PEASE & MAYS.

Fruit Growers Solid Sprays.

These Sprays are reduced to a SOLID form, requiring only the addition of water for immediate use.

SPRAY NO. 1.

Winter Spray for San Jose Scale and Curl Leaf of the Peach.

Lime, unslacked, 30 lbs Sulphur, powdered, 20 lbs Salt, Liverpool, 15 lbs

The above is a very efficient remedy for the San Jose Scale and Curl Leaf of the Peach, and is an excellent fertilizer for the trees.

In the case of curl leaf, the greatest good will result from the early spraying, as it prevents to a large degree the dormant spores of this parasitic fungus coming to life, and destroys any that may have started.

DIRECTIONS.

To be most successful, this spray should be applied just before the buds swell in the spring.

Use for winter spraying, 1 pound to 2 gallons of water; for summer work use 1 pound to 3 gallons of water.

BRIEF MENTION.

aves From the Notebook of Chronicle Reporters.

Eli Perkins Tonight At Baptist church. Next Sunday is Palm Sunday.

'Fibre Chamois' just received at A. M. Williams & Co. Stylish dresses made for \$7 and upwards.

Several loads of wool are on their way in from points south of us, being sent to the Wasco warehouse.

The Regulator twice a week tows a barge loaded with stone from a point near Wyeth to the Locks. The stone is a fine quality of basalt, and is cut and used in the walls of the canal.

The local field has been gleaned by our reporter today, but there is not even a good quality of chaff to choose from.

Rev. Father Bronsgeest is the happy possessor of two fine coats of which he is justly proud. Judging from their maneuvers in the corral they will win laurels on the race track at some future time.

A rough estimate of the strawberry crop in Multnomah, Marion, Clackamas, Wasco, Umatilla and Union counties, Oregon, indicates a probable output of not less than 5,000,000 pounds in the counties named.

The German singing society (Harmonie) will give a grand concert Sunday evening, April 7th, and has engaged the services of the noted Vienna comedian, Joseph Mueller. Do not fail to see him, crowded houses in Portland and great success every where he has appeared.

Dufur held a city election the other day that was hotly contested. The present mayor, A. J. Dufur, was re-elected by a majority of one vote.

Miss Aimee Newman, teacher of piano-forte music. For terms apply at residence, corner of Fourth and Union.

the council, being on both tickets, and Mr. Brigham was re-elected recorder, having no opposition.

Eli Perkins Tonight.

Mr. Eli Perkins delivered his lecture on 'The Philosophy of Wit and Humor' at the First Baptist church last night. The audience was small, but appreciative, and enjoyed the lecture thoroughly.

More Appreciation.

The members of the German Ladies Aid Society express their thank to the Home Dramatic Club, for the generous gift of \$21, to aid in their charitable work.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Out-door plants, rose bushes, pansies, forget-me-nots, and Dahlia-bulbs at the Stabling Greenhouse, Cor. Eighth and Liberty.

Miss Aimee Newman, teacher of piano-forte music. For terms apply at residence, corner of Fourth and Union.

Jos. T. Peters & Co. have cord wood, which is desirable in all respects, and respectfully solicit your orders.

Monday's Dust Storm. A correspondent of the Spokesman-Review, writing from Garfield of the remarkable dust storm of last Monday, says:

'The cause and origin of the dust storms similar to the one which passed over here Monday evening have long been a mystery. The wind will sometimes blow steadily for days without any considerable amount of dust being raised by it, while, on other occasions, when the conditions are apparently the same, the air will be full of dust, causing the sun to give but a sickly color, sometimes even giving an appearance to the earth as in times of eclipse. The dust usually flies high, the lower strata of air being about as free from dust as ordinarily.

The extent of these storms is far beyond that commonly supposed. The dust is taken from the great plains of the Columbia, in the vicinity of Walla Walla, and when the storm continues for several hours—as it frequently does—it is swept northeast across the fields, forests and mines of Washington and Idaho; crosses the international boundary and shades the meadows of the Northwest territories; frightens the inhabitants of Manitoba with its similarity in appearance to that of a cyclone; still pushes on above the trappers of the Nelson and Severn rivers, casts its faint shadow on the sailors on Hudson's bay, 1500 miles from its starting point, and still continues its course onward to—no one knows where.

Examine the trees everywhere along this line of march. Their bark is gritty—full of small particles of sand. Mill men and choppers will tell you that their bark dulls tools much more rapidly than in regions outside of this track. The sand of the Columbia dulls the ax of the woodchopper on Hudson's bay!

Yesterday their nature was a mystery; today every telephone operator in the Palouse country can tell you they are electrical storms. When a thunder storm is passing over a country all the telephone bells are kept ringing just as the sounders of the telegraph are kept clicking. The disturbance is only local, the bells of instruments afar off, even on the same line, being unaffected. Monday night the bells in all the offices in the territory reached by the storm were kept jingling. Other dust storms have passed over us without this phenomena, but they were too high up—too high to affect the instruments. A few years ago there was a storm similar to this one, but the telephone lines were but few, and the storm did not strike until a late hour.

The dust storm is the Palouse version of a cyclone. Its path is wider; its course is many times longer; it blows straight instead of with a rotary motion; it moves nothing possessing much stability; but both owe their existence to

that subtle force of nature which man has harnessed, but the mystery of which he cannot fathom.

PERSONAL MENTION.

Mr. W. F. Courtney, a prominent stock buyer, is in the city.

Mr. M. H. Nickelsen, treasurer of the town of Hood River, is in the city today.

Mr. Paul Kref's little daughter, who has been dangerously ill, is recovering.

Miss Mertie Apperson, who has been visiting in the city for the past month, returned to McMinnville yesterday.

Mr. T. Crum, who has been confined to his room with a severe attack of influenza, is much better. We will be pleased to see him at his old stand again.

Railroad News.

The Astorian contains the following two railroad items: Mr. A. B. Hammond and Mr. J. C. Stanton left for Portland last night on the Bailey Gatzert. They expect to return to Astoria within a week's time. While away Mr. Hammond will visit Corvallis and other points on the Oregon Pacific. He expects to have a corps of engineers in the field within the next ten days, surveying the line from this city to Goble. After making a trip to San Francisco, which he will do when leaving here next week. Mr. Hammond expects to return to Astoria and remain for a month or so until building operations get under full way.

Dr. Kinney says that it is the intention of Mr. Hammond to extend the Seashore road to the mouth of the Nehalem. This will be done as soon as the Astoria-Globe road is finished. The survey, however will be made this summer, and everything such as right of way, maps, etc., got ready for an early beginning.

Exposure to rough weather, dampness, extreme cold, etc., is apt to bring on an attack of rheumatism or neuralgia; chapped hands and face, cracked lips and violent itching of the skin also owe their origin to cold weather. Dr. McLean's Volcanic Oil Liniment should be kept on hand at all times for immediate application when troubles of this nature appear. It is a sovereign remedy. 25c, 50c and \$1.00 per bottle.
