**Olney and Harmon.**  
WASHINGTON, June 7.—President Cleveland this afternoon announced the following cabinet appointments:

Secretary of state, Richard Olney, of Massachusetts; for attorney-general, Judson Harmon, of Cincinnati.

The announcement, which was made late this afternoon, created no surprise here, for it has been well understood for several days that Mr. Olney would succeed to the first place in the cabinet, made vacant by the death of Secretary Gresham. It is probable that tomorrow Mr. Olney will take the oath as the head of the state department. The president at one time contemplated other changes in his cabinet and a rearrangement of several portfolios, and in this connection consideration was given to the transfer of Secretary Smith to the department of justice, but this and other transfers were finally abandoned, and the president concluded that the simplest plan would be merely to fill the vacancy caused by Mr. Olney's promotion.

**Reaping the Harvest.**  
NEW YORK, June 7.—The Herald's Washington correspondent says:

England is reaping a sorry harvest as a result of the Corinto affair. By landing the marines on Nicaraguan soil to secure the payment of the indemnity for the exclusion of Consul Hatch she sowed for herself seeds of hatred in the native breast that has produced a crop of most bitter animosity, and has already affected her interests in Nicaragua, and will undoubtedly continue to do so.

This is made clear in the first report on this subject which has been received at the navy department from Commander of the Alert. The Nicaraguans and, in fact all residents of Central America, he says, consider the United States as their natural protector, and look to us for assistance when in trouble. They have an exaggerated notion of the scope of Monroe doctrine, as well as the size of the naval and military service of the United States, and believe, with the majority of Americans, that the United States can trounce the remainder of the world if necessary.

It was feared by the Nicaraguans, Commander Ide reports, that the British intended to obtain control of the canal, and they declared they would rather see the canal project defeated than have it pass into the British hands.

The regular monthly meeting of the Nicaraguan Maritime Canal Company will be held today. It is stated that only routine business will be transacted.

**Trade with China.**

STOCKTON, Cal., June 7.—Much interest is felt here over the announced intention of James J. Hill, of the Northern Pacific and Great Northern roads, to start a new line of steamers in the flour trade with China. The magnate of the North has announced that he expects to be able to place flour in the markets of the Orient so that it can be sold for 1 1/2 cents a pound, or 75 cents a sack of 50 pounds. From the city of Stockton by each steamer that leaves San Francisco for China many thousands of sacks are shipped, and it is the opinion of the shippers here that President Hill will find that he cannot long ship the staple for sale at the price named. It is his idea to place the flour on the market at so low a price that it will cause the Chinese to use flour instead of rice.

In speaking of the matter, J. M. Welsh, the resident owner of the Crown mills, said:

"The present low price of flour has been the cause of the large shipments, and during the present year many of the Chinese have learned to use the

American staple instead of the Chinese. At present California flour is laid down in the Chinese market for \$3.90 per barrel. Oregon flour can be placed there for \$3.50, or 87 1/2 cents per sack of 50 pounds. The only reason that it can be taken there at the low rate mentioned is because the market for wheat is off, but if it should recuperate and go to \$1.25 there would be an end to most of the flour trade with Orient. The reason that California flour commands a higher price in China than the product of the northern mills is because it is a lighter flour. It commands a better price in any market."

**Depew Improvement Company.**

BUFFALO, N. Y., June 7.—Chauncey M. Depew, H. Walter Webb, John Jacob Astor, Howard Webb and H. M. Twombly have secured a controlling interest in the Depew Improvement Company by the payment of \$728,000 in purchasing a huge block of stock of the company. It is believed that Cornelius Vanderbilt is also interested in the enterprise. These men control the power company of Niagara Falls, and it is believed the intention is to bring the car works of the Lake Shore road, the Lackawanna, the Nickle Plate, the New York Central and the Wagner Company to Depew, there to be operated by electrical power brought from the falls. A meeting of the investors will be held Monday, and an election of officers will then take place.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stamm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stamm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by Blakeley & Houghton, Druggists.

**Shippers Are Satisfied.**

ST. LOUIS, June 7.—Not for a long time has the rate situation in St. Louis been so deplorable and hopelessly bad as at present. In all directions, upon all commodities, and over all roads, shippers can get about any rate they happen to want. Tariff sheets are laid aside and freight men are engaged in a wild struggle to see who can get the most business at the least profitable rate.

Chairman Day has not yet called a meeting of the executive board of the Southwest Traffic Association, and the condition of affairs in that territory continues unimproved.
