IMMIGRATION.

· Governor McGraw should call the proposed state immigration convention; Cascade mountains, and Spokane should send to it a large and energetic delega-

and equipped for persistent and energetic immigration work. Not only this, but as a result of the recent convention at St. Paul, the states of the upper Missfunds for this work. Unless the people themselves, and press their claims upon the intending immigrant, they will be deprived of a hearing, and the states of the Pacific Northwest will get only such

organized lines to the east. Governor McConnell of Idaho is also expected to take timely action. That state being divided by an cast and west range of lofty mountains, its immigration interests could be best advanced by two conventions-one at Boise City in the south, and the other at some point in northern Idaho. Otherwise one of these sections would have insufficient representation, because at a single convention, either at Boise in the south, or some town of the north, the attendance would not be fairly balanced.

These state conventions should be supplemented by vigorous action by the different towns and counties. Here in Spokane the Bureau of Immigration, which has done excellent and publicspirited service, should be given substantial financial support. It is working on broad lines, and has been an important factor in the return of prosperity.

It needs to be understood that a great deal of money will be required for this work of attracting immigration. Literature should be circulated by the ton, and exhibits ought to be collected and displayed in the large centers of the East. We have here the country sought by the eastern immigrant, but it is necessary to inform him of that fact, and then prove it .- Spokesman Review.

WHERE TRADE HAS REVIVED.

Speaking of British foreign trade this year to September 30th, the London Economist said :

"There is, for instance, a notable drop from £66,661,000 to £62,978,000 in our imports from the United States, due mainly to the smaller quantities and lower prices of the wheat and flour we received from thence.

"Turning now to our exports the outstanding feature, so far as foreign countries are concerned, is an increase of close upon £8,000,000 in our shipments to the United States, which has been spread over most branches of our manufactures."

Thus during the first nine months of this year under the Gorman tariff, British imports from the United States decreased by £3,683,000 and exports in this country increased by £8,000.000, £11,683,000 for the period, or at the rate of £73,000,000 a year. This does not include profits made through gold transactions resulting from our increasing debt. The Wilson banquet should be supplemented by a testimonial, a gold plate suitably inscribed with the services rendered to British trade by the un-American professor,-Economist.

THE CONVENTION CITY.

Evening Telegram: Minneapolis lost Evening Telegram: Minneapolis lost money by winning the republican national convention four years ago, and St. Louis is not likely to take in enough dollars or wring sufficient glory out of the convention next June to offset her cash outlay of at least \$100,000. When Chicago, with her exceptional convention facilities, declined to offer more than \$50,000 for the big gathering, it was a foregone conclusion that it would be a losing investment for the city that captured it.

Pendleton East Oregonian: It would be a very good thing for a national con-vention to come to this coast. Many of the men of national reputation in both the great parties have toured the West and know its greatness. But the average delegate to a national convention has never crossed the rocky mountains,

and as for having been over the Cascade or Coast range, they would think they were being taken to a foreign land. These men have been in the north, the suth, the east and the middle west, but the West—the West proper—the country of magnificent distances, of the grandest mountain ranges, the biggest prairies, the most universal wealth, the finest forests of valuable timber, the richest soil, the balmiest climate—this to them is too far away to admit of Address all communication to "THE CHRON101.E," The Dalles, Oregon.

Spokesmen Review: It was good politics to give the convention to St. Louis. Missouri is a state of wonderful diversity of resources. It has a central situation, great transportation advantages by rail and water, and is eventually going to become one of the chief manufac-turing states in the Union. This is the influence that has caused it to throw off the gathering should be held east of the the bourbonism of half a century and Cascade mountains, and Spokane should swing into the doubtful column. The time is coming when Missouri will be as strong for protection as Pennsylvanis, and sending the national convention there fellows are lying upon their oars, one can be excused for taking his ease; but when the period of inaction is over. ment, that great issues are pending, and and there is a general bending to the that they can not learn too much about the political affairs of the nation. unfortunate

Cod-liver oil suggests consumption, which is almost unfortunate.

Its best use is before you fear consumption; when you begin to get thin, weak, run down; then is the prudent time to begin to take care, and the best way to take care is to supply the system with needed fat and strength. Scott's Emulsion of cod-liver oil, with hypothe net trade gain to that country being phosphites, will bring back plumpness to those who have lost it, and make strength where raw codliver oil would be a burden. A substitute only imitates the original.
