THE FIRST DIVIDEND.

Today the D. P. & A. N. Co. pays to its stockholders the first dividend upon the stock. We congratulate the present and past managers upon the success which has crowned their efforts and made this division of profits possible;

This dividend is large, but it is the least of the dividends which have been paid by this company; all former dividends have gone, not to the stockholders whose money established and maintained the line, but to the producers of Wasco, Crook, Sherman, Gilliam and Grant counties in Oregon, and Klickitat and Skamania counties, Washington.

Weather Bureau Bulletin No. 10 of the Oregon State Weather Service for Eastern Oregon. Weather—No rain fell during the past week. The weather has been generally clear, with quite hot sunshine in the afternoon. The maximum temperature ranged from 68 to 90 deg. the minimum ranged from 48 to 64 deg. except south of the Blue mountains, where it ranged from 30 to 50 deg. These temperatures were from 4 to 8 deg. higher than the preceding week.

Before the Regulator turned her wheel, rates on merchandise from Portland to The Dalles were one-half the rate from Chicago to Portland, and rates from Chicago to The Dalles were the through rate to Portland plus the local rate from Portland to The Dalles. We are now a competing point among many transcontinental lines, and are freed from dependence upon any one of them.

PRaise FROM THE OREGONIAN. A remarkably fine piece of descriptive writing, both in diction and spirit, was the article entitled "Old Mount Adams" by Professor W. D. Lyman, of Whitman college, Walla Walla, published in the Sunday Oregonian of June 23d. The enthusiasm of a lover of the great things of nature is expressed in the easy and full language of the scholar who writes without pedantry or bombast.

MONEY AND LABOR MARKET. Yesterday's dispatches indicate that there is an unusual congestion of money in London and other commercial centers of Europe. No loans can be found which are satisfactory to the capitalists, railway bonds and other like securities are distrusted and find no takers.

trouble are very apt to have the most elaborate theories; but all agree that someone else is at fault, and each abuses that other as the common enemy of mankind—a dishonest flat silverite; a scheming, thieving cornerer of gold; an unpatriotic Cobdenite; or a tariff robber. None are honest but ourselves.

good crops are wanting. In Wallawa county the crops are all better than in other sections. To the south and east of the Blue mountains the irrigated crops are all right; elsewhere they are poor or fair.

CONCERNING PIANOS.

The following advertisement has been given a prominent position in the daily papers of Washington, D. C., and has been printed in the Chicago Musical News and the American Hebrew News, of Portland. We desire to call the attention of the public to it.

Next Tuesday will be a special bargain day on pianos at our store. We have found some grand bargains in new Upright Pianos (not the celebrated Kimball pianos), and propose to give the public a chance to secure new pianos next Tuesday at manufacturers' wholesale prices.

"Happy Ridge, Wasco county—Crops are looking pretty well, but the grasshoppers are destroying lots of grain." "Wasco, Sherman county—The prospects for grain in this county are very poor: dry winds and no rain have done the damage."

"Lexington, Morrow county—The past week has been much warmer than heretofore. The grain fields are entirely void of any green thing with the exception of a very few fields next to the mountains. The fruit crop looks very encouraging. Sheep on range in prime condition."

"Heppner, Morrow county—Rye near town averaged three-fourths of a ton to the acre; no improvement in prospects." "Goesberry, Morrow county—Some say that the best of our land will not give 10 bushels to the acre. Grass on the commons almost gone, though stock is yet in good condition."

"Athens, Umatilla county—Fall sown grain damaged by shrinkage fully 10 bushels to the acre. Spring grain in worse condition than last week. On the whole, crop prospects anything but encouraging. Corn and Potatoes need rain. Fruit all right."

The above reports cover the main grain-growing sections of Eastern Oregon, and it is seen the conditions for

The climatic conditions at the present time are such that rain is not probable for at least the next four or five days; that the temperature will continue to rise, becoming very warm by Tuesday. Portland, Or., June 25.

Kimball's Methods a Menace to the Entire Trade. [Chicago Musical News.] The following advertisement has been given a prominent position in the daily papers of Washington, D. C., and has been printed in the Chicago Musical News and the American Hebrew News, of Portland. We desire to call the attention of the public to it.

The Kimball Company may regard such methods as fair and honorable, but they are open to the severest criticism in attempting to destroy the piano trade in Washington after many years of honorable work to promote it.

The Kimball piano is made ready for the market it is not then worth a piano above a low rank. When you come to think of it, can you name any genuine, first-class house that is selling the Kimball piano?

The Kimball managers may consider they have made a brilliant stroke; but they are merely using gigantic power to foist a cheap make on the market. The question is also one of a broader conception than mere local purview. Such advertisements as these cut at the root of the piano industry for they mislead private buyers.

If you want a piano or organ, this is your opportunity to get a Kimball from the manufacturer and save agent's commissions. Don't fail to see those show Kimball pianos and organs, at the old Chronicle building. Pain has no show with Dr. Miller's Pain Pills.

"Preservative" is well recommended wherever used. Maier & Benton have just received a large consignment. They will take pleasure in explaining its merits.
