MR. CLEVELAND'S OPINION.

President Cleveland has concluded not to visit Chicago. It is too far west for him. Instead he has written a long letter, of which we print the concluding sentences. Cleveland is a mono-metalist of the most rabid kind, and his recent utterances go to show that he is posing for the nomination for the presidency on the gold-bug ticket:

"In our relations to this question we are all in business, for we buy and sell; so we all have to do with financial operations, for we all earn money and spend it. We cannot escape our interdependence. Merchants and dealers are in each neighborhood, and each has its shops and manufactories. Wherever the wants of man exist, business and finance | the silver craze. If this be true, then in some degree are found, related in one direction to those whose wants they Neither Cleveland nor any other man supply, and in another to the more ex- will warm the white house chair for the tensive business and finance to which third term. they are tributaries. A fluctuation in price at the seabeard is known the same day or hour in the remotest hamlet. The discredit or depreciation in financial or business centers of any form of money in the hands of the people is a signal of buckskin horse branded Z on left shoul-immediate loss everywhere. If reckless der; weight about 850 pounds. Owner discontent and wild experiments should can have them by paying pasture bill sweep our currency from its safe support | and ad. the most defenseless of all who suffer in the time of distress and national discredit would be the poor as they reckon their loss in their scanty support, and the laborer and workingman as he sees the money he has received for his toil and barn, good water for irrigating. shrink and shrivel in his hand when he Terms easy. Apply to Fred W. Wilson. tenders it for the necessaries to supply his humble home.

tunity for sober second thought they and the WEEKLY OREGONIAN for \$2.00. will sanction schemes that, however cloaked, mean disaster and confusion; nor that they will consent, by undermining the foundations of a safe currency to endanger the beneficent character and purposes of their government."

The railroad companies are not interested in developing the manufacturing industries of Oregon; on the contrary it is directly against their interests to have factories started here. What they want is something to transport, and if they can haul our raw material to the East and manufactured products back, it is just what they want. Agricultural implements and harvesting machinery that we could easily manufacture here form quite an item in the railroads' incomes, since they are hauled clear across the continent. These same machines, too, cost more in Oregon than they do in Australia, just on account of the railroad tariff on them. Oregon will be takes Dr. Pierce's Pleasant Pollet. never prosper as she should until she manufactures the larger portion of such things as she needs, and has the material to make them of. We have plenty of hardwood and plenty of iron, and there is no reason why the making of agricultural implements and harvesting machinery should not be carried on

The United States supreme court needs some new material, and it needs it badly. Justice Jackson is so infirm and sick that he is unable to perform any of the duties of the office, except to draw his pay. Field, always an aristocrat, is about in the same condition, only it is his mind that is diseased, and he is more of a nuisance to the court and the people than any other member of the court could be, because he has an unsound mind in a sound body. In the recent income tax cases the old gentleman showed his childishness by ignoring the points in issue, and vented his spleen in a tirade against the law, not because of its injustice to the people, but because it compelled him to pay two per cent tax on a portion of his salary. The United States supreme court is a very poor institution to use as a pension department, and either failing mental or bodily vigor should at once operate to the removal of the person so affected from the bench.

San Francisco has had a genuiue horror in the murder of Minnie Williams and Blanche Lamont in the Emanuel Baptist church. The dispatches yesterday told of the finding of the body of the former in the library of the building. The dead girl's clothing had been torn, and it was evident she was outraged and then murdered. Today the horrible affair is supplemented with the story of MRS. M. E. BRIGGS

the finding of the body of her friend, Blanch Lamont, in the tower of the when found was entirely naked. She had been missing since April 3rd, at which time she was probably murdered. The last person seen in her company was W. H. T. Durant, a young medical student, who is also librarian of the church. Durant has been arrested, but is cool and confident of establishing his innocence. The dispatches state that these two make in all eight murders in San Francisco since April 1st.

American politics show some queer paradoxes. For instance, the United States senate is popularly supposed to represent the great corporations, and the capitalists. The lower house, it is boasted, is fresh from the people, elected by them, and therefore moves in touch with them. Now it is asserted that the capitalist and the corporations are for a gold standard, while the mass of the for sale or exchange, whereby people demand the free coinage of silver. The fact is that the senate is in favor of free coinage of silver, while the house is against it.

