C. H. King, Water Valley, Miss., cured by Ayer's Sarsaparilla

For five years, I suffered untold misery from musclic rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending \$1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

There is one medicine which every family should be provided with. We refer to Chamberlain's Pain Balm. When it is kept at hand the severe pain of a burn or scald may be promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third the time otherwise required. Cuts and bruises should receive immediate attention, before the parts become swollen, and when Chamberlain's Pain Balm is applied it will heal them without matter being formed, and without leaving a scar. A sore throat may be cured in one night. A piece of flannel dampened with this liniment and bound on over the seat of pain, will cure lame back or pair in the side or chest in twenty-four hours. It is the most valuable, however, for rheumatism. Persons afflicted with this disease will be delighted with the prompt relief from pain which it affords, and it can be depended upon to effect a complete cure. For sale by Blakeley & Houghton, Druggists.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

What the Sentinel Thinks of The Dalles

The Goldendale Sentinel is troubled about The Dalles. That paper thinks we are going to the demitition bow wows. The following article is amusing, but it is impossible to tell whether or not the writer intended it to be so. Here is the future of The Dalles pictured to suit the worst enemies the city might have:

It is evident to everyone, who cares about investigating the matter, that The Dalles, unless she wakes up, is seeing her best days. She could become a good sized city, but she is letting the opportunities pass and perhaps has already done so. It would cost some money, but it was in her power to inaugurate a movement which would build a road from The Dalles, pass through the Klickitat valley, and tap the Northern Pacific. An easy grade can be gotten by slowly climbing up from The Dalles and coming through the Grant pass. It will cost a great deal more money though than from here to Lyle, our natural outlet and future shipping point. So in the near future The Dalles will have but little trade from Klickitat county. On the other side of the river she is losing prestige also. The Oregon Pacific will soon reach Crook county. When that time comes all that inland trade will go by rail through the Minto pass. Even now cattle and sheep are being driven across the summit to the present terminus of the Oregon Pacific and shipped to Portland. Proud village of The Dalles, unless you soon awake, thou art doomed. You are in your zenith, but even now the foundations on which your prosperity has been constructed are already crumbling. United action may save you, but if you fail, as fall you must, it will be on account of your own stupidity.

From the above we should infer that the writer was one of those who do not care to "investigate the matter." We hardly think The Dalles is seeing its best days. This city hasn't begun to see them. With the opening of the locks there will be an increase in the business done in The Dalles and it will be many times the immense volume now done. It is true there are some things The Dalles could do to increase its commercial importance, such as the building of some new roads and repairing of old ones, but all talk of The Dalles going into an early decline is the worst kind of "bosh."

The amount of business done by our merchants is greater this year than ever before and the future contains nothing but the fairest of promises for our city. As long as The Dalles is able to pay 44 1/2 cents per bushel to Klickitat farmers when Portland pays 48 cents, there is little danger of imminent danger of being doomed. "Proud village of The Dalles, unless you soon awake, thou art doomed" is good; it is eloquence and the sentence has a sound to it which Bob Ingersoll might covet. But, Mr. Editor of the Sentinel, we are awake and very much so and if you could spare a day or two from your exacting duties, The Dalles could show some things which would make your next article on The Dalles have a very different tenor.
