WEDNESDAY, - - - JUNE 26, 1895. OUR FOURTH OF JULY.

The Dalles has invited the people of the surrounding country to celebrate the Fourth of July with us. It behooves the town, from the standpoint of hosts, as well as from the standpoint of business men, to see to it that no one who comes shall regret their coming. Let the celebration be a rousing one, befitting the event which we celebrate.

DARK CLOUD OVER THE BIG BEND COUNTRY.

The Big Bend Empire, speaking of the bright prospects for an abundant harvest throughout the Big Bend country, says: "But across the clear field of this bright prospect one cloud still comes to cast dark shadows as it expands in the summer sky. That is the transportation problem." And indeed it is a dark cloud to the people of that country. Although surrounded by the grandest of rivers, they are shut in and dependent upon rail transportation after hauling their products twenty-five to fifty miles over sandy roads.

THE CUBAN REVOLUTION.

Interest in the Cuban revolution is increasing throughout the United States. Notwithstanding the precautions of the United States government to head off the enthusiasts, many are leaving and joining the revolutionists. Last Sunday Rev. J. A. Wilson, a prominent New York clergyman, openly espoused the cause of the Cubans, and from his pulpit eloquently denounced Spain's treatment of Cuba.

It needs very little to move Americans to espouse the cause of Americans against a European government, and the time will soon come when we shall again be called upon to recognize a neighboring republic which has thrown off a monarchical yoke. We sincerely hope it may be done with more grace and promptness than in the case of Hawaii. America has little use for monarchies, and we hope Cuba will soon show itself truly American.

We used to pay \$3.40 per ton for the transportation of wheat from The Dalles to Portland; we now pay for the same service \$1.25, a saving of \$2.15 per ton, or over 6 cents on every bushel. During the three years and a half that the river boats have been operated the stockholders have received a dividend of 10 per cent, less than 3 per cent per annum upon their capital. The producers of wheat last year alone were benefited more than 20 per cent on the wheat marketed, and yet many farmers believe that the monied men of this city are not well disposed toward them. The boat line is a good thing for the town; it is a good thing for the country; and nothing more clearly demonstrates that the interests of the town and the tributary country are identical than this transportation question.

Notwithstanding new and wonderful discoveries in illuminating appliances and materials, the production of petroleum for export was larger during the past year than ever before, exceeding that of 1893 by 100,000,000 gallons. The production of better lights by means of electricity seems to increase instead of lessen the demands for what almost seems an ancient means of illuminating.

If a New Englander should be told that bushels of cherries could be gathered in many of the cherry orchards near this city, each single cherry of which would measure from 3 to 3 1/2

inches in circumference, he would say: "That's another western story of the same character as your fish and big tree stories." But a visit to any of the orchards along Dry Hollow or 3-Mile creek will demonstrate that such a statement would be no exaggeration. We doubt if cherries grow to greater perfection or with finer flavor elsewhere in the world than in Wasco county.

A representative of the Southern Pacific railroad is in the city today, and made the statement that the Southern Pacific is in the field for trade from Eastern Oregon. The San Francisco merchants have looked with longing eyes towards getting a market for their goods in the Inland Empire, and the prospects of their doing so are exceedingly bright. The wool business is also what they are after, and, if necessary to obtain it, a large warehouse will be built and a storage department operated. All this will be done with the aid and co-operation of the D. P. & A. N. Co.

Military Orders.

HQRS. THIRD REGT. INF'TY., O. N. G. THE DALLES, Or., June 25, 1895. Orders No 8.

Companies A, G, and the Hospital Corps will parade in fatigue uniform, with leggings, canteens and fatigue caps, on July 4, 1895, at the armory of company G, The Dalles, Or. Assemble at 9:30 o'clock a. m. Field and staff officers, resident at The Dalles, will report to the colonel, mounted, and the non-commissioned staff to the adjutant at the same hour at the headquarters office.

The members of company A will proceed to The Dalles July 3, 1895, or prior, properly armed, uniformed and equipped for parade on July 4th.

By order of COL. THOMPSON. H. H. RIDDELL, Adjutant.

