## STABBED TO DEATH

### Another Murder in Walla Walla Penitentiary

#### THE WOUNDED MAN LIVES AN HOUR

Convict Ellis, while at work, struck six times with a knife by convict Harrison.

WALLA WALLA, Wash., July 12.—Another brutal murder was committed in the penitentiary this afternoon, the victim being William Ellis, and the murderer William Harrison, both convicts. The men were working in the jute mill, running looms about 40 feet apart. About 3 o'clock Guard August Henrod, who was occupying a cage in the center of the mill, noticed a commotion among the convicts near the loom where Ellis was working. Suddenly Harrison grasped Ellis round the neck with his left hand, and to the guard it appeared as though Harrison was striking Ellis with his right hand. The guard leveled a gun at Harrison, who immediately loosened his grasp on Ellis, and, dropping down behind the loom, crawled about 60 feet away and hid behind a bale of sacks. Ellis then walked over to the overseer's desk and fell on the floor. It was then noticed that he was wounded, and that blood was flowing from his side in a stream. The wounded man was hurriedly taken to the penitentiary hospital and Dr. J. E. Bingham, the penitentiary physician, was summoned, when it was found that Ellis had received six knife-wounds, two in the right arm, two in the stomach and two in the breast. One of those in the breast pierced the right lung, and one passed entirely through the liver. Ellis only lived an hour, death resulting from internal bleeding. He was only conscious a short time, and it was impossible to get him to tell the story of the affray, beyond saying that Harrison killed him with a knife. They were on bad terms, having had a quarrel several days ago.

Harrison was taken to the prison and placed in close confinement. He was searched by the officials of the institution, but they failed to find the weapon. The penitentiary officials are now investigating the case.

#### A Monument for Fremont.

NEW YORK, July 12.—The Associated Pioneers of the territorial days of California have issued a call to the late General John C. Fremont's friends for funds to erect a suitable monument over that soldier's grave. The commission having the matter in charge are: Real-Admiral Richard W. Meade, United States navy, retired president of the society in New York; Henry Wilson, Mark D. Wilbur, Francis D. Clarke, Stephen B. French, W. A. Hedenburg, John Gault, John D. Townsend.

The general is buried in Rockland cemetery, on the Hudson. The design of the proposed monument has already been settled upon, and is by Clio Hinton Haniker, of this city. The design shows a heroic-sized figure of the general standing upon a rock. The total height of the monument is 22 feet. On the cut is a cross, in commemoration of the cross Fremont cut upon the rock at Independence, and the words "Fremont, the Pathfinder."

It has been deemed best to confine the cost of the monument to \$10,000.

#### All Night on the Prairie.

DAVENPORT, Wash., July 12.—G. Cloener, while out riding over "Scab" country, southeast of Davenport, was thrown from his horse. He lay out all night and most of next day without food, water or protection of any kind.

Between creeping and dragging himself along on the grass, he managed to travel two miles. It was yet two and one-half miles to the nearest habitation, and his

strength was fast giving way. Fortunately as another night of suffering and exposure was staring him in the face, Joe Cassidy found him. Mr. Cloener was speedily removed to his home, and is now resting as well as could be expected under the circumstances.

#### To Improve Teachers.

DENVER, July 12.—At the morning session of the National Educational Association convention today, "Instruction and Improvement of Teachers now at Work in the Schools" was the general subject of discussion. Professor Irvin Olin, of the State university, at Lawrence, Kan., read a paper on "Teachers' Institutes," which, he said, was to the teacher what a newspaper is to an ordinary scholar.

Professor Earl Barnes, of Stanford University, California, followed with a paper on "Teachers' Classes." The reading circle was treated by L. H. Jones, of Cleveland O.

The papers were discussed by Mrs. A. J. Peavey, state superintendent of Colorado; James M. Green, of Trenton, N. J.; N. C. Shaeffer state superintendent of Pennsylvania, and John R. Kirk, state superintendent of Missouri.

#### Marvelous results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rivers junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Snipes-Kinerly Drug Co's Store. Regular size 50c. and \$1.00.

#### Blown Into Pieces.

ASTORIA, Or., July 12.—Word was received this evening that James Fish, a Clatskanie rancher, was killed Wednesday last, at his home by an explosion of giant powder. Fish had a large quantity of powder on the upper floor of his residence, and it is thought to have been moving it when the explosion occurred. The house was completely demolished on the second floor, and the unfortunate rancher was blown into fragments.

#### Sudden Death.

ITHACA, N. Y., July 12.—A dispatch has been received stating that Captain W. O. Wykoff, of the firm of Wykoff, Seamans & Benedict, died suddenly at his summer home on Cariton island, Thousand isles.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

KANSAS CITY, July 12.—George E. Black and George A. Neal have been appointed by United States Judge Phillips receivers of the Campbell Commission Company, an Illinois corporation, doing a cattle commission business in Kansas City, St. Louis, Chicago, South Omaha, Fort Worth. The money involved, \$850,000, was put up by the Metropolitan bank, which made application for the receivers.

Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best liniment I have ever used, and I take pleasure in recommending it to my friends." For sale by Blakeley & Houghton, Druggists.

#### Orangemen Parade.

BOSTON, July 12.—Over 1500 members of Orange lodges of Massachusetts participated in the annual parade in this city today in observing the anniversary of the battle of the Boyne. The procession was heavily guarded by policemen, and no hostile demonstration was made. The "Little Red Schoolhouse," feature of the parade received only a slight recognition.

Overwork, either physical or mental will produce weakness and loss of energy. Too many business or family cares, overwork in the harvest field, an excess of woman's work and worry will produce months of misery. For sale by Snipes-Kinerly Drug Co.

#### Mentally Incompetent.

DENVER, July 12.—A special to the Times from Rawlins, Wyo., says: Homer Merrill, ex-associate justice of the state supreme court, was today declared mentally incompetent to attend his business affairs. Mrs. Merrill will be made his guardian and attempt to unravel the many financial snarls in which he has become involved.

Neuralgia pains, rheumatism, lumbago and sciatic pains will yield to the penetrating influence of Dr. J. H. McLean's Volcanic Oil Liniment. Rubbed frequently and thoroughly over the parts affected or warmed in with a hand iron, pain cannot exist where it is applied. 25c, 50c and \$1.00 per bottle. For sale by Snipes-Kinerly Drug Co.

Venable, of Downey, a pioneer of Los Angeles County, Cal., says: "When ever I am troubled with a pain in the stomach or with diarrhoea I use Chamberlain's Colic, Cholera and Diarrhoea Remedy.
