## ABDUL HAMID DEAD

The Sultan of Turkey Has Been Poisoned.

NO DETAILS HAVE RECEIVED

His Life Has Been Constantly Menaced for Days.—Attempting to Restore Orders.

BERLIN, Nov. 18.—A dispatch received here from Sofia, Bulgaria, says: The sultan of Turkey, Abdul Hamid, has been poisoned. No particulars have been received.

His Life Constantly Menaced.

CONSTANTINOPLE, (via Sofia, Bulgaria), Nov. 19.—The sultan for some time has been in a state of the greatest alarm, which told terribly upon his nerves. Rumors of the discovery of plots against his life became so frequent that they ceased to attract attention.

Some of his ministers have had to be kept constantly guarded by soldiers in order to give them courage enough to transact the business of their respective offices.

Throughout the night of Saturday, November 18, the most critical day for the Turkish empire, the sultan was engaged sitting close to the telegraph instrument in the Yildiz Ciosk, personally dispatching instructions to the provincial governors to do their utmost to restore order in their districts. This indicated that he had finally determined to take the reins of government in his own hands.

REGARDING OUR NAVY.

Two Stories Told in the Brooklyn Navy-yard.

SAN FRANCISCO, Nov. 19.—A special from New York to the Chronicle says:

Two interesting and significant stories were told in the Brooklyn navy-yard which have a special bearing on events now in progress of development. The first relates to the young German emperor, who made several visits to the white Squadron when it was at Kiel. One day he was talking with a celebrated American captain.

"Captain," said he, "I see that most of your country's warships are fast cruisers. What do you call them? Ah, commerce destroyers, do you not?"

"Yes, Emperor," said the American. "We've been watching you on this side," the emperor went on, "and we have come to a conclusion that these ships are built for a war with England. What other nation has commerce to destroy?"

There was silence after this, for our captain had said more than he intended to.

Grand Duke Alexis, who is a full Russian admiral and head of the Russian navy, was also a frequent visitor to the Americans at Kiel. One day while watching the Columbia, the grand duke said to the captain:

"I'm glad you Americans are rebuilding your fleet. Do you know what most impressed me when I visited your country? The first thing was your wonderful natural wealth, and, second, the absolutely inadequate means at your disposal for national defense. I have heard the project of capturing one or two of your great cities and holding for ransom deliberately discussed by officers of the European fleets, whose countries have hard work to make ends meet, and they meant it, too, but they were told that Russia and the United States are friends."

THREE FOUND DEAD.

Triple Murder Probably Committed Near Brownsville.

BROWNSVILLE, Or., Nov. 19.—This afternoon about 4 o'clock, at S. R. Templeton farm, three miles east of Brownsville, John Montgomery, his wife and

D. B. McKercher were found dead, having been murdered by unknown persons.

Montgomery was found lying on his back in the front yard, near a picket fence about 20 feet from the house, with the top of his head blown off. McKercher was found in the sitting-room, lying on his face, with a shot in the left side of the head, part of the skull gone, and with Montgomery's rifle across his legs, where it had evidently been placed. Mrs. Montgomery was found in the dining-room, lying on her face, shot in the back. All had evidently been killed while fleeing from the murderer or murderers.

No cause for the deed is known. Excitement here is intense. No one but the murdered people were known to be on the premises at the time the tragedy was committed. The coroner has been notified, but no evidence has yet been taken.

The cure of Rheumatism has often taxed medical skill, but it's prevention has been very easy by an occasional use of Simmons Liver Regulator. It keeps the liver well regulated, and the system free from poison. Therein is the secret of health. "I have used it for years for indigestion and constipation, and also found it gives one relief from a touch of Rheumatism."—N. Hughes, Lordsburg, N. M.

Sore throat. Any ordinary case may be cured in one night by applying Chamberlain's Pain Balm as directed with each bottle. This medicine is also famous for its cures of rheumatism, lame back and deep seated and muscular pains. For sale by Blakeley & Houghton.

H. J. Bentzen Found.

ASTORIA, Nov. 10.—Harry J. Bentzen, who mysteriously disappeared from Portland Saturday night and was thought to have committed suicide, was arrested in this city this afternoon by Chief of Police Loughery, and sent to Portland tonight on the steamer Telephone. Bentzen was recognized by a member of the Multnomah Club, as he was applying for work on board Fair's gasoline launch Lucero. Chief Loughery was immediately notified and at once wired to the directors of the Multnomah Club, where Bentzen has worked for some years, for instructions. The answer came back to arrest Bentzen and send him to Portland.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in Spring, when the languid exhausted feeling prevails, when liver is torpid and sluggish and the need of a tonic and alternate is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. Only fifty cents per bottle at Blakeley & Houghton, Druggists.

Blakeley & Houghton, the druggists, will tell you that no one is better qualified to judge of the merits of an article than the dealer, because he bases his opinion on the experience of all who use it. For this reason they wish us to publish the remarks of other dealers about an article which they handle. Messrs. C. F. Moore & Co., Newberg, Ore., say: "We sell more of Chamberlain's Cough Remedy than all others put together, and it always gives good satisfaction." Mr. J. F. Allen, Fox, Or., says: "I believe Chamberlain's Cough Remedy to be the best I have handled." Mr. W. H. Hitchcock, Columbus, Wash., says: "Chamberlain's Cough Remedy sells well and is highly praised by all who use it."

Will Be Commissioned Tomorrow.

WASHINGTON, Nov. 19.—The Indiana arrived at League island this morning. She will be formally accepted by the government today and commissioned tomorrow. She will be sent to Newport to receive her torpedo outfit.

## How to use Cottolene

the new shortening, like all other things must be rightly used if you wish the best results. Never, in any recipe, use more than two-thirds as much Cottolene as you used to use of lard. Never put Cottolene in a hot pan. Put it in when cold and heat it with the pan. Be careful not to burn Cottolene. To test it, add a drop of water; if hot enough, it will pop. Cottolene, when rightly used, delights everyone. Get the genuine, sold everywhere in tins, with trade-marks—"Cottolene" and steer's head in cotton-plant wreath—on every tin. Made only by THE N. K. FAIRBANK COMPANY, ST. LOUIS, Chicago, San Francisco, Portland, Oregon, New York, Boston.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

There are so many accidents to live stock which cause delay and loss to the farmer in his work. In a large number of instances the delay would be but trifling if a remedy was promptly applied. Dr. J.
