BRIEF MENTION.

Leaves From the Notebook of Chronicle Reporters.

Seeds at cost at E. J. Collins & Co.'s. The river stood this morning at 21.1 feet.

Drop your eyes on Pease & Mays ad tomorrow.

There was considerable "bock" in the beer yesterday.

County court met this morning for the transaction of probate business.

The weather bureau forecast for tomorrow is stationary temperature and showers.

A. M. Williams & Co. will have something to say in their ad tomorrow. Watch out for it.

Next quarterly examination of applicants for teachers' certificates will be held Wednesday.

Attorney Wilson and E. B. Dufur will go to Pendleton tonight to attend to business in the supreme court.

The dead walls and bill boards are blossoming today with the gay circus poster and the small boy is wildly happy.

Hood River has ripe strawberries, but none for market yet. There will be plenty of them by the last of the week if the weather is favorable.

Upon complaint of Mrs Stella Gray, mother of Alfred Gray, that young gentleman was today ordered sent to the reform school.

We observed a crowd of small boys looking at the circus posters this morning and heard one of them remark "why its two whole months yet and a feller might die of old age fore that gets here."

The Seufert & Condon telephone system, known as "The Dalles Exchange" is about completed. Most of the instruments are in place, and connections made.

This is the cyclone season in the East, and it opened with a destructive blow in Iowa in which nearly a hundred people were known to have been killed, and the count may make the number much larger.

Dr. H. Logan of The Dalles, Or., is in the city visiting his cousin, Dr. Callaway, and family. He is on his way to Chicago to attend the National Association of Railway Surgeons and will leave for that point tomorrow.—Nevada (Mo.) Post.

Quite a number of our young gentlemen met at the council chamber Saturday, for the purpose of organizing a baseball club. The arrangements were not

completed, but it was agreed to organize a club and another meeting will be held soon to perfect the organization.

The rain Saturday night and Sunday was as gentle as a turtle dove and mild as the first kiss of puppy love. It was as good too. The steady drizzle and lack of wind was a peculiar feature of the rain. It all went into the ground and the amount of good it has done is incalculable.

The salmon run does not seem to improve any but, the rise in the river puts more wheels at work so that the catch is increasing steadily. Mr. Herrick received quite a fine lot of Chinooks today but will hold them until tomorrow morning, at which time he expects to make a pretty good run.

Walter L. Tooze has shipped from Woodburn and vicinity this season, 98 carloads of potatoes to all points in California and to several points in Texas, Arizona, and New Mexico. He also shipped five cars to Chicago, Ill., being the first shipped out of the valley, or at least from Marion county, to Eastern points.

The rainfall yesterday was .29 of an inch, making the total fall for the month of May to date, .75 of an inch. This is .11 of an inch more than the average rainfall for the entire month during a period of 22 years. The reports from neighboring towns indicate that the rain has been general. Good crops all over Eastern Oregon are now assured.

Professor Gatch has resigned the office of president of the University of Washington. In accepting his resignation the board of regents adopted resolutions very flattering to him, and then elected him senior professor of philosophy. He will continue to act as president until his successor is chosen. Professor Gatch has many friends here, he having at one time been in charge of the academy here.

There is no excitement, nor is there very much talking being done about the mining industry in southern Oregon; yet it is a fact that there are more mines in active operation in this section than any other in the state. Considerable gold is being taken out right along, and people do not notice it any more than in any other branch of business. Some of the mines have been yielding a handsome income to their owners for years, and others just as valuable are being opened up every week.

It is probable that an application will be made to Judge Hanna soon for permission to resume work on the Ashland mine under the receiver. Messrs. Kelly and Sinnott have been there for the past fortnight, trying to make arrangements to that end, and an agreement has about been reached. The object is to pay off indebtedness which has been incurred lately, and afterward, if it is satisfactory, to continue work. The mill has been running for several days on tailings from the dump below.

