

LOSS OF VOICE After Acute Bronchitis CURED BY USING **AYER'S** Cherry Pectoral **A PREACHER'S EXPERIENCE.**

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

Regarding Wheat.

The following taken from the Portland Commercial Review gives a good resume of the wheat situation in Portland and throughout the Northwest:

The local market has been quite active during the past week; there has been more wheat received here than for some time past; offerings have been freer, and some large sales have been consummated. Though some holders for the past few weeks have been reserved in their offers and while satisfied from a survey of the world's markets that local exporters pay fully all the market will stand, yet having confidence that there must in time be a reaction in their favor, seemed to hold as long as they can finance their holdings, and it must be conceded that the bulk of wheat remaining in some sections of the Northwest is in strong hands and will be drawn only by a material advance in present prices. In the Palouse country over one half of the crop has been marketed, and in the Walla Walla country very little has been disposed of as yet. Though a few weeks remain before the turn of the year, we can look for a very active movement before then. Farmers will be compelled to avoid accumulating storage charges, and offers will be freer. The talk that has been spread out that exporters are lacking wheat to fill vessels now in port is false, when one firm the past week, having plenty of ships on hand, chartered a ship that was in port disengaged, this does not look as if exporters are suffering for wheat. Walla Walla wheat is quoted at 85c per cental, and valley 89c; this represents its full export value from this port. Exporters are in the market at about figures quoted above, but what business they do is entirely for future wants, as there is absolutely no need of wheat for the loading of chartered fleet, which is working as rapidly as the weather permits. The milling demand is very much curtailed, owing to the unremunerative sale of flour, and the inquiry for the manufactured article is so slow that no encouragement is offered to free buying.

None But Ayer's at the World's Fair. Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."
