

A SPECIFIC —FOR— La Grippe, for Colds, Coughs, AND LUNG TROUBLES, AYER'S CHERRY PECTORAL

"Two years ago, I had the grippe, and it left me with a cough which gave me no rest night or day. My family physician prescribed for me, changing the medicine as often as he found the things I had taken were not helping

me, but, in spite of his attendance, I got no better. Finally, my husband,—reading one day of a gentleman who had had the grippe and was cured by taking Ayer's Cherry Pectoral,—procured, for me, a bottle of this medicine, and before I had taken half of it, I was cured. I have used the Pectoral for my children and in my family, whenever we have needed it, and have found it a specific for colds, coughs, and lung troubles."—EMILY WOOD, North St., Elkton, Md.

CHARACTER READING.

Two Hundred Points on Reading the Face.

Prof. N. N. Riddell's lecture in the M. E. church last night was "Character Reading." His lecture was thoroughly illustrated and added much to the interest. The two hundred or more points made on character reading were very suggestive to all interested in the study of human nature. The speaker, in opening, dwelt on the fact of how all from youth to old age were continually reading character. Even the little child scans its mother's face to see if there is a smile there before asking for a cookie. The peculiarities and characteristics of the various temperaments were fully described. Every person carries the sign-board of his character with him; some read "No Admittance." They wear the clothing tightly buttoned up, hold the fists closed, and shut the mouth like a turtle when they get through talking; they are generally an unknown quantity and will bear watching. Another sign-board is "Walk In." Such persons generally wear the clothing loose and keep their mouths open. Such have a transparent, open character, frank and lacking in policy and discretion.

Every line in the face means something that can be read by those who know how. We are transformed by the god we worship and if our thoughts are pure, noble and upright, the lines in the face will all have an upward tendency. Checkered lines in the face show a checkered character. Our habits write themselves on our faces; if the life has been one of dissipation and vice or temperance and study, it can be aptly seen by the most casual observer. Many extremely interesting points were given on reading the face of criminals, many other points were given on general physiognomy. At the close of the lecture the professor gave a test in physiognomy and phrenology combined. Tonight he gives his great lecture on "The Biggest Thing on Earth." Seats free. Everyone should avail themselves of the opportunity of hearing it.

A Rousing Meeting.

Last night settled the fate of the Athletic and Social Club. It is a sure go, and within a short time the club will be under full sway. In response to notices published in THE CHRONICLE, a large number of gentlemen assembled at the council chambers last evening to take part in the formation of the club. The hour set for the meeting was 8 o'clock, but at that time only one person was present, and at 8:30 only five or six appeared. The promoters were a little discouraged, but said nothing, and soon the crowd began to come, and by 9 o'clock the room was well filled with an enthusiastic business assemblage.

Mr. H. A. Bill called the meeting to order, and the minutes of the previous meeting were read by the secretary, Max A. Vogt. The club then rapidly proceeded to an organization. A motion

was made that the club adopt the constitution, by-laws and rules of the Multnomah Athletic Club of Portland subject to any amendments that might be made, and this motion, after some amendments had been proposed, was carried. It was suggested that the best way to get an organization was to choose a board of trustees and place the affairs of the club in their hands. It was finally decided to elect seven such trustees, and the chairman appointed Messrs. Crowe, Sinnott and Wilson a committee to select a list of names from which the seven trustees were to be chosen. The committee reported twelve names, and a ballot taken to choose seven. The following were elected as trustees of the club: E. C. Pease, H. J. Maier, John S. Schenck, R. B. Sinnott, H. A. Bill, J. S. Fish and W. H. Wilson. This board of trustees will select officers from among themselves and proceed with the organization of the club. Communication will be established with other clubs and gymnastic houses relative to securing apparatus and steps taken to secure a suitable building. The members present last night showed wisdom in the election of the trustees, and a better board could not have been chosen. If the club can be formed as contemplated, it will be an excellent thing for the city. The intention is to have a complete gymnasium, with shower bath attachment, bowling alley, reading room and a place for social gathering. It is intended that the club will be the social organization of the town.

The men will not be selfish in the matter and on certain days during the week the club rooms will be turned over exclusively to the ladies. Another meeting will be held a week from next Friday, at which definite reports will be made by the trustees.

Revolution in Venezuela.

New York, Dec. 4.—Correspondence to the Herald from Panama says: From trustworthy private advices it is reported here that the revolution which has broken out simultaneously in nearly all the states of the republic of Venezuela against Cresspo's autocracy is of a most serious nature. To preserve neutrality between Colombia and Venezuela, the government of Colombia has appointed an inspector, who is to reside at El Amparo in the state of Bolivar.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Sentenced to be Shot.

South Waucoma Addition to Hood River.

The owner of this, the most beautiful residence portion of this beautiful village, has notified us that money must be had and to cut the prices until they will sell, and so we have made a slash of from 25 to 40 per cent. on everything placed in our hands. When you realize the fact that the beautiful new \$9,000 schoolhouse is built in this addition and that this property surrounds it, you will know that it is offered at prices below anything ever known. We have three 5-acre tracts, two blocks from new schoolhouse, for \$750 each, or a rate of \$150 per acre. No land in this addition has ever sold for less than \$600 per acre and never will be again. We have also lots in adjoining block to the schoolhouse ranging from \$75 to \$250, according to location and size, no lot less than 50x100 feet. Now see what you think of this: We have an 8-room hard finished house with six lots, the house cost \$1,200, ordinary price of lots in same locality \$200; the former price at which this has been held was \$2,500. We now offer this beautiful property at the ridiculous figure of \$1,200. We have an adjoining house of six rooms, hard finished, with three lots, the very finest residence location in the city, only \$800. It is a crying shame to offer this property at these prices; but we are helpless and must obey orders. We have also some choice strawberry and fruit lands at very low prices. Now this is an advertisement and gotten up to sell the land, and is every word true. If you don't believe it come and see it; we will be glad to show it.
