"Music Trades has known for some months past that the W. W. Kimbail Co. of Chicago, had incorporated in New York state with a capital of \$600,000. but as the whole plan had not been debetter to keep the news for a while.

"I am enabled now to state the W. W. Kimball Co. have come east to stay and to make a big bid for the eastern trade. and especially for the trade in rich central New York." Think of it, \$600,000 in one state. The Kimball warerooms and Kimball concert hall in Chicago alone cost \$500,000. President Kimball lives in a \$500,000 residence on Prairie The company represents a capital of several millions which is exceeded by only a few of the largest banks in the United States.

Do you think with these facts before you that you would make a mistake in buying a Kimball piano or organ? Do you think the Kimball Co.'s warranty is good? Not to know the Kimball Co. and its instruments is pardonable in the laity, but is utterly inexcusable in any one in the music profession, and if they don't know the Kimball, it is because they are not posted or have some interest in not knowing it. In conclusion I will state I make this statement to protect the public against any misrepresentations which interested dealers may undertake to make regarding the Kimball Co. and its business and goods, and hope these remarks may help to guide a generous public in its selection of a reliable instrument.

We have a few pianos left. If you intend to take advantage of the special prices we are offering at this special sale, call at the old Chronicle building at once, as these instruments are going to be sold or shipped, and that might be L. V. MOORE. .

Indiana Bicycle Co., Indianapolis, Ind.:

GENTLEMEN—The Waverley Scorcher and Be'le same to hand yesterday. We are afraid you have sent us the high-prieed wheel by mistake. You can't mean to tell us that this wheel retails for \$85? We must say that it is, without eac ption, the pretitest wheel we have ever seen, and, moreover, we have faith in it, although it weighs only 22 lbs., for of all Waverleys we have sold this year and last fand you know that is a right good number, we have never had a slingle frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high grade. So celled, that we sell. We congratulate ourselves every day that we are the Waverley agents.
