M. Bohan, who was arrested in The Dalles and taken to Sherman county for trial on the charge of disposing of mortgaged horses, was bound over to the grand jury in \$300 bonds. At last accounts he had not raised the bail money.

Sturgeon fishing is pretty good just now. Several large catches are reported near town, one of them weighing 425 pounds. Four or five sturgeon were shipped to Portland on the Regulator this morning. Sturgeon fishing is becoming quite an industry around The Dalles.

In the window of C. E. Bayard's office are displayed some fossil remains, which attract considerable interest. They are the bones of some gigantic animal, which in ages gone, wandered over Eastern Oregon. A portion of the fossils was discovered by Joe Southwell and part came from Malheur county.

Corn and venison will be provided at the Red Men's wigwam tomorrow evening, and the members of the tribe will have a great time partaking of the good things. The members are requested to be punctually on hand at the hour provided for the opening of the council. The tribe will give the new year a good start.

The old year went out in the wet. Today the rain has fallen the greater part of the time and is making the ground in good condition to let the grass get started. Thus far the winter is proving a very satisfactory one, and with this sort of weather the country has little complaint to make.

A temporary porch has been constructed at the northeast entrance to the armory leading to the dressing rooms. A board walk has been built from Third street around the east end of the building to the same entrance. Those who go in carriages will drive through the alley. The building of the walk will be a convenience, and make the dressing rooms more easily reached.

James Walsah, an Indian who lives near Sherar's bridge, brought to the county clerk's office today five coyote scalps, for which he received a dollar each as bounty. The skins he sold elsewhere. The Indian is an intelligent one, and has a farm of 80 acres, upon which he, his wife and son reside. The coyotes in that vicinity are rather numerous, and Walsah says he is going to make some more dollars from killing them.

Three hundred men are said to be working at the locks. The melting of the snow and clear days have permitted work to be carried on, and reports say that considerable progress is being made. About one day's blasting is necessary to complete the taking out of the solid rock at the lower end, while but a small amount of time is necessary to complete the walls at the upper end. It is expected the dredges will begin operations shortly. The laying of the pipes, which

will provide for the hydraulic working of the gates, is about completed, and the connections will be made in a day or two.

Tonight will occur Professor Lloyd's lecture in the Congregational church. The subject will be "Clams." Professor Lloyd has lectured at different places in Oregon and been well received by all who heard him. He occupies the chair of biology in Pacific University, and is recognized as a learned teacher. His lecture tonight promises to be of interest.

A watch meeting will be held at the Methodist church this evening to help the old year out and the new one in. The services will begin at 9 o'clock and continue till after midnight. The time will be spent in listening to short speeches and participating in a song service. The custom of holding a watch meeting is a very old one, and has been observed for many years in the Methodist church. Everyone is invited to attend the meeting tonight.

The armory is gaily decorated for tonight. A committee from the hose company have worked like heroes all day, and have made the interior of the large hall a thing of beauty. Some of the decorations from the military ball have been left and many more have been added. The company's colors everywhere predominate. The attendance this evening promises to be very large, as tickets have been selling rapidly. The armory will accommodate all that go, however, and there need be no fear of any inconvenience to the dancers. The committee on arrangements have attended to every possible want of the guests. Society has been agog with excitement over the coming event and tonight will see the young ladies and gentlemen looking their best.

Stoey Bound Over.

The examination of Ed Stoey, who is charged with stabbing Tim Edmonsen at Wamic a week ago Sunday, was held at Dufur yesterday before Justice A. J. Brigham. The trial attracted a large number of spectators, and for a preliminary hearing the contest was a warm one. Two charges had been entered, one against Ed Stoey and the other against his father; but as the evidence did not connect the latter with the trouble, on motion of the defendant's attorney, he was discharged. About the same number of witnesses were examined on each side. The story of the state's witnesses was that young Stoey came to Edmonsen's house and asked for some hay, which Stoey claimed belonged to him. Edmonsen denied that such was the case, whereupon Stoey said he would go and bring his father, and did so. When the men came together again words followed, during which the subject of the spool of thread, which it is claimed Mrs. Edmonsen took from the Stoey house, was discussed. The state's witnesses claim that Stoey started for Edmonsen, who pushed him back and then the cutting resulted. The witnesses for the defense claimed that Edmonsen was the aggressor and that Stoey acted in self defense.

The examination lasted till after 10 o'clock last evening. E. B. Dufur, of Dufur & Menefee, appeared for the defendant, while G. W. Phelps represented the state. At the conclusion of the testimony and arguments, Justice Brigham decided to hold Stoey in \$250 bonds to await the action of the grand jury.

Mr. Dufur, Sheriff Driver and Mr. Phelps returned this morning, well covered with mud.
