OCCURS TOMORROW

Ratification of the Treaty
Will Not Be Delayed.

LISTENED TO FRIENDLY ADVICE

Warships Assembling in the Harbor of
Che-Foo—Eight Russian War Vessels
Have Arrived.

YOKOHAMA, May 6.—Viceroy Li Hung Chang has been appointed Chinese envoy to exchange ratifications of the peace treaty, which is expected to occur at Che-Foo tomorrow, instead of Wednesday.

Warships Assembling.
CHE-FOO, May 6.—The warships of several powers are fast assembling here. The situation is regarded as ominous. Already eight Russian warships, including three torpedo boats, are here, and more are expected. In addition, one British, French and American and two German warships have arrived.

Has Listened to Friendly Advice.
PARIS, May 6.—The Japanese minister here has informed the minister of foreign affairs, M. Honotaux, that deferring to the friendly advice of France, Russia and Germany, Japan has renounced its claim to the permanent possession of Liao Tung peninsula, including Port Arthur.

German Government Informed.
BERLIN, May 6.—The Japanese government has informed the government of Germany that in accordance with the advice of the powers Japan has relinquished her claim to Liao Tung peninsula under the treaty of Simonseski.

A British Commander Talks of the Oriental War.
NEW YORK, May 6.—Commander F. P. Ashe, of the British royal navy, is in the city on a brief visit. Commander Ashe was attached to a British warship which was on duty at the Hong Kong station in the China sea, during the war between China and Japan. In speaking of the war, he said:

"I studied it from a distance. There was some pretty hard fighting, and naval experts were furnished with some valuable data. The Japanese fought well on land and on sea, and richly earned their victory."

Speaking of the attitude of Russia toward the treaty of peace, Commander Ashe said:

"Russia has always been contesting for an eastern port. She is aggressive, and will take every advantage. This last move of hers is characteristic. I see that Japan has refused to heed her protests. I do not think that another war will result: I believe that Japan will stand by her guns and not concede an inch, and Russia will be obliged to acknowledge the justice of her position."

French Cruisers for China.
TOULON, May 6.—The French cruisers Sfax and Cecille will accompany the French cruisers Tage and Suchett to China sailing today. They were loaded yesterday with ammunition and provisions.

Cleveland as an Author.
WASHINGTON, May 6.—Mr. Cleveland is to appear before his countrymen in a new role. He has become a literary man. He has spent four years, more or less, in writing a book, still incomplete, which seems likely to give him an altogether unique position in our long line of presidents. It is a volume on economic science.

Everybody knows that Mr. Cleveland has theories of his own in the domain of politics. His views, however, are that the academic field of science cultivated by Adams Smith, Richardo and Mill are very little understood. If there is one study to which Mr. Cleveland has devoted his leisure, it is political economy and social economy. He is an omnivorous reader in these departments of knowledge. Another fact which has been noticed is that now he writes for hours. He is always making notes as he proceeds. In the matter of classifying his knowledge, Mr. Cleveland shows decided expertness. He has received nearly all the current works of importance that issue from the press—that is, those which are in his line. They are duly and promptly read and notes made of them for future reference.

Mr. Cleveland's book will probably appear when the president lays down the cares of office. Mr. Cleveland is presenting economic science from a point of view somewhat in advance of John Stuart Mill. His book is divided into four departments—production, consumption, distribution and exchange—and there is a special chapter under the department of consumption, on the theory of marginal utility.

From what can be gathered, Mr. Cleveland does not mean to expound a doctrine so much as to make clear the lines along which progress in economic thought must proceed. This way of going to work has permitted copious illustrations drawn from American history. In this Mr. Cleveland seems to strike a new note.

What the president writes is the work of his own hand. In his library at Woodley, Mr. Cleveland reads far into the night. He writes at late hours, too. At this rate it takes months to write a chapter. Mr. Cleveland's notes and references are carefully made and filed away. He can, by means of a system he has devised, lay his hand on any paragraph of any work he has ever read, provided he has a citation to verify. His library is thus always at his finger ends. A noteworthy fact is that Mr. Cleveland allows himself no amanuensis in his labors. In one respect these literary labors denote a change in the man. Several years ago Mr. Cleveland was no great reader. Now he is a good deal of a bookworm. This is a very powerful factor in his determination to lay down the responsibilities of office when his present term is ended.

Fighting has Begun.
NEW YORK, May 6.—Dispatches from Tegucigalpa and Nicaraguan points to the World say that fighting has begun in Granada, Nicaragua, and disorder is also reported from Leon. Word comes from there that the followers of Ortiz, Zerula and Macherro have united to make war on President Zelaya. The Honduran troops concentrated at Cape Gracias will remain there, as it is feared that the threatened outbreak on the Mosquito reservation may extend. General Bonilla will take 4,000 men and go to President Zelaya's aid if requested.

Though the British have left Corinto, martial law will continue some days, on account of the fear that the uprising at Granada will spread. It is estimated that the trouble with England has cost Nicaragua \$1,000,000. It is claimed that Envoy Barrios failed in his duty by not informing his government that United States Ambassador Bayard was not seconding Gresham's views in favor of a settlement by arbitration. This view is discredited by the officials, though not officially. General Duarte has arrived at Bluefields. A high official says the reports of the opposition to President Zelaya are greatly exaggerated.

California's Ossified Man.
MONTEREY, Cal., May 6.—The death in this city of William Tibbets, ended a case without parallel in medical history. The deceased was a sufferer from dropsy, but the peculiarity is that he was in a state of partial petrification. His body was as rigid as stone. The pricking of a needle made no indentation in the flesh and all power of sensation had disappeared. Mr. Tibbets was taken to the German hospital in San Francisco and nine physicians made close examinations and held many consultations, to discover the identity of

the strange ailment. No relief could be given the sufferer and two weeks ago he was brought home to die. The end came yesterday. A post-mortem examination was made and it was found that the only organs which were in a healthy condition were the kidneys. The deceased was a pioneer resident of this city and was 66 years of age.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merrian's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by Blakeley & Houghton, Druggists.

Beaten to Death.
PITTSBURG, May 6.—Isaac Jones, the night clerk at the First Avenue hotel, was brutally murdered in the basement of the hotel this morning. He had been beaten on the head with an iron bar and robbed.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely cramps and diarrhoea. He chanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden Drug Store and procured a bottle of it. It gave Mr. Carter prompt relief and I can vouch for its having cured me." For sale by Blakeley & Houghton, Druggists.
