A. A. B.

Fruit Growers Solid Sprays.

These Sprays are reduced to a SOLID form, requiring only the addition of water for immediate use.

SPRAY NO. 1.

Winter Spray for San Jose Scale and Curl Leaf of the Peach.

Lime, unslacked.....30 lbs
Sulphur, powdered.....20 lbs
Salt, Liverpool.....15 lbs

The above is a very efficient remedy for the San Jose Scale and Curl Leaf of the Peach, and is an excellent fertilizer for the trees. It not only destroys the scale and prevents the spread of the curl leaf, but removes all lichens and keeps the bark soft.

In the case of curl leaf, the greatest good will result from the early spraying, as it prevents to a large degree the dormant spores of this parasitic fungus coming to life, and destroys any that may have started.

DIRECTIONS.

To be most successful, this spray should be applied just before the buds swell in the spring. It can be used at this time stronger than later, and should be thrown upon the trees when it is warm.

Use for winter spraying, 1 pound to 2 gallons of water; for summer work use 1 pound to 8 gallons of water. Maier & Benton, sole agents, The Dalles, Or.

BRIEF MENTION.

Notes From the Notebook of Chronicle Reporters.

Two bicycles will be given away at Mays & Crowe's tonight, at 8 o'clock, sharp.

The weather bureau reported this morning, occasional showers for today, and tomorrow fair and cooler.

Huskey, the boy tried for shooting a dog belonging to Mrs. Bachelor, was found guilty and fined \$40 and costs.

Next Sunday being Easter, several children will make their first communion at the Catholic church at 7 o'clock mass.

The wind yesterday afternoon was not so powerful here, but on the river below and the high ground back of the city it was a regular scorcher.

Castle Haworth, which stands on the bluff overlooking the site suggested for the branch insane asylum, shows up from town as the largest thing in that direction, except Mount Hood.

The directors of the D. P. & A. N. Co. met soon after their election and elected the following officers for the ensuing year: S. L. Brooks, president, Orion Kinerly, vice president, M. T. Nolan, secretary, J. S. Schenck, treasurer.

The Regulator came in last night a little late on account of the heavy wind that made her hug the shore. With two men at the wheel it was all that could be done to keep her steady, it being one of the worst storms experienced in a long time on the middle Columbia. She brought fifty-two passengers.

Easter Sunday, the 14th. All the churches are preparing for appropriate services on the day, and they will all be crowded. There is something about the Easter services that overcome even the non-church-going proclivities of those who do not usually attend the churches during the balance of the year, and cause them to wend their way on that day to the house of prayer.

The Woodmen had a very pleasant entertainment last night. Fraternity hall was well filled and from the hearty applause given the different numbers all enjoyed the affair thoroughly. The program consisted of recitations and music, followed by a broom drill by a class of young ladies that was heartily ap-

plauded. At its conclusion refreshments were served and after that dancing was indulged in until midnight.

The fishing season began at 12 o'clock last night. The low stage of the river will prevent much of a catch at the start as the water is not up to most of the wheels. Some net fishing will be done, but until the river rises the catch as well as the run will be light. The Seufers Bros. have two wheels at Celilo that will take in the fish at the present stage of water, provided there are any to take in. Fishermen say there are a few chinooks running, but that is about all.

Benton county farmers are paying some attention to the new stock food, vetches. Last season Miles Starr and several neighbors grew the crop with marked success, and have re-sown this season with excellent crop prospect. In an experiment of a month each, recently, in which the milk was accurately measured, C. D. Thompson, farmer at the O. A. C., made a feeding test to milk cows with vetches and clover and found no difference in their value as milk-producing food.

Everybody Satisfied.

