Retribution is sometimes almighty slow, but it nearly always gets there energy of the system is recruited. It is just the same. Charles B. Morton, a Maine democrat who was made commissioner of navigation by Mr. Cleveland in his first administration and auditor of the treasury for the navy department early in the present administration as a reward for the scavenger work he performed in the campaign of personal abuse that was waged against the late James G. But he made the mistake of abusing the man who gave him office, this time, and was consequently kicked out of office, greatly to the satisfaction of officers of the navy, whose accounts it was his duty to pass upon, and with whom he has been in a constant wrangle ever since he held office. GENTLEMEN—The Waverley Scoreber and Bells came to hand yesterday. We are afreid you have sent us the high-priced wheel by mistake. You can't mean to tell us that this wheel retails for \$85? We must say that it is, without exception, the prettient wheel we have ever seen, and, moreover, we have faith in it, although it weighs only \$2 lbs., for of all Waverleys we have sold this year and last [and you know that is a right good number], we have never had a single frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high grade, so called, that we sell. We congratulate ourselves every day that we are the Waverley agents.
