## ANTS A THIRD TERM

### Cleveland a Candidate for Re-election.

#### MONTE'S ELECTIONEERING TOUR

Ruth's New Sister--The Nicaragua Canal Commission Leave for Home.

New York, July 8.—A Washington dispatch says: Not only is Mr. Cleveland a candidate for the third term, but indications are not lacking that he is engaged in an aggressive canvass in this interest. Secretary Lamont's tour among the army posts is in reality an electioneering device. It has been the custom of recent secretaries to investigate the condition of the army at regular intervals, and this custom Lamont found easily adaptable to his political designs. If Mr. Cleveland expects to be elected again he is enough of a politician to know that the achievement of ambition will require the most skillful manipulation. Secretary Lamont's mission was to get in touch with democratic sentiment through the West, and to do exactly what needs to be done to conciliate Western sentiment by bringing support to the third-term candidate.

As far as the East is concerned, Mr. Cleveland has no anxiety. He believes the issue of "sound money," which he thinks he has created, will be sufficient to secure him the support of the East and the Middle States, although he understands the difficulties will confront him to New York, when he was nominated in 1892, it was done by delegates from the South and West, and it is for these that he is solicited now.

While there is no other aspirant for nomination sufficiently conspicuous to attract to himself the attention of the masses of the party, Mr. Cleveland is confident that the movement of sentiment will be toward him. From now on the time of the convention, with a republican congress, Cleveland, as president, will be the central democratic figure, and whether the democratic party like it or not, on him, he thinks, eyes of the party must be turned for guidance and instruction.

#### BABY RUTH'S NEW SISTER

Little Stranger Arrived at Gray Gables Yesterday.

New York, July 8.—A special to a paper from Buzzard's Bay, Mass., says: "There is rejoicing at Gray Gables, the president's summer home, over the arrival of another little girl, which evening event occurred at 4:30 o'clock yesterday afternoon. The little stranger is the general subject of conversation among all people in the vicinity of Mar-

ble mother of Mrs. Cleveland, Mrs. Cleveland, was not with her daughter when the child was born, but has been notified and will come to Gray Gables at once.

The president's family now consists of three children, all girls. Ruth, the first, was born in New York after the death of Mr. Cleveland's first term. She is a pretty brunette, much resembling her mother. Esther, the second child, born at the White House about two years ago, is a blonde, and is very pretty. She is not so well known to the public as is her elder sister, whose name has been widely published. Her resemblance to her father, however, is said to be as striking as that of her mother.

With children have been reared in luxury that money and position command. When they travel, they are attended by a nurse who never leaves her charge to leave her sight. On several occasions reports have

been circulated of attempts to kidnap the two little girls, and, as a consequence, they are always closely watched by the secret service.

Dr. Bryant, the attending physician, has attended Mrs. Cleveland at the birth of all three children, and accompanied her when she came here from Washington. He is a resident of New York, and it is at his home that the president stays in New York.

Dr. Bryant reported today that Mrs. Cleveland and the little one are resting quietly and everything is progressing finely. He will add nothing except that the new comer is a "fine little girl." Numerous messages of congratulation to the president have been received.

#### DON'T WANT A GOLD STANDARD

Indian Mahogany Cutters in British Honduras Prefer Silver.

New York, July 8.—A special to the World from Belize says:

The Indian cutters complain that the adoption by the colony of the gold standard has cut their wages in two. They sent one of their chiefs here to demand that the silver coins, which they received in payment for their work, be accepted at their par value, and not subjected to a discount. It is impossible to convince the Indians that the gold standard is of advantage to the country, as they point to the fact that they have been juggled out of half their pay.

Yucatan residents here want the colony annexed to Mexico, which still maintains a right to this region. The Yucatanians argue that this case is precisely similar to that of Venezuela, where the English have wrongfully possessed themselves of territory.

When the liver and kidneys are diseased it produces a feeling of despondency and gloom of mind that it is impossible to shake off. The victim needs the help of a remedy that will restore the deranged organs to their normal healthy condition. Dr. J. H. McLean's Liver and Kidney Balm will bring about this result. By stimulating them to increased activity in removing the waste of the system, it restores health and vigor of mind and body. Price \$1.00 per bottle.

#### Leaves for Home Today.

Colon, July 8.—The Nicaragua canal commissioners will leave here today. They say it will be decided after getting home whether they will make a report on the Panama canal or not.

The local press thinks it is a pity that in the interest of the United States and commerce of the world congress did not give instructions for a report on the canal.

