles. His quarters here when first built was the finest building in the territory, costing, it is said, \$40,000. The old building was burned years ago, and now inside of its ruins the forest trees are growing. He spent the government money with a lavish hand in building the forts here, but when the rebellion broke out, he resigned and went South to join the rebel army.

Regular monthly reports of the city officers were read, accepted and placed on file.

On motion it was ordered that when the council adjourn, it adjourn to meet Friday evening, April 12th and that all claims in reference to the smallpox epidemic, except those contracted by proper authority, be referred to the finance committee, and that said committee audit and report on the same at such adjourned meeting.

The claims against the city were then read, and the same were on motion allowed, and warrants ordered drawn on the proper funds to pay the same.

On motion it was ordered that the recorder collect the full license for the different occupations and terms named in the license ordinance, whether or not license shall be issued after the commencement of such term and shall only allow the deduction for that part of the expired term at the date of the issuance of such license, upon the payment in full and in advance for the term succeeding.
