WHAT WILL BE DONE

Information Received of England Intention.

BRITISH TROOPS TO BE LANDED

Will Permit It in Order to Draw Attention to the Infringement on the Monroe Doctrine.

WASHINGTON, April 24.—Exact official information has been received as to Great Britain's belligerent steps in Nicaragua. British troops are to be landed at Corinto, the custom-house is to be occupied and British officers are to exercise the functions of collectors of customs. At the same time Nicaraguan local commerce is to be crippled by a blockade. The coast-defense vessel Monterey is still at Acapulco, Mexico, about 800 miles north of Corinto. She is expected to sail southward very soon, but no special orders have been sent her since she sailed from San Diego.

The limit of time allowed Nicaragua to yield expires tomorrow, and the blockade, etc., is to begin immediately afterward. There is good reason to believe that Nicaragua will not yield, but will allow the British troops to occupy Corinto in order that conspicuous attention may be drawn to what is regarded by Nicaragua as an invasion of the Monroe doctrine.

President Zelaya Notified.

MANAGUA, April 24.—The British admiral has notified President Zelaya that the three days given Nicaragua to comply with the terms of the ultimatum will expire tomorrow. The failure to pay the indemnity will be followed by a seizure of the custom-house at Corinto and collection of the duties by British subjects, presumably officers of the fleet detailed for that purpose. The note of the British admiral contains the declaration that force will be used to collect the money if opposition is made. Great excitement exists. The government if it is reported, will refuse to pay the indemnity and will abandon Corinto as a port of entry. The belief is general here that if Great Britain obtains possession of Corinto she will continue to occupy it, as she has occupied territory in Egypt and other countries where she obtained a foothold.

Special Meeting Held.

WASHINGTON, April 24.—Gresham had a long interview with Pauncefote today, and also saw Minister Guzman of Nicaragua, who communicated to him the intelligence he had from his government. Very shortly afterwards members of the cabinet drove out to Woodley, the president's country home, where a special cabinet meeting was held.

The British Blockade of Nicaraguan Ports—Wishes to Give a Lesson.

WASHINGTON, April 24.—Reports from Nicaragua confirm the statement that the blockade of Nicaraguan ports by Great Britain will be the means of executing her demands. The understanding is the blockade is to begin next Saturday. There is good reason to believe the demands will not be altered, reduced or compromised in the slightest particular. One of the main purposes of Great Britain is to administer a lesson to Nicaragua, and, indirectly, to all southern republics as to British methods of redress.

Admitted in London.

LONDON, April 24.—The foreign office today authorized the Associated Press to state that news sent out from Corinto, Nicaragua yesterday, as to the arrival of three British warships there for the purpose of presenting Great Britain's claim for indemnity for the expulsion of the British consular agents, etc., was correct. It is added, instructions to the British admiral on the Pacific station were sent

some time ago to insist upon Nicaragua's compliance with the terms of the ultimatum of Great Britain or, failing such compliance, to blockade the port of Corinto, seize the customs within two days after and thus enforce satisfaction from Nicaragua for the insolence with which British subjects have been treated.

An English View.

LONDON, April 24.—The Chronicle, commenting on the presence of English warships at Corinto, Nicaragua, says it shows the affair is nearing a crisis. Nicaragua is evidently working on the sympathy of the United States, but if the latter country takes these "small republics" under its protection she must impress upon them the importance of maintaining international observances. The paper declares the Monroe doctrine is good enough in its way, but can hardly prevent a European power from obtaining redress for an insult.

The Minister's Testimony in Durrant's Examination.

SAN FRANCISCO, April 24.—Theodore Durrant passed a quiet night and when he appeared in Judge Conlon's courtroom this morning was as refreshed and self-composed as ever. He conversed with his attorneys earnestly for some time before court opened.

