

The Canal Commissioners.

New York, May 6.—The commission appointed some time ago by the president to examine the plans and route of the Nicaragua canal left for Mobile, Ala., last night.

There were in the party the commissioners, Colonel Ludlow, U. S. A., Commodore Endicott, of the navy, and Alfred Noble, and Assistant Engineers Davis, Wood, Stamford and Parke, of the navy, who will verify the surveys.

A stenographer and a cook accompany the party, and Naval Surgeon Stitt went along to look after the health of everybody connected with the expedition.

Mr. Noble said it was expected that the Montgomery would land the commission at their destination by May 12, and that fully two months would be required to do the proposed work.

The party will reach Mobile on Tuesday and will at once go aboard the cruiser Montgomery and proceed to Greytown.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by all druggists, 75c.

Read the following opinion of one of the most prominent American dealers who has sold hundreds of these wheels: RICHMOND, Va., Oct. 2, 1894.

GENTLEMEN—The Waverley Scorcher and Be'll came to hand yesterday. We are afraid you have sent us the high-priced wheel by mistake. You can't mean to tell us that this wheel retails for \$85? We must say that it is, without exception, the prettiest wheel we have ever seen, and, moreover, we have faith in it, although it weighs only 22 lbs., for of all Waverleys we have sold this year and last (and you know that is a right good number), we have never had a single frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high grade, so called, that we sell. We congratulate ourselves every day that we are the Waverley agents.
