THE NEXT PRESIDENT

Senator Allison Favored by Clarkson of Iowa.

REED THE CHOICE OF SQUIRE

Good Reason to Believe That Olney Will Succeed the Late Secretary Graham.

NEW YORK, June 4.—General J. S. Clarkson, republican national committee man from Iowa, in an interview on the political situation, has pronounced in favor of Senator Allison. He said:

"An intelligent observation of the political situation convinces many republicans that Senator Allison will be nominated at the next republican convention. I myself am convinced that he will be the best candidate of the republicans, and, moreover, that he will surely be elected. I have nothing to say against the claims of other republicans, but in travels I have found the very strongest undercurrent running for Allison. I find this sentiment just as strong in the East as in the West.

Senator Allison is sound on all commercial and financial questions. Under him the tariff would be revised, not on high protection lines, but on lines that would carry out the great doctrine of protection. There would be no upheaval of the tariff, but it would be satisfactorily adjusted and the mistakes of the present administration would be remedied. International bimetalism would also be established under Senator Allison. He would not appoint any half-and-half commission to go abroad on this great question as did President Harrison. International bimetalism cannot be accomplished by the appointment of any such kind of a commission. Senator Allison would appoint a commission composed entirely of international bimetalists, whose hearts and souls would be in the cause, and when the foreign nations became convinced that such a commission had come to talk to them, the mission would be quickly successful. Senator Allison's commission on this subject would mean business, and there would be no useless speeches or tiresome and unsuccessful debates.

"Senator Allison has had a record of 32 years in congress. All that time not a stain, not a spot, not a reflection of the minutest character has rested on his long and honorable career. He is a safe man, and, mark my word for it, he will be the candidate of the convention."

"Where will the convention be held?"

"Why, I am in favor of San Francisco."

JUNE CROP REPORT.

Wheat Almost a Failure in Six Central States.

CHICAGO, June 3.—The June crop report of the Orange Judd Farmer, published this week, based on data up to May 27, makes the average condition of winter wheat 71.5 or 13 points short of last month, the heaviest crop in condition ever recorded in a single month. The condition is high on the Pacific coast, but in Ohio, Michigan, Indiana, Illinois, Missouri and Kansas the average is only 61. According to the report the total crop in the six states named will little more than furnish bread and seed required within their own borders while the total winter wheat crop this year, including the large production of the Pacific coast, will not make enough to more than furnish bread alone for the people in the winter wheat belt states east of the Rockies.

The acreage of oats is reported at 3.8 per cent larger than last year. The condition is 84, the lowest ever reported for June.

Sheepmen Must Move.

Wolcott, Col., June 4.—Advice re-

ceived today from Hayden, state the cattlemen and ranchmen, armed and masked, 800 strong, have decided to descend upon the sheepmen on Elkhead creek. At daylight Wednesday the sheep camp will be visited by a committee, serving notice on them to move over to Snake river divide within six hours. At the expiration of that time the main body will arrive to kill every sheep in California Park, 20 miles north of Hayden, in the Elkhead mountains, and 15 miles west of Hahn's peak.

In a State of Wild Excitement.

NEW YORK, June 4.—A special to the World from Havana says:

"The whole province of Puerto Principe is in a state of the wildest excitement," says a merchant who arrived from there last night. "It may rise up any movement like an explosion in a powder magazine." Realizing the critical situation in that region the merchant sold out his belongings and came here.

The insurgents throughout Puerto Principe are only awaiting the arrival of General Maxima Gomez, who is to assume command of their forces, and for whom they are anxiously looking.

The houses open in this city for recruiting Cuban soldiers for the revolution continue enlisting men unmolested.

Santiago is completely surrounded by rebels, and an attack is momentarily expected.

Telegrams from Santiago represent that the revolution is growing more and more serious in that department. Santiago City has been without meat three days. A herd of cattle was brought into Santiago guarded by force. The troops were attacked and routed by insurgents last night.

It is common knowledge here that the soldiers of the government do not want to fight, and that the commissioned officers inflict terrible cruelties on them during battles to make them fight.

Francisco Carrillo, a naturalized United States citizen, who has been imprisoned in the Morro castle since February 27, charged with taking part in the revolution, has been set at liberty and sent on board a steamer leaving for New York.

To Accept the State Department Portfolio.

WASHINGTON, June 4.—There is no longer any reasonable doubt that the president has fully determined to ask Attorney-General Olney to accept the state department portfolio. The president has not intimated to Olney his purpose. To other members of the cabinet, however, he has stated in substance that he should ask Olney to accept the place. He is delaying publishing the announcement in order that he might at the same time name the successor to Olney as attorney-general. It is regarded likely that Senator Gray's visit to Washington may have been response to a message from the president, and it is possible he may have been offered the attorney-generalship or consulted thereon.

Squire Favors Reed.

LITTLE ROCK, N. Y., June 4.—In an interview, Senator Squire, of Washington, said he rather favored Reed for the presidency. Asked as to what other candidates are being talked of in his state, he replied:

"Well, we hear much said of Allison, McKinley, Harrison and Morton. I do not think Morton's age would prevent him becoming a presidential candidate. He is still hale and hearty, and can attend to his duties without suffering much mental or physical strain. Allison has a large following in the West; so has McKinley, and the same can be said of Harrison. Silver will be the great issue."

It's Right Against Common Sense

to suppose that an imitation offers the customer any guarantee like the original does. Take *Cottolene* for example. THE FAIRBANK CO. discovered it, perfected it, and spent thousands in making its merits known. It is plainly to their interest to make and keep it what it is to-day—the most popular shortening in the world. But when you come

To accept any Counterfeits for Cottolene

these guarantees all disappear, and the housekeeper is at the mercy of an imitator who deals on others' reputation and who profits only by others' loss.

To ensure having good cooking and healthful food stick right to *COTTOLENE* and let all imitations severally alone.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,