Something new in photographs at Herrin's, for only 75 cents per dozen. Call at studio and see samples. 30-1w

LATE LITERARY NEWS.

Rudyard Kipling to Revisit India.

Much interest will be felt by the public in the return of Rudyard Kipling to India. He has just agreed to furnish a regular contribution to The Cosmopolitan Magazine for the coming year, beginning his work upon his return to India. India has never been critically considered by such a pen as Kipling's and what he will write for the Cosmopolitan will attract the widest attention, both here and in England.

Perhaps the most beautiful series of pictures ever presented of the Rocky mountains will be found in a collection of fourteen original paintings, executed by Thomas Moran for the May Cosmopolitan. To those who have been in the Rockies, this issue of the Cosmopolitan will be a souvenir worthy of preservation. This number contains fifty-two original drawings, by Thomas Moran, Oliver Heford, Dan Beard, H. M. Eaton, F. G. Atwood, F. O. Small, F. Lix, J. H. Dolph, and Rosina Emmett Sherwood, besides six reproductions of famous recent works of art, and forty other interesting illustrations—ninety-eight in all. Though the Cosmopolitan sells for but fifteen cents, probably no magazine in the world will present for May so great a number of illustrations specially designed for its pages by famous illustrators. The fiction in this number is by F. Hopkinson Smith, Gustav Kobbe, W. Clark Russell, Edgar W. Nye, and T. C. Crawford.

A Dial On His Face.

Col. James B. Eddy, of the Oregon Railway commission, has returned from the scene of the bridge collapse on the Oregon Pacific, fifty miles west of Corvallis. On the part of the commission, Col. Eddy made an investigation into the source of the accident and found it difficult to give a definite answer. It appears that the bridge had been inspected but a short time ago and pronounced sound and trainworthy.

In connection with the terrible accident, the Corvallis Times relates a strange incident. The conductor was Johnny Campbell and after the crash was over and search was made in the debris, on Mr. Campbell's face under the left eye was a perfect picture of his watch dial, showing the time to be 15 minutes past 3 o'clock, just the time of the accident. It is supposed he had his watch in his hand looking at the time when the crash came and he fell with his face on the dial and it left the imprint.

Some Business.

The Dalles did some business last year, despite the high water. Although the railroad was washed away so that trains did not run for more than two months during the summer, yet The Dalles shipped the following products in 1894 by rail, and not counting the immense amount shipped by boat. Wheat 705, other grain 80 cars, sheep 203 cars, cattle 208 cars, hogs 59 cars, fruit 21 cars, salmon 55 cars, wool 150 cars, potatoes 10

cars. Besides this it shipped in less than carload lots, miscellaneous merchandise weighing 2,459,261 pounds and received miscellaneous freight weighing 3,408,814 pounds. She received besides 56 cars of lumber, merchandise 52 cars, oil 13 cars, and coal 88 cars. In all for carload lots 1,620 cars were used and for the miscellaneous freight 300 cars more were required or a grand total of 2,000 cars. Two trainloads a week or six carloads a day. How is that for business for a small town?

Loading Cattle.

A large number of people have been at the depot today witnessing the loading of the cattle to be shipped away. John Stewart furnishes 800 head of the cattle for Mr. Hogan, of Helena, Montana, while 300 head in the same train is loaded by Frank Hampton for D. M. French & Co., of The Dalles. The cattle are one and two year old steers. They will make a full train load, and a special train will deliver them. The Messrs. Hampton are also loading a full train load of similar cattle at Miller's station in Linn county for French & Co. Mr. Stewart has purchased 2000 head more cattle for other parties which he will deliver in June. In that month A. J. Pickard will also deliver 600 head to parties in Crook county.—Guard.

Real Estate Transactions.

P. N. Anderson to J. P. Thompson, n/2, sw 1/4, sec 34, tp 2 n, r 11 e; \$1500. J. P. Thompson and wife to P. N. Anderson, s/2, sw 1/4, sec 30, tp 2 n, r 10 e; \$1500.