County Judge Blakeley and Commissioners Darnelle and Blowers went out to 8-Mile this morning for the purpose of looking at the road and examining some bridges. They returned by what is known as the Benson road. Near Mr. Benson's place they heard a grinding noise in one of the wheels, and Mr. Darnelle got out to investigate. When he put his fingers on the nut that holds one of the hind wheels on, he took them off again without being told, for it was decidedly warm. The party proceeded to Benson's, where they took the wheel off, leaving the boxing shrunk firmly around the spindle. After pouring a barrel or two of water on the spindle, the boxing was gotten loose, and then Mr. Darnelle rose to the occasion and proceeded to doctor the wheel. He borrowed Benson's overalls, and wrapping the boxing drove it backward into the wheel, repairing all damages in about five minutes. The party had a nice experience, Ward, Kerns & Robinson have a buggy wheel as good as new, and Benson has a lien on the buggy for the price of a new pair of overalls.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

For Rent.

After April 1st, 20 acres of fine land, situated within the city limits. House and barn, good water for irrigating. Terms easy. Apply to Fred W. Wilson. mh20-1m.

Our patrons will find De Witt's Little Early Risers a safe and reliable remedy for constipation, dyspepsia and liver complaints. Snipes-Kinerly Drug Co.

Some Handsome Work.

Ever since the high water of last June French & Co. have wanted to have the interior of their bank repapered and painted, but owing to the dampness in the walls this could not be done until this spring. David Vause, the artistic decorator, took the contract and has certainly succeeded in beautifying the big room wonderfully. The ceiling has been papered with light shades, blending beautifully. The walls are a peculiar yellowish tint, giving a very pretty effect, and the woodwork has been grained until it looks like Nature herself could not have done anything more perfect. The floor is covered with a peculiar linoleum, made by a recent process. The figures in it are made of the same color the full depth of the material and are pressed together, so that as it wears the figure does not wear out but shows just the same color and shape until it is worn clear through. The room has a light, airy and cheerful appearance, and is as handsome an interior as can be found in the state.

Crop Report.

The crop weather bulletin for this week has the following:
"Columbia river valley, embracing Wasco, Sherman, Gilliam, Morrow and Umatilla counties—A light skim of snow fell on the 3d, and a light frost was had on the 4th. Conditions are still favorable for all kinds of fruit. Cherry and peach trees are leafing and blooming. Strawberries have commenced to bloom. Almond and apricot trees are blooming at Hood River. Fruit bloom is considered unharmed by the frosts. Plowing is well along, and seeding is about one quarter done. The small acreage of winter wheat is growing slowly. The season is considered later than usual. Early garden vegetables, such as lettuce, radishes, onions, spinach and asparagus all of home growth, are in The Dalles market. Farmers are plowing for summer-fallow.

A Queer Accident.

Conductor Brown's caboose stands on the coach track stabbed full of hop-pole holes. When the train was coming in from Hilgard Monday afternoon with five flat cars of hop-poles loaded for Idaho, the side stakes on one of the cars gave way at the bridge above Oro Dell, and about half the load was dumped off among the bridge timbers. Several of the poles were driven squarely through the front end of the caboose, and it is a great wonder that the trainmen escaped injury. The caboose was tilted over to one side, but finally got through without any serious mishap. When the train was stopped and a survey of the situation made the bridge looked like it was literally piled full of hop sticks. The section crew was at work near that place, and they succeeded in clearing the obstruction before the arrival of the west-bound passenger. — La Grande Chronicle.

Wanted.

A girl to do housework. Steady job to right party. Apply at this office.

PERSONAL MENTION.

Mrs. LeBallister went to Dufur yesterday.

M. T. Nolan went to Portland this morning.

Mr. A. Everding arrived from Portland last night and will get the cannery ready for work in a day or so.

Mr. Calvin H. Weeks of Portland, accompanied by his family, is in the city and examining into the country's resources.

We have made arrangements with the San Francisco Examiner to run his advertisement in connection with THE CHRONICLE. Having a clubbing rate with the Oregonian and N. Y. Tribune for our republican patrons, we have made this arrangement for the accommodation of the democratic members of THE CHRONICLE family. Both papers, the Weekly Examiner and SEMI-WEEKLY CHRONICLE will be furnished for one year for \$2.25, cash in advance.
