The address by Dr. Gue, which will be given in the armory tonight, is one which no one can afford to miss. A. R. and Woman's Relief Corps stand. It will be a rare treat to hear him.

The directors of The Dalles, Portland & Astoria Navigation Company held a regular meeting last evening. All the members of the board were present except Mr. Mays, who is out of the city. Only routine matters were gone through with at the meeting last night.

Workmen go down to the Cascades tomorrow to make some alterations in the portage incline at the lower end of the locks. The bulkhead is now sufficiently cleared out so that the dredge can go to work. This necessitates that a portion of the incline be changed. The job will not be a very lengthy one. The management of the boat lines and the Messrs. Day have always worked in the closest harmony, a condition conducive to the welfare of both.

The parade of public school scholars was witnessed by a large crowd this afternoon. There were 600 students in line but as they marched along the sidewalk it seemed as though the number was an under-estimate. It was a good opportunity to get an idea of the size of the attendance in our public schools. The exercises are being held in the Armory, but they will not be through in time for this afternoon's paper. A full report will be given tomorrow. The Armory contains a vast crowd who are much interested in the program.
