HORR AND HARVEY

The Coinage Giants Begin Their Talk.

GREAT INTEREST IS SHOWN

The Nicaraguan Canal Contract may be Cancelled--Rates are Cut Again. Other News.

CHICAGO, July 16.—No such "big talks" have ever been planned before, it is claimed, as the 10-day-go-as-you-please match between representatives on the opposing sides of the money question, Roswell G. Horr and William H. Harvey, which opened today. It was about 2 p. m. when the witty ex-congressman from Michigan, now a resident of New York, and a sharp Colorado newspaper man, now a resident of Chicago, signified to the judges and the select audience present by invitation at the Illinois Club, Ashland avenue, that all was in readiness for the successive 10,000-word broadsides that, with three minutes' rests, were to last three hours a day for 10 consecutive days. The judges are ex-Solicitor-General of the United States Charles H. Aldrich and Hon. Henry Miller.

Horr spoke first. He said there was hardly a proposition in "Coin's Financial School" to which he could assent. He would attempt to prove that the theory therein set forth, if adopted by the people of this country, would only lead to financial ruin. Until an international agreement was established it would be simply suicide for this nation to adopt the system of the free coinage of silver upon the old ratio. He believed that the set of 1873, which Harvey's book denounced as a crime, was honestly conceived and openly passed. What people needed was good credit, good money, good principles and sound business sense.

Harvey in his opening statement named the propositions set forth in "Coin's Financial School," which he expected to make good in his debate, the chief of which is that it is to the interest of the United States to act independently in the demonetization of silver at a ratio of 16 to 1.

May be Cancelled.

NEW ORLEANS, July 16.—A private letter received here from Managua, Nicaragua, contains the following, which is stated with every degree of authority:

"The concession granted several years ago to the Maritime Canal Company by the Nicaraguan government for the construction of the Nicaraguan canal, is for the second time in great danger of being canceled, and if annulled this second time it will be otherwise disposed of. This second trouble is caused by the promise to build a canal at a point called Tiptapa, which would connect Lake Nicaragua with Lake Managua.

"When the concession was granted, it was agreed that in return for the concession a canal would be built at this point within three years after the beginning of the work on the main line of the Nicaraguan line. The time limit placed upon the completion of this waterway expired in October, 1892, and the company has made no steps toward carrying out their contract. The Nicaraguan government threatens the annulling of the concession and their threats come in the form of a resolution on the part of the president and his cabinet which, to all appearances, is final.

"The Nicaraguan Canal Company will be notified soon that the Nicaraguan government will hold them to their original proposition and the canal must be completed within a short period. In this they are firm, and should the canal company either refuse or neglect to carry out the original plan, the concession will be annulled finally and forever.

It is generally understood in Managua that if the work is not begun very shortly or if the canal company does not take almost immediate steps to convince the administration that the Tiptapa canal will be constructed, the next meeting of the congress of Nicaragua will ratify the cancellation of the concession, which Minister Gomez would not hesitate to bring about."

Rates Cut Again.

SAN FRANCISCO, July 16.—Rate-cutting is going on both north and south of San Francisco. Opposite steamers between the Columbia river and Puget sound ports, have again forced the larger corporations to make special rates to Portland, Astoria, Seattle and Tacoma. One dollar per ton is charged for freight to these points, and the passenger rates have again dropped to \$10 to Puget sound points, first-class, and \$8 to Portland and Astoria.

The Steamer Washtenaw is advertised to sail from Panama direct in opposition to the Pacific Mail.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address:

Was Not Lost.

RICHMOND, Va., July 16.—The steamer Ariel, reported sunk in the James river, with a crowd of colored excursionists, arrived safely at Petersburg this morning. She was delayed by a storm.

"We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Briceland, Cal. "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhoea Remedy. I procured a bottle and felt better after the first dose. Before one-half of the bottle had been used I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best." For sale by Blakeley & Houghton Druggists.
