

# Weather Crop Bulletin No. 4 of the Oregon State Weather Service for Eastern Oregon.

**WEATHER:** Light rain fell on the 16th and 17th, being heaviest in Umatilla county; it amounted to from .02 to .34 of an inch. The temperature has ranged from 34 to 75 degrees in the Columbia river valley and from 28 to 68 degrees to the south; several light frosts occurred in the valley and injurious frosts to the south.

**CROPS:** There is a general desire for more rain. The western part of Wasco county and the northern portion of Umatilla county have so far sufficient moisture, but more will be soon needed. In Sherman and Morrow counties the need of rain is already very marked. The fall sown grain is quite healthy and growing well. Spring sown grain is not in good condition—it needs rain. The frosts have done little, if any, damage; in the valley the frosts were not severe enough to do damage, and to the south the fruit buds are not advanced sufficiently to be damaged. There is an exception to this statement in southern Gilliam county, where frosts have possibly done damage. The fruit will make a good crop this year; the cereal crop will be materially deficient unless general and copious rains occur. Warm rains will insure good crops, without general rain there are indications already of short grain crops.

While showers usually occur during May and June and sometimes general heavy rains occur, yet the conditions this year are such that a dry season appears to be probable.

Endersby Items.

The weather for the past week has been perfect, the hills have taken on a lovely green, while the orchards are in full bloom, farmers are about through seeding and planting is the order of the day.

The committees in charge of the May-day picnic are doing everything possible for a big time. They have concluded to use the Campbell grove for the picnic grounds, as it is more convenient as to the location, being close to the new hall where the grand concert of the season will be given the same evening. We have learned from the committee in charge of the picnic, that the grounds will be cleared off and reseeded with every convenience for speaking, singing and games, too numerous to mention. Mr. J. C. Burkes of Moro, will be the speaker of the day. The singing will be conducted by Prof. McGregor with his harmony group, assisted by a quartet from Moro, under the leadership of Mr. C. E. Brown, president of the Musical Association of Sherman county. Miss A. Conard, of Walla Walla, will be organist for the occasion. The committee in charge of the evening entertainment are doing all they can to make the concert a success and no doubt they will be rewarded with a full house. Come one, come all, sing, laugh and grow fat.

Antelope Notes.

From the Herald.

We learn that a man was held up in The Dalles last Friday in broad day-light while he was on his way home. It was done by two of his friends, who could barely walk straight themselves.

An industrious man spends the first 40 years of his life at hard labor, and the next twenty running around trying to find a climate in which he can live. A lazy man has good health anywhere.

This is the finest lambing weather experienced in many years. The nights are a trifle cool, but there is no rain nor snow to make them disagreeable. A large percentage of lambs will be saved.

Mr. Fred Walker, a mutton buyer from Portland, accompanied by Mr. Charley Akers, one of the solid citizens of Northern Sherman county, were up in this section the first of the week contracting for the purchase of a large band of 3 year old wethers from the P. L. & L. Co. The price paid was a little over \$3. They are both old friends of the Shutt family, whose guests they were over Wednesday night.

Hydrophobia Developed From the Bite of a Cat.

TALLAHASSEE, Fla., April 22.—Henry, the 12-year-old son of Chief of police Benfater, of this city, developed decided symptoms of hydrophobia yesterday and last night his life was despaired of. Six weeks ago, while Henry and a younger brother were visiting relatives in Jacksonville, the latter was attacked by a large black cat. Henry went to help his brother, and was terribly scratched and bitten on his face and hands by the cat. The injuries were cankered, and the boy remained in his usual health until yesterday. While playing in the yard with other children the boy began to act strangely, and manifested a disposition to scratch his playmates. His parents were called, and when they appeared Henry ran to them, mewing like a cat. he was seized and confined and doctors summoned, but they have not been able

to relieve the child. At times he would become quiet and purr and mew. Then a violent paroxysm seizes him and he acts like an enraged cat and uses his fingers as claws. His case is considered hopeless.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,
