Horticultural Quarantine Regulations.

At a special meeting of the Oregon State Board of Horticulture, held in Portland April 2, 1895, all members present, the following regulations were adopted, in accordance with the laws regulating such matters, and are, therefore, binding upon all persons. The regulations are to take effect and be in force from and after May 4, 1895:

Rule 1—All consignees, agents or other persons, shall, within twenty-four hours, notify the quarantine officer of the State Board of Horticulture, or a duly commissioned quarantine guardian, of the arrival of any trees, plants, buds or cions at the quarantine station, in the district of final destination.

Rule 2—All trees, plants, cuttings, grafts, buds or cions, imported or brought into the state from any foreign country, or from any of the United States or territories, are hereby required to be inspected upon arrival at the quarantine station in the district of final destination, and if any such nursery stock, trees, plants, cuttings, grafts, buds or cions are found to be free of insect pests, and fungous diseases, the said quarantine officer or duly commissioned quarantine guardian shall issue a certificate to that effect. And furthermore, if any of said trees, plants, cuttings, grafts, buds or cions are found infested with insect pests, fungi, blight or other diseases injurious to fruit or to fruit trees, or other trees or plants, they shall be disinfected and remain in quarantine until the quarantine officer of the State Board of Horticulture or the duly commissioned quarantine guardian can determine whether the said trees, plants, cuttings, grafts, buds or cions are free from live injurious insect pests or their eggs, larvae or pupae, or fungous diseases before they can be offered for sale, gift, distribution or transportation. All persons or companies are hereby prohibited from carrying any trees, plants, cuttings, grafts, buds or cions from without the state to any point within the state beyond the nearest point on its line or course to the quarantine station in the district of ultimate destination, or from any point within the state to any other point therein, until such trees, plants, cuttings, grafts, buds or cions have been duly inspected, and if required disinfected as hereinbefore provided, and all such shipments must be accompanied by the proper certificate of the inspecting officer. Provided, however, that after such persons or company have given the proper officer four days' notice, he or they shall not be required to hold such shipments further, without directions from such officer.

Rule 3—All peach, nectarine, apricot, plum or almond trees, and all other trees budded or grafted upon peach stock or roots, all peach or other pits, and all peach, nectarine, apricot, plum or almond cuttings, buds or cions, raised or grown in a district where the "peach yellows" or the "peach rosette" are known to exist, are hereby prohibited from being imported into or planted or offered for sale, gift or distribution with the state of Oregon.

Rule 4—All trees, plants, cuttings, grafts, buds, cions, seeds or pits arriving from any foreign country found infested with insect pests or their eggs, larvae or pupae, or with fungi, or other disease or diseases heretofore unknown in this state, are hereby prohibited from landing.

Rule 5—Fruit of any kind grown in any foreign country, or in any of the United States or territories, found infested with any insect or insects, or with any fungi, blight, or other disease or diseases injurious to fruit or fruit trees, or to other trees or plants is hereby prohibited from being offered for sale, gift or distribution within the state.

Rule 6—Any boxes, packages, packing material and the like infested by any insect or insects, or their eggs, larvae or pupae, or by any fungi, blight, or other disease or diseases known to be injurious to fruit or to fruit trees, or to other trees or plants, and liable to spread contagion, are hereby prohibited from being offered for sale, gift, distribution, or transportation until said material has been disinfected by dipping it in boiling water and allowing it to remain in said boiling water not less than two minutes; such boiling water used as such disinfectant to contain in solution one pound of concentrated potash to each and every ten gallons of water.

Rule 7—Animals known as flying fox, Australian or English wild rabbit, or other animals or birds detrimental to

fruit or fruit trees, plants, etc., are prohibited from being brought or landed in this state, and if landed shall be destroyed.

Rule 12—Quarantine stations: For the Fourth district, comprising the counties of Morrow, Wasco, Gilliam Crook and Sherman, shall be The Dalles. Emile A. Schanno quarantine officer, or any member of the board or the secretary thereof.

Rule 13—Importers or owners of nursery stock, trees, or cuttings, grafts, buds, or cions, desiring to have such nursery stock, trees, plants, cuttings, grafts, buds or cions inspected at points other than regular quarantine stations may have such inspection done where required, provided, however, that such importers shall pay all charges of inspection. Such charges and expenses to be paid before a certificate is granted. Transportation companies, or persons and consignees or agents shall deliver and caused to be detained all nursery stock, trees, plants and fruit at one or other of the quarantine stations, for inspection, as provided by the rules and regulations of the board.

Details as to quarantine stations, officers, fees of inspection, recipes for disinfection, and all desired information may be obtained on application to the secretary or any member of the board, or by reference to the pamphlet circulated.

Passed at a meeting of the State Board of Horticulture at Portland, Or., April 3, 1895. J. R. CARDWELL, Pres.
 Attest: GEO. I. SARGENT, Secy.

A Gentle Corrective

is what you need when your liver becomes inactive. It's what you get when you take Dr. Pierce's Pleasant Pellets; they're free from the violence and the griping that come with the ordinary pill. The best medical authorities agree that in regulating the bowels mild methods are preferable. For every derangement of the liver, stomach and bowels, these tiny, sugar-coated pills are most effective. They go about their work in an easy and natural way, and their good lasts. Once used, they are always in favor. Being composed of the choicest, concentrated vegetable extracts, they cost much more than other pills found in the market, yet from forty to forty-four are put up in each sealed glass vial, as sold through druggists, at the price of the cheaper made pills.

"Pleasant Pellets" cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in sealed glass vials, therefore always fresh and reliable. Whether as a laxative, or in larger doses, as a gently acting but searching cathartic, these little "Pellets" are unequalled.

As a "dinner pill," to promote digestion, take one each day after dinner. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They are tiny, sugar-coated, anti-bilious granules. Any child readily takes them. Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying him a better profit, but he is not the one who needs help.

A free sample (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card. Address WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

Choice two-year-old roses for 25 cents; also cut flowers and floral designs at the Rose Hill Greenhouse, Eighth and Lincoln street. Orders can be left at Mrs. Phillips' millinery store, on Washington street, between Second and Third. If
