And many tears that sway our trees and make the days have dimmed the pages of Whittier which told of Conductor Bradley and a delight, are strong enough in contrast how he died. Bradley was a conductor on an eastern road, and killed in a collision. The poet, Whittler, most beautifully tells the story of how, when the first shock of the collision was over, and his mangled body was taken from the wreck, those who bent over him heard the words "Put out the signal for the other train :"

"We bow as in the dust, with all our pride Of virtue dwarfed the noble deed beside. God give us grace to live as Biadley died."

being. Accordingly, the most intelligent and progressive people are found to employ the most refined and perfect laxative to reg-ulate and tone up the stomach, liver, and bowels, when in need of such an agent-hence the great popularity of Dr. Pierce's Pleasant Pellets. These are made from the purest, most refined and concentrated vegetable extracts, and from forty-two to forty-four are contained in each vial, which is sold at the same price as the cheaper made and more ordinary pills found in the market. In curative vir-tues, there is no comparison to be made be-tween them and the ordinary pills, as any one may easily learn by sending for a free sample, (four to seven doses) of the Pel-lets, which will be sent on receipt of name and address on a postal card. ONCE USED THEY ARE ALWAYS IN FAVOR.

ONCE USED THEY ARE ALWAYS IN FAVOR. The Pellets cure billonsness, sick and bilous headache, dizziness, costiveness, or constitution, sour stomach, loss of appetite, coated tongne, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derange-ments of the liver, stomach and bowels. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, they are un-equaled. They are tiny, sugar-coated granules; any child will readily take them. Accept no substitute that may be recom-mended to be "just as good." #### HOOD RIVER VALLEY.

The people of Hood River are to be age was done. congratulated upon the large yield and certain returns of their strawberry crop of 1895. Last year, because of want of transportation facilities, their labor, time and money was a dead loss, but this year their perseverance in improving and enlarging their berry fields has been rewarded. The success of this portion of the county, both in berry raising and apple culture, is due to the fact that the most approved methods are studied and adopted with great painstaking. Hood River apples have a reputation more than state wide, and many orchards on the Columbia, not in Hood river valley, reap the benefit of that reputation.

if the same care is given to the business; but until we learn to keep our apple tree from insects and properly cultivated and praned, we will never produce applea that are fit for anything but cider, and not very good for that.

Today has been prolific in runaways. Early in the day Mr. Sechlar's team started on a tear and about 11 o'clock the fine span belonging to The Dalles Lumbering company came dashing down the alley by THE CHRONICLE office. On Washington street the tugs broke and the wagon, or what was left of it, dashed into the sidewalk by the Lumbering Company's store. The team kept up its wild career and was last seen going up Fourth street. One of the horses was bleeding and seemed to be hurt.