The spirited team belonging to Mr. E. E. Lytle added much to the excitement of last evening. Mr. Lytle was out driving and stopped at the Cold Storage works to attend to some business. While he was inside the horses became impatient and started off on their own accord. The further they went the faster and soon they tore up Second street at the regulation runaway speed. Passing E. J. Collins & Co.'s feed yard they thought it a place to get a meal and turned in, at the same time trying to knock a big freight wagon out of the road. It was the same old story of an irresistible force and an immovable body. The horses went one on each side of the freight wagon and the tongue of the buggy was broken to splinters. The horses were not injured nor the buggy, except the tongue, much damaged.

A very pleasant party was given yesterday afternoon by Mrs. M. Randall, at her home on the hill. The day was the 35th anniversary of Mr. and Mrs. Randall's marriage and the members of the King's Daughters and Good Intent society were invited to join in the occasion's festivities. The afternoon was passed very pleasantly in social conversation, after which a bountiful lunch was served. Many congratulations were given upon the auspicious occasion and wishes that the next thirty-five years would be as happy as the last thirty-five have been.

A quarterly inspection of the militia will take place this evening at the armory. Col. Thompson has issued orders to have both the staff, company G and the Hospital Corps appear at 8 o'clock, fully uniformed and equipped. The field and staff will report to the colonel, and the non-commissioned staff to the adjutant. There will doubtless be a good many visitors to see the boys dressed up in their best. The Dalles as the headquarters for this regiment, should take a great interest in the militia and its welfare.

Attention G. A. R. and W. R. C.

All members of above orders are invited to be present at the reception to our department officers at Fraternity Hall, Saturday evening, at 8 o'clock.

CONCERNING PIANOS.

Kimball's Methods a Menace to the Entire Trade.

[Chicago Musical News.] The following advertisement has been given a prominent position in the daily papers of Washington, D. C., and has been printed in the Chicago Musical News and the American Hebrew News, of Portland. We desire to call the attention of the public to it.

The unfairness of the assertions it contains needs no emphasizing, for they will appear at once to the sense of right inherent in every legitimate dealer in pianos all over the country:

Next Tuesday will be a special bargain day on pianos at our store. We have found some grand bargains in new Upright Pianos (not the celebrated Kimball pianos), and propose to give the public a chance to secure new pianos next Tuesday at manufacturers' wholesale prices.

The prices Tuesday next for these new elegant Upright pianos will be only \$149 and \$159 each. Part time given if desired. These pianos will be on exhibit at our store all day Monday, but no sales will be made from this lot until Tuesday, and will continue that day only.

W. W. KIMBALL, Co., Metzgerott Building, Cor. 12th and F. Sts. The Kimball Company may regard such methods as fair and honorable, but they are open to the severest criticism in attempting to destroy the piano trade in Washington after many years of honorable work to promote it.

The unfairness of the card lies in the assertion that the pianos which are to be sold at sacrificial prices are not made by the Kimball company. Therein is the poison.

This whole scheme is perpetrated to give the Kimball pianos a position to which their merits do not entitle them. Although the Kimball advertisement declares these are not Kimball pianos which are to be slaughtered it does not enhance the value of their own instruments.

Those who are familiar with the Kimball pianos know perfectly well that the makers can afford to sell them at just such ruinous prices as are quoted for other instruments in their possession at Washington.

What is there in the Kimball piano to justify this step? Nothing.

The Kimball company make one of the cheapest pianos in the United States.

And after the Kimball piano is made ready for the market it is not then worth a place above a low rank.

When you come to think of it, can you name any genuine, first-class house that is selling the Kimball pianos?

The Kimball managers may consider they have made a brilliant stroke, but they are merely using gigantic power to foist a cheap make on 'he market.

The question is also one of a broader conception than mere local purview. Such advertisements as these cut at the root of the piano industry for they mislead private buyers.

We shall not let this subject stop here. It is fraught with grave danger to the entire trade, and, although the Kimball company is composed of schrewd schemers, they may find they have far overstepped the bounds of legitimate business dealing.