H. E. Snook, the undertaker, who was called to the church by Dr. Gibson and Dentist King to look after the body of Miss Williams, who was the first witness. He said that he had known Miss Williams in life three months, and had known Durrant for two years. He described the position of the body and gave several unimportant details on the condition of the body.

Mrs. Amelia Voy, with whom Miss Williams was to stop before going to Tacoma, testified that Miss Williams had come to her house on the afternoon of the murder and had left about 8 o'clock alone. Mrs. Voy was not allowed to tell where Miss Williams was going. Mrs. Voy identified the clothes worn by the dead girl when she left the house and which were found on the murdered girl.

Adolph Hobe, of Oakland, testified that he had seen Durrant with whom he was acquainted, at the ferry on the afternoon of the 12th. Hobe says that Durrant was in the company of a young lady smaller than himself. He did not see the lady's face, but she wore a cape. He did not speak to Durrant.

Miss Florence Voy corroborated her mother's testimony.

Half a dozen witnesses for the prosecution failed to respond to their names.

Dr. Gibson was the next witness called. He answered the questions put to him in a loud, clear voice. Dr. Gibson said that he had seen Durrant on Good Friday night, at the Christian Endeavor meeting held at Dr. Vogel's home. He thought Durrant came to the meeting about 9:30 o'clock, after the conclusion of the business meeting. Durrant remained until the party broke up. The witness had seen Durrant in the library of the church alone one week before the 17th of March.

He knew that a new lock had been put on the library door, but was not allowed to tell why, on motion of the defense. He did not have a key for the new lock. Witness was at the church on the morning that the body of Miss Williams was found. He heard a noise in the church, but did not investigate. The janitor's boy came and told him that the library lock was broken. He went to see about it, but for some reason did not open the door. He went to his lodging-house and was later informed as to the finding of the body by Mrs. Nolt. He went to the church with Dr. King, father of George King. Dr. Gibson gave some information as to his past life. He was born in Edinburgh, in 1857, came to America in 1888, and went to Red Bluff, thence to this city last November. He had known Mrs. Williams. He saw her for the last time to his certain knowledge, March 2, in the Sunday school room when she told him she was going away and bid him good bye. After some questioning of the witness as to certain addresses in

DID YOU EVER

hear tell of a purchaser wanting to buy an imitation? Why do men who try to sell such articles speak of the act as "working them off"? Simply because people want the best, and it takes work and likewise deception to sell them the worst. This unpleasant experience may befall the housekeeper who determines to

the new vegetable shortening. The healthfulness, flavor, and economy of this wonderful cooking product has won for it the widest popularity, which in turn has attracted the attention of business parasites who are "working off" imitations and counterfeits. his memorandum book, which was admitted as evidence, the court adjourned until 2 p. m.

A close investigation of the washroom in Emanuel church was made yesterday. This room could only have been reached by some one thoroughly familiar with the building. Besides a number of stains on the washbowl, they are numerous on the splashes surrounding it. Blood stains have also been found on the walls leading to the washroom. The extent of the blood-stains go to prove that the murderer had no light, for a judicious person, as his actions prove him, would not have splattered so much blood around had he seen what he was doing.

The blood-stained coat, which was brought to light in Berkeley on Monday, has caused a sensation there, but there is considerable difficulty in determining the date on which it was found. Mrs. Boillot, with whom the package was left, tells three different stories as to the date on which a strange man asked permission to leave a bundle at her home for a few hours. Mrs. Boillot says the man resembled Durrant very much, and she believes she could identify him.

When your heart pains you and unusual palpitation is frequent, accompanied sometimes with shortness of breath and low spirits you are suffering from a disordered state of the liver, digestion is imperfect and there is wind on the stomach. If allowed to remain the trouble will ultimately reach the kidneys and then become dangerous to life. Steps should be taken to stay its progress on the appearance of the first symptoms. Dr. J. H. McLean's Liver and Kidney Balm is especially adapted for disorders of this kind. Price \$1.00 per bottle. For sale by Snipes-Kinnersly Drug Co.