Secretary Morton thinks that on Cleveland's nomination for a third term rests the chief salvation of the country from migration to Wasco and Sherwe might as well prepare for the worst. stimulating the sale of prop-

THE BUSINESS MAN'S LUNCH.

Hard Work and Indigestion go Hand in Hand.

Concentrated thought, continued in, robs
the stomach of pecessary blood, and this is
also true of hard physical labor.

When a five horse-power engine is made
to do ten horse-power work something is
going to break. Very often the hardworked man coming from the field of the
office will "bolt" his food in a few minutes which will take hours to digest. Then
too, many foods are about as useful in the
stomach as a keg of nails would be in a
fire under a boiler. The ill-used stomach
refuses to do its work without the proper
stimulus which it gets from the blood and
nerves. The nerves are weak and "ready
to break," because they do not get the
nourishment they require from the blood,
finally the ill-used brain is morbidly wide
awake when the overworked man attempts to find rest in bed.

The application of common sense in the

system brings to the busy man the full enjoyment of life and healthy digestion when he takes Dr. Pierce's Pleasant Pellets to relieve a bilious stomach or after a too hearty meal, and Dr. Pierce's Golden Medical Discovery to purify, enrich and vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concentrated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver; then the "Medical Discovery" should be taken in teaspoonful doses to increase the blood and enrich it. It has a peculiar effect upon the lining membranes of the stomach and bowels, toning up and strengthening them for all time. The whole system feels the effect of the pure blood coursing through the body and the nerves are vitalized and strengthened, not deadened, or put to sleep, as the so-called celery compounds and nerve mixtures do—but refreshed and fed on the food they need for health. If you suffer from indigestion, dyspepsia, nervousness, and any of the ills which come from impure blood and disordered stomach, you can cure yourself with Dr. Pierce's Golden Medical Discovery which can be obtained at any drug store in the country.

One in Four.

One person in four has a weak or diseased hear that entirely unfits them for business and social life, or is simply a little annoying. Disease is never at a standstill. When the trouble first commenced, "Oh! well, it don't amount to much," and you let it go, let the disease insiduously get the mastery of you. You lose all courage; the slightest exertion tires you; your feet, ankles and legs swell; you cannot lie on your left side. Finally, you become so bad that you cannot lie down without smothering, and are compelled to get what sleep you can in a chair. You are urged to avoid this. You are invited to get well. Have you the least little ambition left? Mrs. Flista Cassiday, a mill employee of Lowell, Mass., had slight heart troubles many years ago.

Mrs. Elisia Cassiday, a mill employee of Lowell, Mass., had slight heart troubles many years ago.

She neglected it for years.
Her son tells the story best in his letters.
Her son tells the story best in his letters.
Her son tells the story best in his letters.

"I must tell of the wonderful things your Heart Cure has done for my mother. She is 58 years of age, and always had good health until a severe cold left her with a slight heart trouble, which kept getting worse and worse. Physicians called it bronchitis of the heart seven years ago, but they did not help her; we had the best physicians in Lowell. She would take weak, fainting and palpitating spells; several times we thought she would not live to see morning, and every spell seemed to be worse than the last. On March 18th, she was prepared for death and we watched for her last breath, but reviving somewhat, I was prompted to try your Heart Cure. We found it to relieve her almost immediately, and she is now using the third bottle, and thanks be to God and your medicine she has had no more spells and goes up stairs as well as ever and don't have to stand and wait for breath. Her cough has left her. I write to let you know, as there are others suffering same as she. Mother says 'May God bless you every day of your life.'"

"Mother tells everybody in praise of your medicine which saved her from the grave; she is gaining strength and flesh every day. No palpitation or trouble of the heart at all now, and is at work every day since I wrote you last. If any person wishes any information, we will be only too glad to have them write or come to see us and will give full particulars concerning the good your valuable Heart Cure has done her. We were an your work of the heart of the hea
