

**BUDS, Society buds, young women** just entering the doors of society or womanhood, require the wisest care. To be beautiful and charming they must have perfect health, with all it implies—a clear skin, rosy cheeks, bright eyes and good spirits. At this period the young woman is especially sensitive, and many nervous troubles, which continue through life, have their origin at this time. If there be turbance, or the general health not good, the judicious use of medicine should be employed. Dr. Pierce's Favorite Prescription is the best restorative tonic and nerve at this time. The best bodily condition results from its use. It's a remedy especially indicated for those delicate weaknesses and derangements that afflict womenkind at one period or another. You'll find that the woman who faithfully used the "Prescription" is the picture of health, she looks well and she feels well.

In catarrhal inflammation, in chronic displacements common to women, where there are symptoms of backache, dizziness or fainting, bearing down sensations, disordered stomach, moodiness, fatigue, etc., the trouble is surely dispelled and the sufferer brought back to health and good spirits.

**"WOMAN'S ILLS."**  
Mrs. W. R. BATES, of Dillsboro, Trumbull Co., Ohio, writes:  
"A few years ago I took Doctor Pierce's Favorite Prescription, which has been a great benefit to me. I am in excellent health now. I hope that every woman who is troubled with 'women's ills,' will try the 'Prescription' and be benefited as I have been."

A Rare Treat.

ing manner that she was compelled to appear once more.

In the "Gypsy Flower Girl" Miss Jessup showed that she could recite pieces of a more serious type, and possessed the power of pathos. The audience was as still as an empty church during the rendition of this selection and showed their appreciation by a double encore. The selection "Tobacco" by the orchestra closed the evening's performance. It is not stretching truth to say that the performance last night was the finest of its kind ever given in The Dalles. The ladies who appeared were exceptionally good in their respective parts, and seldom has a Dalles audience been so responsive to merit.

Mrs. Hinsdale possesses a voice of wonderful sweetness and sings without a bit of effort which makes the effect all the more pleasing. Miss Minto and Miss Jessup were both surpassing in their different lines of ability. Should ever this entertainment be repeated in The Dalles the house will be crowded from stage to entrance. The thanks of the concert-goers are due to Manager Birgfeld and the orchestra for giving such an opportunity for pleasure. We are sorry for those who did not go.

**WHAT ANIMALS ARE TAUGHT.**  
Intelligent Trainers Instruct Them In Movements Natural to Them.

A celebrated trainer says: "Animals are never forced to execute, at the command and will of the intelligent trainer, any movements which are not natural to them in a free state." Monkeys love to swing in the tropical creepers, therefore they are placed on a trapeze; goats seek pointed rocks, hence they are natural equilibrist; dogs instinctively rise on their hind legs; so they are taught to maintain themselves in that position. A trainer is guided by the forces of fear, devotion, hunger and habit. Watch for these points when you see the Great Wallace Shows.

Thousands of persons flounder along for months, yes even years, suffering from indigestion, bowel troubles and liver disorders with their accompanying disagreeable symptoms, because they think they have to. McLean's Liver and Kidney Balm they would soon get rid of the miserable feeling and that overpowering sense of weariness and incapacity for work, would give place to one of health, vigor and cheerfulness. Price \$1.00 a bottle.

**CONCERNING PIANOS.**

Kimball's Methods a Menace to the Entire Trade.  
(Chicago Musical News.)  
The following advertisement has been given a prominent position in the daily papers of Washington, D. C., and has been printed in the Chicago Musical News and the American Hebrew News, of Portland. We desire to call the attention of the public to it.

The unfairness of the assertions it contains needs no emphasizing, for they will appear at once to the sense of right inherent in every legitimate dealer in pianos all over the country:

Next Tuesday will be a special bargain day on pianos at our store. We have found some grand bargains in new Upright Pianos (not the celebrated Kimball pianos), and propose to give the public a chance to secure new pianos next Tuesday at manufacturers' wholesale prices.

The prices Tuesday next for these new elegant Upright pianos will be only \$149 and \$159 each. Part time given if desired. These pianos will be on exhibit at our store all day Monday, but no sales will be made from this lot until Tuesday, and will continue that day only.

W. W. KIMBALL, Co., Metzgerott Building, Cor. 12th and F. Sts.  
The Kimball Company may regard such methods as fair and honorable, but they are open to the severest criticism in attempting to destroy the piano trade in Washington after many years of honorable work to promote it.

The unfairness of the card lies in the assertion that the pianos which are to be sold at sacrificial prices are not made by the Kimball company. Therein is the poison.

This whole scheme is perpetrated to give the Kimball pianos a position to which their merits do not entitle them. Although the Kimball advertisement declares these are not Kimball pianos which are to be slaughtered it does not enhance the value of their own instruments.

Those who are familiar with the Kimball pianos know perfectly well that the makers can afford to sell them at just such ruinous prices as are quoted for other instruments in their possession at Washington.

What is there in the Kimball piano to justify this step? Nothing.

The Kimball company make one of the cheapest pianos in the United States.

And after the Kimball piano is made ready for the market it is not then worth a place above a low rank.

When you come to think of it, can you name any genuine, first-class house that is selling the Kimball pianos?

The Kimball managers may consider they have made a brilliant stroke, but they are merely using gigantic power to foist a cheap make on the market.

The question is also one of a broader conception than mere local purview. Such advertisements as these cut at the root of the piano industry for they mislead private buyers.

We shall not let this subject stop here. It is fraught with grave danger to the entire trade, and, although the Kimball company is composed of schrewd schemers, they may find they have far overstepped the bounds of legitimate business-dealing.
