

The Latest About Crops.

Light scattered showers occurred on the 5th, 7th and 8th, not sufficient in most localities to lay the dust. The maximum temperature ranged from 54 to 84 degrees; the minimum, from 44 to 58 degrees, except south of the Blue mountains, where it was 38 to 40 degrees on four nights of the week. The weather has been cloudy to partly cloudy, with variable winds. Frost occurred in sections on the 6th, but no damage was done.

The weather has not been favorable, except on Sunday and Monday, to rapid growth, but favorable to a more healthy stand and to rooting. Owing to the large acreage of volunteer and spring grain in Wasco, Sherman, Gilliam and Morrow counties, the wheat prospects are not encouraging. The correspondent at Clem, Gilliam county, reports "grain is looking badly; some of it is burning." From Morrow county comes this report: "In a large part of Morrow county and a part of Gilliam county, the crops are almost a failure; in some parts there will be no harvest. Fall sown wheat is heading out about one foot high, and spring grain, it is safe to predict, will not shade the ground; fully 50 per cent of the grain in this section is spring grain." Similar reports come from Wasco, Sherman and Gilliam counties, though the most discouraging from Morrow county. In Umatilla and Union counties fall sown wheat is in fine condition, but spring grain is poor and will not yield over one-half a crop. Heavy and general rains, with an absence of hot weather will materially benefit current conditions.

The Hood River correspondent reports two carloads of strawberries are now leaving there daily for the East. The strawberry crop in the lower part of the valley is about harvested. Cherries are now ripe. The crop is a full one, especially of Royal Anns and Black Republicans. The fruit crop throughout is in excellent condition and promises large returns.

Haying is in progress and average yields are being secured.

In the counties of Crook, Klamath, Lake, Harney and Grant, the season is very backward. These counties have an elevation of about 3000 feet, and they have had frost and ice during the past week, injuring vegetation. Sheep-shearing continues, and heavy fleeces are secured. The range grass is good, and stock presents a prime condition.

Grasshoppers are present in large numbers, and are doing damage in Morrow and Gilliam counties. They moved northward from Harney county.

The general cereal crop conditions are not of the most encouraging character throughout Eastern Oregon. Rain will help things wonderfully. There are no indications, at the present writing, for rain within the next few days.

Read the following opinion of one of the most prominent American dealers who has sold hundreds of these wheels:

RICHMOND, VA., Oct. 2, 1894.

Indiana Bicycle Co., Indianapolis, Ind.: GENTLEMEN—The Waverley Scorchers and Belle came to hand yesterday. We are afraid you have sent us the high-priced wheel by mistake. You can't mean to tell us that this wheel retails for \$65? We must say that it is, without exception, the prettiest wheel we have ever seen, and, moreover, we have faith in it, although it weighs only 22 lbs., for of all Waverleys we have sold this year and last (and you know that is a right good number), we have never had a single frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high-grade, so called, that we sell. We congratulate ourselves every day that we are the Waverley agents.