#### A Pioneer's Recommendation.

Mr. J. W. Venable, of Downey, a pioneer of Los Angeles County, Cal., says: "When ever I am troubled with a pain in the stomach or with diarrhoea I use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it for years, know it to be a reliable remedy, and recommend it to every one." For sale by Blakeley & Houghton, Druggists.

#### Fighting an Election.

New York, July 8.—A special to the Herald from Lima, Peru, says: During the elections in Chorillos, nine miles from here, there was a sharp fight between the supporters of Arana and those of Bollinghurst, candidates for vice-president. Several persons were killed and wounded.

There is great danger in neglecting Colic, cholera and similar complaints. An absolutely prompt and safe cure is found in De Witt's Colic and Cholera Cure. For sale by Snipes-Kinnersly Drug Co.

The most pleasant little pills for regulating the bowels, are De Witt's Little Early Risers. Cures sick headache and constipation Small pill, Small dose. For sale by Snipes-Kinnersly Drug Co.

#### Her Mission Unknown.

New York, July 8.—A special to a local paper from Panama says the gunboat Boyaca left there quietly, bound south, presumably for Buena Ventura. The special mission of the boat is unknown.

## CONCERNING PIANOS.

Kimball's Methods a Menace to the Entire Trade.

(Chicago Musical News.)

The following advertisement has been given a prominent position in the daily papers of Washington, D. C., and has been printed in the Chicago Musical News and the American Hebrew News, of Portland. We desire to call the attention of the public to it.

The unfairness of the assertions it contains needs no emphasizing, for they will appear at once to the sense of right inherent in every legitimate dealer in pianos all over the country:

Next Tuesday will be a special bargain day on pianos at our store. We have found some grand bargains in new Upright Pianos (not the celebrated Kimball pianos), and propose to give the public a chance to secure new pianos next Tuesday at manufacturers' wholesale prices.

The prices Tuesday next for these new elegant Upright pianos will be only \$149 and \$159 each. Part time given if desired. These pianos will be on exhibit at our store all day Monday, but no sales will be made from this lot until Tuesday, and will continue that day only.

W. W. KIMBALL, Co.,

Metzerott Building, Cor. 12th and F. Sts.

The Kimball Company may regard such methods as fair and honorable, but they are open to the severest criticism in attempting to destroy the piano trade in Washington after many years of honorable work to promote it.

The unfairness of the card lies in the assertion that the pianos which are to be sold at sacrificial prices are not made by the Kimball company. Therein is the poison.

This whole scheme is perpetrated to give the Kimball pianos a position to which their merits do not entitle them. Although the Kimball advertisement declares these are not Kimball pianos which are to be slaughtered it does not enhance the value of their own instruments.

Those who are familiar with the Kimball pianos know perfectly well that the makers can afford to sell them at just such ruinous prices as are quoted for other instruments in their possession at Washington.

What is there in the Kimball piano to justify this step? Nothing.

The Kimball company make one of the cheapest pianos in the United States.

And after the Kimball piano is made ready for the market it is not then worth a place above a low rank.

When you come to think of it, can you name any genuine, first-class house that is selling the Kimball pianos?

The Kimball managers may consider they have made a brilliant stroke, but they are merely using gigantic power to foist a cheap make on the market.

The question is also one of a broader conception than mere local purview. Such advertisements as these cut at the root of the piano industry for they mislead private buyers.

We shall not let this subject stop here. It is fraught with grave danger to the entire trade, and, although the Kimball company is composed of schrewd schemers, they may find they have far overstepped the bounds of legitimate business dealing.

## MATCHLESS INSTRUMENTS.

Produced From the Immense Chicago Factories of the W. W. Kimball Company.

(Chicago Evening Journal, June 25, '95.)

W. W. Kimball Company's factories, corner Twenty-sixth and Rockwell streets, constitute with their stupendous operating equipment the most extensive plant in the world occupied in the manufacture of pianos and organs, and the only plant of capacity, resources and appointments adequate to conducting those twin industries with strict fidelity to the minutest details of each along the entire line of construction, from that of cases to that of actions, or the delicate and sensitive parts of the instruments. It is enough to say that they have become the treasure of a hundred thousand homes and schools and churches, East, West, North and South, with a rapidly increasing popularity in every state and section of our country. The most recent addition to the great plant has been the completion of a mammoth factory for the exclusive manufacture of church or pipe organs of any requisite dimensions or of any measurable capacity, up to that of the greatest cathedrals or concert halls in the world.
