Official Advice Regarding the Wreck of the Colima.

SAN FRANCISCO, May 31.—An Examiner special from the City of Mexico says:

"Official advice today bears out the main statement of the sinking of the Colima as in the special dispatch to the Examiner from the city of Colima, via this city, with but the exception that the wreck occurred below the port and on the southbound journey, instead of at the harbor entrance. Up to today the difficulty of getting messages over the wires from the west coast was unprecedented. George Herbert, manager of the Manzanillo and Colima railroad, wires your correspondent tonight that it is thought the three passengers rescued by the Romero Rubic belong to the family of S. Flor, and that the Pacific Mail continues its efforts to rescue all possible, and do every humane service within its power.

"The Romero has found at the scene of the wreck the body of an unknown woman who is apparently of Mexico origin. Mr. Herbert says the Barracouts sailed yesterday from Acapulco to do like service under orders from the government. All mail for Colima has been lost. Mr. Herbert's dispatch says:

"Later reports place the scene of the wreck 30 miles southeast of Manzanillo de Apiza. One woman, a Guatemalan, was saved, and returned to San Francisco by San Juan."

"Many inquiries have been received in this city regarding the safety of individual passenger, but all the saved appear to be in the lists already sent. Professor Whiting, of California, is evidently among the drowned, as diligent search has revealed nothing of his whereabouts up to tonight. They were given to me for the Examiner by the courtesy of General Pedro Hinojosa, secretary of the navy:

"MAZATLAN, May 29.—To the Secretary of War, Mexico: On the 27th inst. there was lost the American ship Colima at San Juan de Lima, 70 miles from Mazatlan. There were lost 170 persons and the saved were 21. (Signed) Alejandro Cerisola, captain of frigate Oaxaca."

"Mexico, May 31.—To the Secretary of War, Mexico: The steamship agency gives me the following to report: The Colima went down by striking a coral reef at Cuytitan, at a point six miles from land and 30 from Manzanillo, in 800 metres of water. The saved are: Albino, Cushing, Sarabia, Sutherland, Ruiz, Thornton, Gutierrez, Boyd, Zangorta, Oriol, Ross, Ramon, Zolis, Rolan, passengers. Of the crew, Hansen, third officer; Richardson, Carpenter, Raymond and Morel. There have since been found three more cabin passengers and two sailors, all living. (Signed) HINOJOSA."

The Formosan Rebellion.

LONDON, May 31.—The Times publishes a dispatch from Hong Kong giving details regarding the trouble on the island of Formosa. They show that the action which resulted in the island declaring itself a republic was prompted by the Chang Tat Chong party, as opposed to the Li family, General Tchong has been appointed foreign minister, and Ky Sing Kuk, the originator of the movement, has been superseded by Tang. Disensions have already occurred, and the common people, it is said, regard the republican declaration as an official joke.

A petition has been forwarded to Peking from South China praying the emperor to introduce constitutional reform; to remove incapable officials; to abolish the queue and foot bindings, and allow freedom of speech and of the press. The petition advocates reform on western lines.

Thomas H. Carter's Statement. NEW YORK, May 31.—Thomas H. Car-

ter, chairman of the republican national committee, in a public statement says: "In 1896 the republican party will stand for protection and restoration of bimetalism on a substantial and enduring basis. There may be differences of opinion on schedules, but not upon the principles of protection. There will be differences of opinion as to the best course to pursue to secure free and unlimited coinage of both gold and silver at a fixed ratio, but there will be no difference of opinion as to the desirability of bringing about that result. Upon one question there will be neither a difference of opinion as to the general principle involved nor the means to be employed—that is with reference to a restoration of a vigorous foreign policy."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. It's Right Against Common Sense

to suppose that an imitation offers the customer any guarantee like the original does. Take *Cottolene* for example. THE FAIRBANK CO. discovered it, perfected it, and spent thousands in making its merits known. It is plainly to their interest to make and keep it what it is to-day—the most popular shortening in the world. But when you come

these guarantees all disappear, and the housekeeper is at the mercy of an imitator who deals on others' reputation and who profits only by others' loss.

To ensure having good cooking and healthful food stick right to COTTOLENE and let all imitations severely alone.

Sold in 3 and 5 pound pails. Made only by The N. K. Fairbank Company, ST. LOUIS and Chicago, New York, Boston.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by Blakeley & Houghton, Druggists.
