MR. GLADSTONE.

England is just now in the midst of one of its frequent changes of administration, the liberals having suffered defeat Friday in the house of commons.

Mr. Gladstone was born in 1809, and is therefore 86 years of age. He entered parliament very early in life, at the time when Sir Robert Peel was a great leader, and, in the words of Macaulay, has been a distinguished debater in the house of commons ever since he was 21 years of age.

Notwithstanding his constant attention to governmental affairs, he has been able to contribute much to the study of classical literature and mythology, and his literary work will stand as long as literature is studied, a splendid monument to a great intellect.

In view of his long service, his age and feebleness, it will be most remarkable should he again accede to the wishes of his old followers and re-enter public life.

NEW YORK POLICE COMMISSION.

Not before within the present century has the New York police department been in the hands of men of national repute as leaders in civil service reform and administrative ability.

If the iniquity of the police service of New York is not wiped out under the management of these men, there will be little use of attempting to secure an honest service.

FOOLS ARE NOT ALL DEAD YET.

The price of wool keeps going up, and has reached ten cents at The Dalles. This is rough on protectionists who have been preaching that free trade in wool would ruin the industry of wool growing on our public lands.

Yes, the price of wool has been going up at The Dalles, and has reached the unheard of price of ten cents (unheard of since the Wilson bill went into effect).

rough on protectionists. (All wool raisers are now protectionists.) We have been preaching that free trade in wool would ruin the industry.

Before the democratic party went into power wool sold in The Dalles (and The Dalles was not then a competing point among transcontinental railroads, as now, and was not the best market on the coast, as now) for 13 to 20 cents; now it is from 7 to 10 cents.

The democratic orators employed by the national committee, are actually coming to this coast. They will avoid discussing the silver question, and confine themselves to "preaching democracy pure and simple."

BASEBALL SEASON OPENED.

The Dufur and Hood River Nines Play at the Fair Grounds--The Score Was 32 to 9.

Yesterday the baseball crank and the small boy were in their glory. A game of ball had been announced to come off at the fair grounds and in spite of the wind and dust quite a number climbed the long hill and proceeded to watch the contest.

CONCERNING PIANOS.

Kimball's Methods a Menace to the Entire Trade.

[Chicago Musical News.] The following advertisement has been given a prominent position in the daily papers of Washington, D. C., and has been printed in the Chicago Musical News and the American Hebrew News, of Portland. We desire to call the attention of the public to it.

The unfairness of the assertions it contains needs no emphasizing, for they will appear at once to the sense of right inherent in every legitimate dealer in pianos all over the country:

Next Tuesday will be a special bargain day on pianos at our store. We have found some grand bargains in new Upright Pianos (not the celebrated Kimball pianos), and propose to give the public a chance to secure new pianos next Tuesday at manufacturers' wholesale prices.

The prices Tuesday next for these new elegant Upright pianos will be only \$149 and \$159 each. Part time given if desired. These pianos will be on exhibit at our store all day Monday, but no sales will be made from this lot until Tuesday, and will continue that day only.

W. W. KIMBALL, Co., Metzger Building, Cor. 12th and F. Sts. The Kimball Company may regard such methods as fair and honorable, but they are open to the severest criticism in attempting to destroy the piano trade in Washington after many years of honorable work to promote it.

The unfairness of the card lies in the assertion that the pianos which are to be sold at sacrificial prices are not made by the Kimball company. Therein is the poison.

This whole scheme is perpetrated to give the Kimball pianos a position to which their merits do not entitle them. Although the Kimball advertisement declares these are not Kimball pianos which are to be slaughtered it does not enhance the value of their own instruments.

Those who are familiar with the Kimball pianos know perfectly well that the makers can afford to sell them at just such ruinous prices as are quoted for other instruments in their possession at Washington.

What is there in the Kimball piano to justify this step? Nothing.

The Kimball company make one of the cheapest pianos in the United States.

And after the Kimball piano is made ready for the market it is not then worth a place above a low rank.

When you come to think of it, can you name any genuine, first-class house that is selling the Kimball pianos?

The Kimball managers may consider they have made a brilliant stroke, but they are merely using gigantic power to foist a cheap make on the market.

The question is also one of a broader conception than mere local purview. Such advertisements as these out at the root of the piano industry for they mislead private buyers.

We shall not let this subject stop here. It is fraught with grave danger to the entire trade, and, although the Kimball company is composed of schrawd schemers, they may find they have far overstepped the bounds of legitimate business dealing.

E. JACOBSEN & Co., I. C. NICKELSEN.

County Surveyor Ed. F. Sharp left yesterday for Southeastern Oregon on a surveying trip. He will go near Burns, Harney county, and remain about two months. Three townships will be surveyed as follows: Townships 20 and 21 s, r 20 e and township 21 s, r 46 e.

Mr. Sharp took along with him as assistants Homer Angell, Charlie Campbell, Garin r Cratty and James Heater. They have all the paraphernalia necessary to a complete outfit and the men in the company are experienced campers. Mr. Sharp has done a great deal of government work and all of it had been speedily approved by the inspectors. The country he is going to now is said to be very fertile and possess fine grass for stock. The making of the survey will be the signal for the coming of many immigrants.
